9701	VISA CREDENTIAL SERVER	P

# One-time MCC Override Process

- ❑ Agency PCard Administrator emails the following information to the Statewide PCard Administrator's Office (SPCA):
  - Cardholder name
  - Last 4 digits of account number
  - Vendor name
  - Amount
  - Justification, including the invoice and supporting documentation for the purchase.
- ❑ If approved, SPCA will send the request for override to Dedicated Card East team at Bank of America (BOA) with a copy to agency administrator
- ❑ The BOA representative provides email notification stating that the override is notated on the cardholder's account and the merchant/vendor should call BOA's Authorizations Team at (866)500-8262 to obtain the authorization code for processing the override.
- ❑ After receiving the authorization code, the vendor should call its merchant bank to process the transaction manually using the authorization code.
- ❑ **Note:**
  - Overrides are good for 24 hours only, unless stated differently.
  - Overrides cannot be processed electronically, by swiping the card.
  - Overrides do not generally work for online transactions, as they are processed manually by the vendor's merchant bank after receiving the authorization code from BOA.
