### **C. Billing.**

Health care providers, including pharmacists, medical suppliers, out-of-state providers and federal facilities, must report medical services rendered and must bill in accordance with rule 69L-7.602, Florida Administrative Code (F.A.C.) available at the following website: <http://www.myfloridacfo.com/wc> (listed under rules and forms).

E. Maintenance and Release of Medical Records.

1. Health Insurance Portability and Accountability Act (HIPAA) and Applicable Licensure Requirements.

Health care providers shall create and maintain medical records of workers' compensation claimants in accordance and compliance with HIPAA, Chapter 456, F.S., and the applicable licensing statute(s) and administrative rules adopted thereunder, including the requirement to provide notice of privacy practices in a manner and form that meets the requirements of 45 C.F.R. § 164.520 advising the claimant that Protected Health Information (PHI) may be used and disclosed without prior authorization as necessary to comply with workers' compensation laws.

Every health care provider shall, except in an emergency treatment situation, make a good faith effort to obtain a written acknowledgement of receipt of notice of privacy practices no later than the first day of providing medical services to a workers' compensation insured patient, and if not obtained, document its good faith efforts to obtain such acknowledgment and the reason why the acknowledgement was not obtained. In the event a patient, guardian,

curator, or personal representative requests restriction(s) of the use or disclosure of identifiable health information that would prevent disclosure as necessary for treatment or payment for health care services, the hospital shall notify the insurer immediately, if possible, or by close of business on the next regular business day.

2. Carrier Disclosure.

Unless instructed otherwise, it is the responsibility of all health care providers to furnish, without charge, the following documentation to the insurer:

- d. Any additional written documentation when requested by the employer/carrier or designated claims handling entity in order to determine compensability of the injury or when medical necessity of services must be substantiated in more detail than previously disclosed. Failure of the provider to forward information when requested by the insurer may result in the billed service being disallowed or denied for payment until sufficient documentation is provided to render the necessary determination.

3. Special insurer requests (Code 99080).

Insurers may request physicians to prepare special narrative reports. Prior to a provider's provision of a special report, the insurer and provider shall agree upon reimbursement for completion of the special report. a. Injured Employee.

- (1) A health care provider, upon request, shall furnish an injured employee or the employee's attorney a copy of the employee's office chart, records and reports. Reimbursement shall be based on the geographic location and whether the services were rendered in a facility or a non-facility designation. d. Exceptions.

When a provider deems it medically necessary in the treatment of a particular individual's injury or illness to furnish medical services that exceed the number of services in specific reimbursement policy guidelines, a provider must:

- (2) Receive specific written authorization from the insurer to render the requested exceptional services before they are provided.

e. Co-payments.

- (2) The co-payment is not in addition to any applicable maximum reimbursement allowance or fee agreement. The reimbursement amount otherwise payable by the insurer shall be reduced by the amount of the co-payment.

3. Insurer reimbursement responsibilities.

- a. Insurers shall use the codes and descriptions, guidelines, definitions and instructions in the referenced CPT<sup>®</sup>-2009, CDT-2009/2010 and HCPCS-2009, in part for dental services, injections, and other medical services and supply codes prior to making reimbursement decisions. In addition, where not inconsistent with instructions in this manual or in rule 69L-7.602, F.A.C., insurers may utilize National Correct Coding Initiative (NCCI) edits as part of the bill review process.

- b. Insurers shall make available upon request from the state agency a methodology for determining reimbursement for codes that have no established MRAs, including Category III codes, unlisted procedure codes and codes that are paid BR.
    - (1) Insurers shall utilize the expertise of peer review physicians for concurrent review, including the appropriateness and cost of the medical services reported; billing and coding issues; and reimbursement determinations.
    - (2) Insurers shall make reimbursement decisions based on all of the provider's documentation; the insurer medical claims data; relative value studies; prevailing charges and reimbursement for procedures, services and supplies; and peer physician recommendations.
  - c. Insurers shall reimburse all work-related and medically necessary services provided in a documented medical or dental emergency.
4. Reimbursement Disputes.
- a. A contested disallowance or adjustment of payment by an insurer may be resolved by petitioning the department pursuant to s. 440.13(7), F.S.
  - b. Where an insurer has disallowed or adjusted payment for services rendered pursuant to an authorized workers' compensation managed care arrangement, a health care provider may not elect to petition the department pursuant to s. 440.13(7).

