NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies**A. Accounting Practices**

The accompanying financial statements of Florida Select Insurance Company ("the Company") have been prepared in conformity with National Association of Insurance Commissioners' (NAIC) Annual Statement instructions and the Accounting Practices and Procedures Manual, and the state laws of Florida.

The state of Florida requires insurance companies domiciled in the state of Florida to prepare their statutory financial statements in accordance with the NAIC Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the State of Florida, Office of Insurance Regulation. There are no differences between Florida prescribed practices and NAIC statutory practices which affect the Company.

B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from those estimates.

C. Accounting Policies

Direct, assumed and ceded premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rate methods for direct business and for reinsurance ceded.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs, such as commissions and service company fees, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains and (losses) are recognized on a specific identification basis when securities are sold, redeemed, or otherwise disposed. Realized capital losses include write downs for impairments considered to be other than temporary.

In addition, the company uses the following accounting policies:

1. Investment grade short-term fixed income investments are stated at amortized cost. Amortized cost is computed using the interest method.
2. Investment grade long-term bonds are stated at amortized cost using the interest method. Non-investment grade bonds are stated at the lower of amortized value or fair value.
3. Common Stock - None to report.
4. Investment grade redeemable preferred stocks are stated at fair value.
5. First lien mortgage loans on real estate - None to Report.
6. Investment grade loan-backed securities are stated at amortized value. The retrospective adjustment method is used to value all loan-backed securities. Non-Investment grade loan-backed securities are stated at the lower of amortized value or fair value.
7. Investment in subsidiary and affiliated companies - None to Report.
8. Investments in joint ventures - None to Report.
9. The accounting for derivatives - None to Report.
10. The Company does not anticipate investment income when evaluating the need for premium deficiency reserves (see Note 30).
11. Unpaid losses and loss adjustment expenses include amounts determined from individual case estimates, loss reports and amounts, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
12. The Company does not have any expenses which were capitalized.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.
