Overview

The creation of a new state agency through merger or reorganization of an existing state agency requires coordinated efforts of multiple entities, including the Legislature, the affected state agency or agencies, the Department of Financial Services (DFS), the Office of Planning and Budget (OPB), and the Department of Management Services (DMS). There are many steps involved for a new State entity to be fully operational by the intended effective date. To promote a successful and timely transition, many of the steps must be completed in successive order.

This *New Agency Guide* is intended as a resource for individuals responsible for the administrative tasks of creating a new State entity. The scope of this Guide includes critical tasks for financial management and the State's accounting system. This Guide focuses on those tasks that are required for an agency to make payments, process receipts, hire and pay employees, procure goods and services, and for the Department of Financial Services to meet the accounting and reporting requirements.

The *New Agency Guide* includes a description of the tasks, references to the applicable authority, and links to guidance, as applicable. This *New Agency Guide* is organized into three sections: *Overview*, *Summary of Tasks*, and *Appendices*.

The *Summary of Tasks* section is made up of two stages. Stage 1 identifies the tasks that must be complete before agency operations begins. Stage 2 outlines the tasks that can be completed at any time but are usually necessary within the first six weeks after agency operations begins. The timing of the completion of the tasks, and priority (i.e., high, medium, and low) of those tasks are identified within each stage.

Entities impacted should remain in close contact with the agencies with enterprise-wide responsibility, such as DFS, OPB, and DMS, during the crucial periods outlined in this document to facilitate the timely completion of all critical tasks for a smooth transition. Leadership in the affected agencies will need to identify a primary contact to coordinate the completion of all applicable tasks.

METHOD OF REORGANIZATION

Section 20.06, Florida Statutes-

(1) Type One Transfer – A type one transfer is the transferring intact of an existing agency or department so that the agency or department becomes a unit of another agency or a department.

(2) Type Two Transfer – A type two transfer is the merging into another agency or department of an existing agency or department or a program, activity, or function thereof or, if certain identifiable units or subunits, programs, activities, or functions are removed from the existing agency or department, or are abolished, it is the merging into an agency or department of the existing agency or department with the certain identifiable units or subunits, programs, activities, or functions removed therefrom or abolished.

New Agency Guide

The last section, *Appendices*, has several lists and tables and are used as resource materials that are relevant to the tasks described in the *Summary of Tasks* section. These lists and tables may be helpful in building your own project task lists.

Several information technology systems are used in the set-up of the new agency or merger of existing agencies. These systems comprise the components of the Florida Financial Management Information Systems (FFMIS), pursuant to Section 215.92, Florida Statutes. The following table describes each FFMIS system and its function.

SYSTEM	OWNER	FUNCTION
Florida Planning and Ledger Management (PALM)	Department of Financial Services (DFS)	The Division of Treasury (the Treasury) receives and disburses funds, invests available balances, performs related accounting functions, cash management operations, and consultations. Florida PALM is the tool used to carry out these responsibilities. Agencies will use Florida PALM for depository functions, disinvesting funds, and other banking activities.
Florida Accounting Information Resource (FLAIR)	Department of Financial Services (DFS)	FLAIR is a double entry, computer-based, general ledger accounting system, which is utilized to perform the State's accounting and financial management functions. Section 215.90, Florida Statutes, designates DFS as the functional owner of FLAIR, responsible for its design, implementation, and operation.
Legislative Appropriations Systems/Planning, Budgeting System (LAS/PBS)	Executive Office of the Governor (EOG)	LAS/PBS is used to manage the State's budget process. The Legislature uses LAS/PBS to develop the appropriations bills and proviso. The EOG uses LAS/PBS to allocate and control budget approvals, releases, and amendments.
MyFloridaMarketPlace (MFMP)	Department of Management Services (DMS)	MFMP is the State's eProcurement system. The system is a source for centralized procurement activities; it streamlines interactions between vendors and state government entities and provides tools to support the procurement process for the State.
People First	Department of Management Services (DMS)	People First is the State's web-based Human Recourse information system used for payroll preparations, time and attendance, recruitment, benefits administration, and organizational management. It is used by employees, managers, retirees, job applicants, and State human resources staff.

How to Use this Guide

This *New Agency Guide*, in the *Summary of Tasks* section, has identified 49 activities that are critical in the start-up or transfer of an entity and is organized in two stages. Stage 1 identifies critical tasks that must be complete before an agency begins its operations. The estimated time of completion for this stage is approximately ten weeks from legislative authorization. Stage 2

New Agency Guide

identifies critical tasks that may be completed within six weeks after agency operations have begun.

The timing of the completion of the tasks, and priority (i.e., high, medium, and low) of those tasks are identified within each stage. *Priority Levels* are discussed in more detail in the next sub-topic. Each stage is organized by topic and priority.