### **SECTION III: CLASSIFICATION OF AN INJURED EMPLOYEE'S STATUS.**

#### **A. General Guidelines Based on the Use of Patient Classification Levels.**

- 1. Providers and insurers are to utilize the workers' compensation specific patient classification levels, addressed in Part B of this Section, which are neither hierarchical nor severity indicators. (See rule 69L-7.602, F.A.C. for instructions on reporting classification levels.)
- 2. The classification system, which is criteria based, comprises descriptive categories that are provided as a means to promote decision-making, accountability and responsible medical claims handling practices. Additionally, the classification system enhances communication between the provider and the insurer which facilitates the authorization process and the provision of medically necessary care. Proper classification of the patient is intended to:
  - a. Convey to insurers the complexity of services that may be required for optimal clinical management;
  - b. Distinguish the overall critical differences among cases that influence the intensity, scope, and cost of services provided;

- c. Facilitate recognition of three varying clinical configurations that affect the medical treatment plan and treatment progress or other available benefits for an injured employee;
- d. Assist the insurer in decisions related to authorization of recommended treatment plans or treatment plan revisions;
- e. Ensure that on-going treatment plans and authorized reimbursable services are consistent with the high intensity, short duration treatment approach which focuses on specific clinical dysfunction before authorization is made to a provider.

**B. Patient Classification Levels.**

1. Level I: Key issue – specific, well-defined medical condition, with clear correlation between objective relevant physical findings and patient's subjective complaints. Treatment correlates to specific findings.
2. Level II: Key issue – regional or generalized deconditioning (i.e., deficits in strength, flexibility, endurance, and motor control). Treatment includes physical reconditioning or functional restoration.
3. Level III: Key issue – poor correlation between patient's complaints and objective, relevant physical findings, indicating both somatic and non-somatic clinical factors. Treatment includes interdisciplinary rehabilitation and management.

**SECTION IV: DENTAL SERVICES.**

- A. All dental services shall be authorized by an insurer before the services are initiated. An insurer shall only reimburse a dentist or an oral surgeon for authorized services.
- B. Dentists shall use the dental guidelines, codes and descriptors from the CDT-2009/2010 or the D codes in the HCPCS-2009 for dental procedures.
- C. Dentists shall use the appropriate guidelines, codes and descriptors from the CPT<sup>®</sup>-2009 and CDT-2009/2010 or D codes in the HCPCS-2009 for temporomandibular joint services.
  1. Dentists who provide temporomandibular joint services may use a combination of CPT<sup>®</sup>-2009 codes and dental codes from the CDT-2009/2010 or HCPCS-2009.
  2. Dentists shall refer to the physical medicine section of this manual for information on physical medicine reimbursement guidelines.
- D. Oral surgeons shall use the CPT<sup>®</sup>-2009 surgical guidelines, codes, descriptors and modifiers for oral and maxillofacial surgical services.
  1. Surgeons shall refer to the surgical services section of this manual for information on reimbursement for multiple surgical procedures, as well as other surgical reimbursement guidelines.

2. Surgeons may refer to other sections in this manual and may use CPT<sup>®</sup>-2009 codes.

E. Reimbursement to a provider shall be as follows:

1. Reimbursement to a dentist or oral surgeon for a dental procedure or service shall be either the agreed upon contract price or the listed MRA in the appropriate schedule.
2. Reimbursement to a surgeon for an oral and maxillofacial consultation shall be limited to one (1) consultative visit per date of accident.

**SECTION V: DISPENSING OF MEDICATION.**

A. Medicinal drugs.

1. Medicinal drugs, commonly known as legend or prescription drugs, shall be ordered for an injured employee by a licensed practitioner, authorized by the insurer to treat the employee.
2. Medicinal drugs are dispensed, stored and sold only by a pharmacist licensed under Chapter 465, F.S., or a dispensing practitioner according to the provisions in s.465.0276, F.S.
3. Medicinal drugs may be compounded by a pharmacist or physician when the drug formulation prescribed is not commercially available.
4. Federal regulations.
  - a. The Food and Drug Administration requires drug manufacturers to register and list manufactured drug products. The National Drug Code (NDC) is assigned by the manufacturer and placed on all prescription stock packages.
  - b. The Food and Drug Administration considers the “compounding of drugs” to be the practice of pharmacy/medicine. A compounded drug does not have a NDC.
5. Reimbursement limitations.
  - a. Reimbursement shall only be made to a licensed pharmacist or licensed dispensing practitioner for provision of medicinal drugs under the NDC number and reimbursement is calculated according to the formula below. (Providers should refer to rule 69L-7.602, F.A.C. for the option of using the workers' compensation unique code DSPNS in addition to the NDC. See also Appendix D.)
  - b. Reimbursement for prescription drugs shall be as follows:
    - (1) The pharmaceutical reimbursement formula:

Average Wholesale Price (AWP) + \$4.18 dispensing fee = Reimbursement; or

- (2) The contracted reimbursement amount determined in accordance with the contractual arrangement between the provider and insurer.
- c. A pharmacist or physician shall be reimbursed for a professional service related to compounding drugs which formulations are not commercially available.
  - (1) The amount of reimbursement to be made by the insurer shall be mutually agreed upon by the provider and insurer prior to the compounding.
  - (2) A physician or pharmacist shall be reimbursed under the workers' compensation unique code COMPD for compounding drugs furnished to a patient.

  2. Reimbursement to a dispensing practitioner shall be as follows:
    - a. Reimbursement shall be made to a dispensing practitioner for furnishing over-the-counter drugs. A dispensing practitioner shall use the NDC number and submit an invoice to the insurer that provides the name, dosage, package size and cost of drugs, including manufacturer's applicable shipping and handling. (Providers should refer to rule 69L-7.602, F.A.C., for the option of using the Workers' Compensation Unique Code DSPNS in addition to the NDC. See Appendix D.)
    - b. Reimbursement shall be made at the provider's charge or an amount not to exceed twenty percent (20%) above the actual cost of each drug furnished.
    - c. Reimbursement shall not be made for oral vitamins, nutrient preparations and dietary supplements.

#### **SECTION VI: MEDICAL SUPPLIER SERVICES.**

- A. Medical supplies and durable medical equipment (DME) shall be prescribed by a physician and may be provided to an injured employee by a medical supplier through rental or purchase.
- B. A medical supplier shall obtain written authorization and a payment agreement from the insurer prior to furnishing an injured employee medical supplies or equipment.
- C. A medical supplier shall provide the insurer with a copy of the physician's original order with the bill for reimbursement. The medical supplier is not required to provide invoices with the bill to document the actual costs of supplies and equipment. A medical supplier is required to submit HCPCS codes. Where a more specific HCPCS code is not available for medical supplies and DME, reimbursement shall be made under A9999.

D. Reimbursement.

1. Reimbursement shall be made to a medical supplier by the insurer for rental or purchase of medical equipment and supplies.
  - a. The insurer may rent the item from the supplier for the injured employee.   - b. The insurer may purchase the item from the supplier.
2. An insurer shall reimburse a medical supplier at the price stated in the payment agreement, upon receipt of a bill and copy of the physician's original order.

**SECTION VII: MEDICAL SERVICES.**

A. Biofeedback Services.

1. Reimbursement to a health care provider for biofeedback training shall be limited to twelve (12) visits per date of accident. This biofeedback training limitation does not include individual psychophysiological therapy incorporating biofeedback training by any modality with psychotherapy.
2. Reimbursement for the collection and interpretation of biofeedback data digitally stored and downloaded shall be included in the reimbursement to the provider for the basic biofeedback service.

B. Electrodiagnostic Medicine.

The referring physician shall determine the medical necessity of an electromyography (EMG) or a nerve conduction study (NCS). Only a physician shall determine the frequency of testing or the necessity of repeat testing.

1. Needle electromyography (EMG).

  - (2) Provided written authorization to the non-physician surgical assistant prior to the surgery; or
  - (3) Verified that during a medical emergency a physician was not available to assist at surgery.
- c. Non-physician surgical assistants (including physician assistant, nurse practitioner, or registered nurse first assistant) shall append HCPCS Level II modifier AS to the appropriate code to identify services rendered as an assistant at surgery.

2. Two surgeons.

- a. Reimbursement shall be made to two (2) surgeons at the same operative session for performing distinct parts of a surgical procedure. The services provided shall be identified by the same code with modifier 62 added. Reimbursement to each surgeon shall be made at sixty-two and one-half percent (62.5%) of the listed MRA in Part B, Section XI in this manual or the agreed upon contract price.
- b. Reimbursement shall be made to two (2) surgeons at the same operative session for rendering separate surgical procedures identified by different, unmodified codes. Reimbursement to each surgeon shall be made at the listed MRA, in Part B, Section XI or the agreed upon contract price.
- c. Reimbursement shall not be made to either surgeon until the insurer has received and reviewed each surgeon's bill and individual operative report.

