

Draft 6/15/05

## **The Integration Management Council Charter and Scope**

---

The Integration Management Council (IMC) workgroup has been established by the Aspire Project Management Office (PMO) as a forum for strategic discussion and resolution of agency development issues. The intent of the IMC is to have a full representation from all agencies to provide an opportunity to share concerns, suggestions, and lessons learned as agencies remediate their systems. Project Aspire “Functional” (a.k.a. the Application software work-stream) knowledge and input may be required and will be welcomed by the IMC on an as needed basis.

The IMC will work with Project Aspire in regard to issues such as:

- **Status of Agency Business System Remediation Efforts**
- **System Security**
- **Enterprise Performance Management (EPM)- EPM is the enterprise reporting framework on which to build and continuously evolve the organizational reporting requirements**
- **Interface Procedures & Definition**
- **Infrastructure Readiness**
- **Conversion Issues**
- **Interface Testing**