Within each stage, the tasks will be grouped by the following 8 topics:

- General
- Chart of Accounts
- Cash Management
- Receipts, Receivables, and Revenues
- Customers, Employees, and Vendors
- Payment Processing
- Grant Awards, Projects, and Contracts
- Financial Reporting

Each topic will include a task or group of tasks that share a commonality. Information for each task will include the details below:

- Background:
- Significance:
- Action Required:
- Form:
- Authority:
- Guidance:
- Owner:
- Priority:

If an item is not applicable for a particular task it will be marked N/A, for example, not all tasks will require a form to be completed, therefore, this item will be marked N/A. Additionally, some of the tasks identified in the *New Agency Guide* may not be applicable to the new agency.

The *Appendices* provides a compilation of resources to make the task of starting or transferring a new entity easier. Found is a simplified task table, a links to all the forms, manuals, laws, memos, and statutes that are referenced in the *New Agency Guide*. There is also a list of acronyms for those who might be new to this process, and contact information.

Priority Levels

The estimated duration to complete these administrative tasks varies greatly. Some tasks should be started earlier in the process due to longer implementation and completion periods. For this reason, there are three priority levels that are used to describe the critical tasks within each stage

New Agency Guide

PRIORITY LEVELS

H = High

M = Medium

L = Low

of the transition. These priorities are described as high, medium, and low, and are intended to describe the significance for the sequence of completion. While some flexibility exists regarding the timing of the completion of these tasks, for the duration of the project, the agency contacts should remain in communication with DFS to maintain a smooth transition process.

The following chart is a high-level look at the tasks that must be completed in each stage and the priority assigned to each task.

Summary of Tasks

Stage 1

Stage 1 includes the critical tasks that must be completed once a new agency has been authorized and before agency operations begin. Many of these tasks must be completed before subsequent tasks can be started. The estimated time of completion is within ten weeks of the new agency or merged agency starting operations.

Tracking any legislative actions and any budgetary actions should also be high priority for the Agency Representatives. Once identified, legislative actions can be tracked through, either the Florida House of Representatives Bill Tracker or the Florida Senate Bill Tracker.

Once legislative actions are completed or passed, any budgetary actions will be completed by the Office of Policy and Budget.

New Agency Guide

accounts. The cash control account (first 11 digits of the FLAIR account code) *must* be titled by Accounts Control Section before Agency staff can use the Agency Add (AA) function in FLAIR to add account codes. The agency may create account codes, using budget entity and category combinations within each cash control account, to accomplish business needs.

8. Fund Classification

- Background: Agency operations are accounted for using one or more funds. Each fund must be classified as one of the governmental accounting fund types. Each fund type has unique purposes, restrictions, and accounting requirements.
- Significance: Compliance with fund accounting requirements and generally accepted accounting principles is critical for the State's financial statements to be properly classified. A significant audit finding for the State's financial statements may result in the State's bond rating to be downgraded, thus resulting in higher costs to raise capital.
- Action Required: Complete the Fund Questionnaire for each unique fund number. The agency should contact the Bureau of Financial Reporting, Statewide Financial Reporting Section (SFRS), for assistance in selecting the appropriate fund classifications.
- Form: DFS-A1-1832, Fund Questionnaire
- Authority: Section 216.102, Florida Statutes
- Guidance: N/A
- Owner: Bureau of Financial Reporting

- Background: Bureau of Vendor Relations is responsible for maintaining the Federal Funds Table. The Federal Funds Table contains Agency accounts from funding sources exempt from escheatment to the Division of Unclaimed Property when a warrant becomes stale dated.
- Significance: Non-Escheat funds should be identified as soon as they are created to prevent funds from being sent to Unclaimed Property in error.
- Action Required: Complete the Non-Escheat Funding Sources Verification Checklist. Attached a list of funding sources that are excluded from escheatment.
- Form: Non-Escheat Funding Sources Verification Checklist

The Treasury operates a concentration account system which facilitates a master depository account and multiple sub-accounts.
- Significance: The use of an approved concentration account at an approved financial institution is required for Agency receipts to be recognized by the Treasury and accessible for Agency disbursements.
- Action Required: The agency should use Florida PALM to request a new subaccount. Depending on the types of services needed, an implementation period will apply.
- Form: Banking Services Request Form
- Authority: Section 17.58, Florida Statutes

12. Consolidated Revolving Account (CRA)

- Background: Treasury provides a Consolidated Revolving Account for agencies that have approval to utilize a revolving fund outside of the standard receipt/disbursement process. Treasury maintains a contract with a financial institution to provide an account for agencies to utilize for same day disbursements, etc. If a new revolving fund, the agency will first need to request approval from Accounting & Auditing before requesting the bank account from Treasury.

