

THE MORE YOU SAVE, THE BRIGHTER YOUR FUTURE BECOMES...

This chart shows how making contributions to your Deferred Compensation Plan can dramatically boost your retirement savings. This example compares an investor's returns over 10, 20, and 30 years at three different contribution rates (\$25, \$50, and \$100).

This chart is for illustrative purposes only and not meant to represent the performance of any specific investment option. The scenario assumes a 7% annual rate of return and reinvestment of earnings, with no withdrawals. Rates of return may vary.
