

DATE: September 5, 2006

TO: Agency Addressed (No. 01, 2006-2007)

FROM: Douglas A. Darling, Director
Division of Accounting & Auditing
Department of Financial Services

SUBJECT: ADDITIONS TO THE STATE STANDARD EXPENDITURE OBJECT CODES

Effective immediately, State Standard Expenditure Object Code 134900 – *Fingerprinting & Background Check Services* has been added. This object code should be used to record all expenditures associated with fingerprinting and background checks paid to other State Agencies and outside vendors. This object code is allowed to be used in the 04XXXX expense category for fiscal year 2006-2007. Agencies should use the appropriate object code in order to capture information so that the Legislative Budget Request and Legislative Appropriations process for fiscal year 2007-2008 can be properly aligned.