The fund is established as a local fund. Reimbursements are requested as needed, through the normal payment process.
- Significance: Timely coordination is necessary so the agency will not be limited to normal payment processes for urgent expenditures or lack access to change funds for offices that receive payment from the public.
- Action Required: Complete and submit request form to the Bureau of Financial Reporting.
- Form: DFS-A1-1823 – Revolving Fund Request Form
- Authority: Section 216.271, Florida Statutes; Rules 69I-23 and 69I-31.226, Florida Administrative Code, and Volume IV, Section 10 of the Payroll Preparation Manual

- Owner: Bureau of Financial Reporting
- Priority: Medium

15. Trust Fund Investments

- Background: Agencies may request that Treasury invest excess fund balances, where authorized, and receive an allocated share of investment earnings for each fund. Treasury invests all general revenue funds and trust funds (with some exemptions) of each state agency to maximize earnings.
- Significance: Investment earnings are allocated to authorized funds.
- Action Required: Identify which funds are eligible for investment and notify Treasury and Bureau of Auditing (BOA) to initiate the process. Treasury will establish the necessary Commitment Control (KK) ledger in Florida PALM and the Bureau of Financial Reporting will add the necessary attributes to the fund in Florida PALM.
- Form: N/A
- Authority: Sections 17.57 and 17.61, Florida Statutes
- Guidance: Florida PALM End User Manual

The State is required to minimize the number of days it takes for warrants, paid from Federal funds, to be presented to the bank for payment.
- Significance: The State is required to pay interest for excessive float time related to draws of Federal funds.
- Action Required: Identify any agency operations subject to these requirements and consult Treasury. The agency should create and use FLAIR account codes to manage the timing of draws of federal funds and the related disbursements.
- Form: N/A
- Authority: Cash Management Improvement Act of 1990
- Guidance: See the Treasury website
- Owner: Treasury
- Priority: Low

17. Florida PALM Cash Management Accounting Periods

- Background: The Division of Treasury uses the Cash Management Module within Florida PALM for Treasury activities related to agency deposit processing. When a new Business Unit is established within Florida PALM, Treasury will also need to establish new open periods for that BU for the Cash Management Treasury Accounting Fiscal Summary.
- Significance: This is required so that cash management transactions, including deposit and investment accounting can be processed accurately.
- Action Required: Request that Treasury establish open periods for the BU for the Cash Management Treasury Accounting Fiscal Summary.

- Significance: Coordination with the Bureau of State Payrolls is necessary to avoid delays in payroll processes that use special category accounts.
- Action Required: Notify the Bureau of State Payrolls of any payroll indicator requests, if needed.
- Form: N/A
- Authority: Volume IV, Section 1 of the Payroll Preparation Manual

- Action Required: Complete the Authorized Signature form and submit it to the Bureau of State Payrolls.
- Form: DFS-A3-1930, Authorized Signature Form
- Authority: Volume IV, Section 1 of the Payroll Preparation Manual
- Guidance: Payroll Preparation Manual
- Owner: Bureau of State Payrolls

- Priority: High

22. PYRL Access

- Background: PYRL is the payroll application of FLAIR. Agency access allows users to view and adjust employee payroll records including cancel payroll warrants and reissue.
- Significance: The timely setup of Access Control Custodian (ACC) and agency users will enable payroll professionals to complete cancellations and adjustments as needed in the payroll system once payrolls have been run.
- Action Required: Request an Agency Access Control Custodian be set up for the new agency. The ACC will be responsible for setting up any agency users.
- Form: The PYRL Access Request Form is not a published form. Email request for form to BOSPEmployeeRecords@MyFloridaCFO.com.

- Owner: Bureau of State Payrolls
- Priority: Medium

25. Establish Reemployment Benefits Account

- Background: Reemployment tax is paid by employers and the tax collected is deposited into the Unemployment Compensation Trust Fund for the sole purpose of paying reemployment assistance benefits to eligible claimants. Only the first \$7,000 of wages paid to each employee by their employer in a calendar year is taxable. Employers with stable employment records receive reduced tax rates after a qualifying period. The Department of Revenue (DOR) has administered the reemployment tax since 2000. DOR registers employers, collects the tax and wage reports due, assigns tax rates, and audits employers.
- Significance: This step should be completed before employees are paid through the State Payroll system so that reemployment taxes are appropriately calculated and collected.
- Action Required: Contact the Department of Revenue's Suntax Revenue Program Administrator to establish the account. Currently this is Dawn Rentz at 850-717-6001
- Form: N/A
- Authority: Sections 443.1215 and 443.131, Florida Statutes

- Significance: The Pay Data File is a resource for agencies to review the details of a payroll.

- Action Required: Contact the DFS Help Desk to request the Pay Data File. Provide FTP information for the secure file transfer.
- Form: N/A
- Authority: Volume IV, Section 1 of the Payroll Preparation Manual
- Guidance: Payroll Preparation Manual
- Owner: Bureau of State Payrolls
- Priority: Low

Payment Processing

27. ePayments – Credit Card and ACH

- Background: Treasury is responsible for oversight of banking services utilized by state agencies. Agencies that accept credit card and eCheck payments for services through a website or point of sale terminal are to utilize the standard electronic payments contract with a financial institution to process and receive these types of payments.
- Significance: Treasury can assist the agency with compliance with applicable requirements for credit card and Automated Clearing House (ACH) activity.