3. Surgical team.

Reimbursement for a surgical team shall be made BR to each team member for each surgeon's surgical service. Each team member shall identify the specific procedure with modifier 66 added to the code.

C. Reimbursement for multiple procedures.

1. Reimbursement shall be made for all medically necessary procedures when more than one (1) procedure is performed during a single operative session.
2. Reimbursement for the primary surgical procedure shall be the MRA in Part B, Section XI in this manual or the agreed upon contract price.
3. Reimbursement for an additional procedure shall be made at fifty percent (50%) of the listed MRA in Part B, Section XI in this manual or the agreed upon contract price. The additional procedure shall be identified when modifier 51 is added to the code to indicate the performance of multiple procedures.

D. Reimbursement for bilateral procedures.

1. Reimbursement shall be made for bilateral procedures that are performed during the same operative session.
2. Reimbursement for a bilateral procedure that contains the word "bilateral" in the descriptor shall be made at the listed MRA in Part B, Section XI in this manual or the agreed upon contract price.
3. Reimbursement for a bilateral procedure that does not indicate that it is bilateral shall be made when the procedure is billed twice as follows:
  - a. Reimbursement for the first procedure shall be made at the listed MRA, in Part B, Section XI in this manual or the agreed upon contract price.
  - b. Reimbursement for the second procedure identified by adding modifier 50 to the procedure code, shall be made at fifty percent (50%) of the listed MRA in Part B, Section XI in this manual or the agreed upon contract price.

**SECTION X: ANESTHESIA SERVICES.**

A. Reimbursement for anesthesia services shall be made to a physician or to non-physician anesthesia providers limited to certified registered nurse anesthetists (CRNAs) and anesthesia assistants (AAs) rendering services within scope of state licensure.

1. Reimbursement shall be based on application of the following values, physical status modifiers and certain qualifying circumstances.

a. Basic value (BV) or base unit.

- (1) The usual preoperative and postoperative visits, the anesthesia care during the procedure, the administration of fluids and/or blood and the usual monitoring services (ECG, temperature, blood pressure, oximetry, capnography and mass spectrometry) are included in the BV.
- (2) When multiple surgical procedures are performed during an operative session, the BV for the anesthesia procedure with the highest value is billed and reimbursed.
- (3) The BV units, listed in Part A, Section XI under Anesthesia, for each anesthesia procedure code are used in calculating reimbursement.
- (4) When a surgeon provides regional or general anesthesia for a surgical procedure that he or she actually performs, modifier 47 is appended to the surgical code to indicate that the operating surgeon performed the anesthesia. Reimbursement shall be at the BV for the anesthesia service rendered.

b. Time (TM) units.

- (1) Anesthesia time begins when the provider starts to prepare the injured employee for anesthesia care in the operating room or in an equivalent area and stops when the provider is no longer in personal attendance.
- (2) Anesthesia time shall be billed as the total number of minutes of anesthesia. For example, one (1) hour and fifteen (15) minutes of anesthesia must be billed as seventy-five (75) minutes of anesthesia.
- (3) The minutes of anesthesia must be converted into TM units as follows:
  - (a) For anesthesiologists, each ten (10) minutes of anesthesia time equals one (1) unit of anesthesia and each minute over a unit has a value of one-tenth (1/10) unit.
  - (b) For CRNAs/AAs, each fifteen (15) minutes of anesthesia time equals one (1) unit and each minute over a unit has a value of one-fifteenth (1/15) unit.
  - (c) For codes providing BV + TM, time units shall be calculated and added to the listed BV to determine the reimbursement for the anesthesia services.
  - (d) Only the BV units apply for codes without a TM unit after the base unit. For some anesthesia services, time is not reported additionally. Therefore, additional units of time are not calculated for these codes when determining reimbursement.

c. Physical status modifiers.

- (1) Anesthesia services shall warrant additional reimbursement for units based upon the injured employee's condition and the complexity of the anesthesia service provided.

- (2) A physical status modifier shall be determined to rank the injured employee's condition. Additional reimbursement shall be based on the unit value for the specific physical status modifier.

<u>Physical Status Modifiers</u>	<u>Unit Values</u>
P1 A normal healthy patient	0
P2 A patient with mild systemic disease	0
P3 A patient with severe systemic disease	1
P4 A patient with severe systemic disease that is a constant threat to life	2
P5 A moribund patient who is not expected to survive without the operation	3
P6 A declared brain-dead patient whose organs are being removed for donor purposes	0

d. Qualifying circumstances.

