Dear Fellow Floridians:

Our Florida law enforcement officials are the heroes who pledge themselves to the greater good. There are no words that can express our appreciation for the risks they take to protect us and our families. This week I had the privilege of speaking at the 36th Annual Florida Law Enforcement Memorial Service, honoring our fallen heroes.

Those who enter this profession do so with great commitment and sacrifice, and some give the ultimate sacrifice. We can never thank them enough for the countless times they have responded to a call for service.

These brave men and women risked their lives to keep our communities safe every day. They paid the ultimate sacrifice and for that, Florida will forever be grateful and we will never forget the price these heroes have paid.

Sincerely,

Stay Connected

Reduction of Workers' Comp Rates Could Save Florida Businesses More Than \$79 Million

Florida Chief Financial Officer (CFO) Jimmy Patronis on Wednesday released the following statement on the Office of Insurance Regulation's (OIR) approval of a 1.8 percent decrease in workers' compensation insurance rates for Florida businesses. The National Council on Compensation Insurance (NCCI) submitted the rate reduction request because of the federal Tax Cuts and Jobs Act of 2017.

"My office estimates that the 1.8 percent decrease could be a savings of \$79.5 million and is a good move that will help further reduce cost burdens on Florida businesses. The estimated \$79.5 million is a significant savings for our business community who support local economies, employ our neighbors, and give back to our communities. We must continue to do all we can to support and fuel Florida businesses, the backbone of our economy."

Florida Economic Briefs

Real GDP Growth in the First Quarter

The U.S. Bureau of Economic Analysis reported U.S. real GDP grew at an annual rate of 2.3 percent in the first quarter of 2018, which was lower than the fourth quarter rate of 2.9 percent. Reduced personal consumption expenditures, residential fixed investment, exports, and state and local government spending caused the decrease in first quarter growth.
