Closing Remarks

- Florida PALM Access Quarterly Reviews – A quarterly review of all Florida PALM users has been implemented. Moving forward, agencies are being asked to implement these quarterly reviews into their procedures and continue to process these reviews in a timely manner.
- Outstanding Warrant Report Issue – When December’s report was ran, there was an error in processing, making it seem as if agencies did not have any outstanding reports. This error was recognized quickly and OIT has provided Excel reports with the information agencies need regarding outstanding warrants.
- Data Management Statistics – Starting this Spring, conversion items will begin being discussed with Florida PALM. Additional discussion will take place mid-late Spring regarding future changes.