Anesthesia services, which are provided under particularly difficult circumstances, may warrant additional reimbursement for unit values based on unusual events. This subsection includes a list of important qualifying circumstances that impact the anesthesia service provided. These procedures are not reported alone but are reported as additional procedure numbers qualifying an anesthesia procedure for additional reimbursement. The listed unit value must be added to the basic unit values to obtain the reimbursement. List each of the following codes separately in addition to the procedure code for the primary anesthesia procedure.

<u>Qualifying Circumstances</u>	<u>Unit Values</u>
99100 Anesthesia for patient of extreme age, under one year and over seventy	1
99116 Anesthesia complicated by utilization of total body hypothermia	5
99135 Anesthesia complicated by utilization of controlled hypotension	5
99140 Anesthesia complicated by emergency conditions (specify)	2

2. Reimbursement for anesthesia services shall be made at the anesthesia reimbursement allowance (ARA) calculated using the BV and TM values listed in Part A, Section XI in this manual or the agreed upon contract price.

a. Methodology for calculating the ARA for procedures that are listed basic value (BV) + time (TM).

- (1) Select the applicable anesthesia procedure code and basic value from the schedule in Section XI.

- (2) Determine the time units according to Section X.A.1.b.(3) (ten [10] minutes = one [1] time unit for an anesthesiologist and fifteen [15] minutes = one [1] time unit for a CRNA/AA).
  - (3) Any minutes that exceed a whole unit are counted as partial units (fractions of units), such as one (1) minute is one-tenth (1/10) unit for an anesthesiologist and one-fifteenth (1/15) unit for a CRNA/AA.
  - (4) Determine any additional units that are justified by the physical status modifiers or qualifying circumstances addressed above in Section X.A.1.c. and X.A.1.d.
  - (5) Add the basic value, time units, physical status modifier and any applicable qualifying circumstances to determine the total anesthesia value.
  - (6) Multiply the total anesthesia value by the conversion factor of \$29.49 to obtain the anesthesia reimbursement allowance.
- b. Methodology for calculating the ARA for procedures that are listed only basic value (BV) and no time.
- Multiply the basic value by the conversion factor of \$29.49 to obtain the anesthesia reimbursement allowance.
- c. Methodology for calculating the ARA for monitored anesthesia care.
- (1) Follow the guidelines, as applicable, in Section X.A.2.a. as though anesthesia was administered (basic value + time).
  - (2) Multiply the total anesthesia value by the conversion factor of \$29.49 to obtain the ARA.

B. Reimbursement for medical direction of CRNAs/AAs by an anesthesiologist.

1. Reimbursement shall be made to the anesthesiologist only for direct supervision of anesthesia services which are provided by the anesthesiologist and billed under the name and license number of the physician-employer.
  - a. Reimbursement shall be made to an anesthesiologist for providing medical direction, including preoperative and postoperative evaluations or specific consultation to a CRNA/AA when necessitated by a specific procedure or condition(s) previously identified by the parties to the protocol, as required.
    - (1) When medical direction by an anesthesiologist is required, the CRNA/AA shall bill by appending the HCPCS Level II Modifier QX to the anesthesia procedure code.
    - (2) Reimbursement for a CRNA/AA requiring medical direction by an anesthesiologist shall be fifty percent (50%) of the anesthesia reimbursement allowance listed in Part A, Section XI in this manual or the agreed upon contract price.

- (3) Medical direction shall be billed by the anesthesiologist by appending the HCPCS Level II modifier QY to the anesthesia procedure code.
  - (4) Reimbursement for medical direction by anesthesiologists shall be fifty percent (50%) of the anesthesia reimbursement allowance listed in Part A, Section XI in this manual or the agreed upon contract price.
- b. Reimbursement shall not be made to either the anesthesiologist or the anesthetist/anesthesia assistant until the insurer has received and reviewed the bill and anesthesia report from both providers.
2. No additional reimbursement shall be made for general supervisory services rendered by the anesthesiologist or other physician.

C. Anesthesia services for which time units are not allowed.

CRNAs and AAs who provide anesthesia for which no time units are used to determine the ARA shall be limited to eighty-five percent (85%) of the ARA allowed for an anesthesiologist.

