

**Recommendation to the Chief Financial Officer  
Concerning Go/No-Go Decision #3  
Revised Detail Design Specification**

**Name:**

**Organization:**

**Date:**

*The Chief Financial Officer has requested that the Aspire Executive Committee provide recommendations for Go/No-Go # 3: Revised Detail Design Specification. Accordingly, individual Executive Committee members may, at their option, make a Go/No-Go Recommendation to the Chief Financial Officer based on the progress of the Project up to this point. Please provide your recommendation below, along with any comments you may have.*

I recommend that Project Aspire move forward. The project has made sufficient progress to warrant continuing through the Build and Test Phases.

I recommend that Project Aspire be halted. The project has not made sufficient progress to warrant continuing through the Build and Test Phases and it is in the best interests of the State to cease development of the Aspire system.

I will support the Chief Financial Officer in any go/no-go decision that he believes is appropriate.
