The Honorable Rick Scott
The Governor of Florida
Capitol Building, Plaza Level
Tallahassee, Florida 32399-0300

Dear Governor Scott:

In accordance with Chapter 17.54, Florida Statutes, I am pleased to submit to you the Annual Report of the Chief Financial Officer of Florida for the Division of Treasury for the Fiscal Year July 1, 2017, to June 30, 2018.

Please let me know if you have any questions or would like additional information.

Sincerely,

Jimmy Patronis

Chief Financial Officer

JP/bg

Enclosure

**THE CHIEF FINANCIAL OFFICER** is the constitutional officer with the fiduciary responsibility over the Division of Treasury. As a core function of the Department of Financial Services, the Division of Treasury's goals are to be effective stewards of the operational monies and other financial assets of the State of Florida and to assist state employees with tools to help them prepare for financial security during their retirement years.

#### THE DIVISION OF TREASURY HAS THREE BUREAUS:

- The Bureau of Funds Management
- The Bureau of Collateral Management
- The Bureau of Deferred Compensation

**THE BUREAU OF FUNDS MANAGEMENT** operates a cash management system to maximize investments by speeding the flow of funds into the State Treasury. An emphasis on cash management consulting has identified potential cost reductions and interest earning opportunities for state agencies. The Bureau also performs standard treasury functions; such as, operating statewide receipts and payments posting systems.

**THE BUREAU OF COLLATERAL MANAGEMENT** is a centralized deposit location for specialized handling of regulatory collateral deposits. Regulatory collateral deposits are required of various entities by state agencies as a condition of doing business or acts of guarantee. Asset management staff is responsible for maintaining regulatory collateral deposits for 1,765 combined accounts that represent in excess of \$12.6 billion dollars. Program Administration staff is responsible for protecting more than \$23.3 billion in public funds deposited in 128 Qualified Public Depositories statewide. These deposits are protected by more than \$10.7 billion in pledged assets and a shared contingent liability managed by the Bureau.

**THE BUREAU OF DEFERRED COMPENSATION** manages the Deferred Compensation Plan, a voluntary pretax retirement program that supplements employee investment in the Florida Retirement System Pension and Investment Plans. The Deferred Compensation Plan provides employees of the State of Florida with tools to help prepare for financial security during retirement. To achieve this goal, the Bureau partners with five investment providers to offer excellent customer service and investment products at a reasonable cost. The Deferred Compensation Plan has more than 89,000 accounts and total assets over \$4.4 billion.

#### TREASURY INVESTMENT POOL

The Division Treasury manages a fixed income investment operation, the Treasury Investment Pool (Pool). The Pool consists of general revenue and trust funds in the Treasury, as well as, funds of organizations participating in the Treasury Special Purpose Investment Accounts (SPIA). SPIA is an optional investment program open to all entities established by the Florida Constitution/ Statute.

The Pool utilizes a combination of short and intermediate term fixed income investment strategies. The asset structure of the Pool is designed to provide strong liquidity, preserve capital and provide excess returns to the State. This is done through the use of short term, high-quality investments, as well as, additional investment income using intermediate investments.

During the 2017-2018 fiscal year, the weighted average daily balance of investment holdings was \$23.5 billion, a decrease of \$1.3 billion or approximately 5 percent from the prior year.

During this period, the Treasury allocated to the Pool participants earnings of \$418 million.
