Title: FIRESAFETY INSPECTOR III CERTIFICATION

Release Date: June 8, 2021

FIRESAFETY INSPECTOR III CERTIFICATION - REQUIREMENTS

The Bureau will issue a Firesafety Inspector III Certification to an individual who holds a current Firesafety Inspector II Certification and meets the Program Requirements for Firesafety Inspector III as listed below.

Program Requirements.

1. The individual must possess an associate degree or higher.
2. The AHJ must document that the individual has at least six (6) years of experience as a full-time Firesafety Inspector;
3. The individual must complete the course "Evaluating Performance-Based Designs;" and
4. The individual must hold certification as a "Certified Fire Protection Specialist" (CFPS) with the NFPA.

Documentation of training is to be submitted with the required Application for Firesafety Inspector III Certification (DFS-K4-2205).
