Presentations -

Mark Mahoney, Director of Revenue Management for the Department of Children and Families, will provide an update on “grant world” in Washington, D.C. His presentation will provide some insight into the trends and potential developments at the federal grant level. This information could be helpful to participants as it provides a basis for possible changes in federal procedures or policies. In addition, an overview of how the Federal grant process works will be provided.

Mark Merry, Assistant Director of Accounting & Auditing at the Department of Financial Services, will provide a follow up presentation to the Analyzing Financial Statements presentation from November 2016. The focus of the presentation will be understanding how to interpret the financial information in the financial statement and how it applies to your contracts and grants.
