Proposal (underline proposed new wording or strike-through the wording to be deleted):

10.11.1.1 New and existing buildings shall have approved address numbers placed in a position to be plainly legible and visible from the street or road fronting the property as well as the street or road it is addressed to, if differing.

Statement of Problem and Substantiation for Proposal (Note: State the problem that will be resolved by your recommendation; give the specific reason for your comment including copies of tests, research papers, fire experience, etc. If more than 200 words provide an abstract and describe the source document) (Must be filled in to be considered):

Due to the increase in sites developed a distance from the “vanity” street they are addressed to, it is becoming more and more common for commercial buildings to be obscured by other buildings or not visible from the roadway it is addressed to due to distance from the roadway. This will allow the jurisdiction to enable sites to maintain their “vanity” addresses and ensure public safety will be able to locate the address.

Describe the geographical area of impact:

All jurisdictions within the State of Florida.

1. The proposal shall identify the code section or local ordinance to be modified.
2. The proposal (Part I and Part II) along with Financial Impact Statement may be submitted electronically; however, a hard copy is required as follow-up.

Submit this evaluation with each proposed amendment.

1. How does the proposal strengthen the base code to enhance safety in Florida?
   
   This proposal provides language for visibility of addresses from the road in which it is addressed on.

2. Is the proposal easy to understand and how does it contribute to a user-friendly code?
   
   Yes, provides clear direction for developers and jurisdictions.

3. Document the proposal’s technical merit and how it is supported by a scientific basis?
   
   Former editions of NFPA 1 provided peer reviewed language to support the dimensions and visibility.

4. Describe how will the proposal be enforceable?
   
   Jurisdictions have the ability to meet the developers needs while ensuring public safety is able to perform quickly and efficiently thereby ensuring public safety.

5. How does the proposal affect Florida’s diverse conditions such as climate, construction and population?

   With more than 1000 individuals moving to the State of Florida a day our communities are continuing to expand. Many areas have grown so quickly that it is difficult for 911 Addressing and county site development review to ensure visibility in addresses. This individual believes that development will continue to increase requiring quick response.