**SCHEDULE OF MAXIMUM REIMBURSEMENT**

**ALLOWANCES**

## MAXIMUM REIMBURSEMENT ALLOWANCES

### General Instructions:

- I. Part A of Section XI establishes the Maximum Reimbursement Allowances (MRAs) for services and procedures performed by workers' compensation certified providers not specifically addressed in Section II F of this manual and for out-of-state providers who have not contracted with the insurer for an alternate reimbursement.

Part A also includes the basic value (or base unit) on which reimbursement shall be calculated for all anesthesia services according to Section X of this manual.

- II. Part B of Section XI establishes the MRAs for Florida physician providers of surgical procedures and services. Physician assistants and advanced registered nurse practitioners shall be paid eighty-five percent (85%) of the physician's MRA when these non-physician providers directly perform a surgical procedure or service.

- III. Part C of Section XI establishes the MRAs for Florida physicians, physical and occupational therapists, audiologists and speech pathologists and psychologist providers of non-surgical procedures and services. Physician assistants and advanced registered nurse practitioners shall be paid eighty-five percent (85%) of the physician's MRA when these non-physician providers directly perform a non-surgical procedure or service.

Part C also establishes the MRAs for independent clinical laboratories, freestanding imaging/x-ray centers, dietitians, nutritionists, nutrition counselors and licensed clinical social workers. (Refer to Section II F for reimbursement percentages.)

- IV. To determine the MRA to which a provider is entitled under Part B or Part C:

- A. Determine the county location of the provider according to the Medicare locality map in Appendix E.
- B. Determine whether the procedure should be paid according to the non-facility MRA (services rendered in a provider's office, urgent care center or diagnostic facility) or the facility MRA (services rendered in a hospital setting, ambulatory surgical center, skilled nursing facility, inpatient psychiatric facility, and comprehensive [Level III] outpatient rehabilitation facility).
- C. Identify the specific CPT<sup>®</sup> code in the far-left column of the matrix and the correct locality/non-facility or facility column across the top row.
- D. Locate the point of intersection for the procedure code row and the appropriate non-facility or facility locality column on the reimbursement matrix.
- E. Compare the amount allowed at the point of intersection on the matrix to the amount listed in the 2003 MRA column.
- F. Reimburse the provider the greater of the amount in the 2003 MRA column or the amount in the column at the point of intersection.

# **APPENDIX C**

# **MODIFIERS**

## APPENDIX C. MODIFIERS.

1. Modifiers change the basic services reported and require different reimbursements from the MRAs listed for the unmodified basic services. Modifiers are two (2) characters: alpha, numeric or an alphanumeric combination.
2. The CPT<sup>®</sup>-2009 has a two-digit numeric modifier series. The modifier, when appropriate, must be added to the procedure code of the basic procedure.
  - a. Reimbursement shall be made for all of the two-digit numeric modifiers provided in the CPT<sup>®</sup>-2009, when the service is medically necessary.

(1) The guidelines in the CPT<sup>®</sup>-2009 must be followed for each modifier reported by the provider.

(2) In some situations, it may be necessary for the provider to submit a report with the bill to explain the circumstances in order for an insurer to determine payment.

3. In addition to the CPT<sup>®</sup> modifiers, there are HCPCS Level II modifiers for reporting a change to the basic service. HCPCS Level II modifiers specifically required by this manual are the following:
  - a. Modifier TC (Technical Component)

When the technical component of a procedure (personnel, materials, equipment, space and supplies) is rendered by a health care provider other than the physician performing the professional component of the procedure, the provider shall bill the technical component by adding modifier TC to the appropriate procedure code.

- b. Modifiers used specifically for CRNA services:

Modifier QX is appended to the appropriate anesthesia CPT<sup>®</sup> code by a CRNA to identify services provided with medical direction of a physician.

The reimbursement for a CRNA requiring medical direction of a physician shall be fifty percent (50%) of the anesthesia reimbursement allowance listed in Part A, Section XI in this manual or the agreed upon contract price.

Modifier QY is used by an anesthesiologist to report medical directions of a CRNA.

When an anesthesiologist/physician is not personally administering the anesthesia but is providing medical direction for the anesthesia services provided by a nurse anesthetist, not employed by the anesthesiologist, the physician shall bill for the medical direction service by adding one of the appropriate modifiers to the anesthesia procedure code. The medical direction service includes the preoperative and postoperative anesthesia care. Reimbursement for medical direction services by an anesthesiologist shall be fifty percent (50%) of the anesthesia reimbursement allowance or the agreed-upon contracted price.

- c. Modifier AS is used by a physician assistant, nurse practitioner or registered nurse first assistant to report services for assistant at surgery.
