

DATE: June 26, 2017

TO: Agency Addressed (No. 44, 2016-2017)

FROM: Christina Smith, Director
Division of Accounting and Auditing
Department of Financial Services (DFS)

SUBJECT: FLAIR TITLE FILE

The FLAIR Title File and Correlation File was updated in error on June 23, 2017. The update caused the deletion of valid codes for budget entity, category, state program, and budget entity to state program correlations. As a result, agencies will receive error messages related to the affected codes, until the files are updated. The file is expected to be corrected before nightly processing begins on June 26, 2017. Agencies should resubmit any transactions or batch files that failed as a result of the deleted codes.

The aforementioned codes impacted by this error are identified at the following link: <http://myfloridacfo.com/Division/AA/Links/documents/AAMemoNo44-ListofImpactedCodes.xlsx>. The first tab identifies the budget entities, the second tab identifies the category codes, the third tab identifies the state program codes, and the fourth tab identifies the budget entity to state program correlations.

If an agency has errors not associated with one of these codes, agency personnel should research the issue and contact the FLAIR Help Desk for further assistance.
