

## Floridians,

Florida is a top state to live, work, and raise a family. It's also a state where businesses want to relocate and plant roots. Our business-friendly climate helps create jobs and keeps our economy strong. Recently, there was a proposed workers' compensation insurance rate decrease of 13.4 percent in Florida.

This decrease is great news for our business economy. The cost of doing business in Florida will continue to drop, which ultimately means big opportunities for expansion. Lower workers' compensation rates are a testament to our commitment to ensuring Florida is an attractive place for all business owners.

Let's continue to make Florida one of the top states for businesses to thrive and grow.

Sincerely,

Jimmy Patronis Chief Financial Officer State of Florida
