## Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

### DVA Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes Technology	Setup and Integration Staffing	Open	9 (High/High)	Agency is seeking to hire contract personnel to support the setup and integration of FLORIDA PALM within the Agencies overall structure. This is an unfunded mandate and the Agency critically needs these assets to support a successful transition of this system. The Agency submitted a Legislative Budget Request to secure funding mitigate this shortfall.			
Processes Technology	PeopleFirst Payroll integration may be impacted as we are unclear how this interface will work.	Open	6 (Medium/High)	Monitor PeopleFirst updates to ensure we can adapt to any new dependencies that may evolve.			
People Processes Technology Data	Resources and Functionality. Full implementation simultaneously with FLAIR-end is a risky proposition given the unknown compatibility issues with other systems and business processes our Agency employs to conduct its day-to-day operations.	Open	6 (High/Medium)	Mimic FLAIR functionality exactly or as close to this standard as possible. If there are deviations from FLAIR functionality, there should be extensive retesting and training, hopefully a year ahead of implementation. Agencies are limited in staff, support and available resources for the implementation and the execution following implementation. Allowing some lead time prior to implementation to prepare may reduce inherent risks.			Agency Fiscal, Finance & Accounting, and Billing
People	Contracting and Procurement	Open	4 (Medium/Medium)	Our Agency is unique and may require system remediation as a product of implementation as our processes and procedures change as federal, state, and local statutes, laws, and administrative codes change. FDVA may have to redesign or retool existing business processes and designs. This could impact the Agency meeting its deliverables to its clients and impact the overall implementation of the project statewide.			
People Processes	Agency size and small administrative staff has a few people having multiple roles.	Open	4 (Medium/Medium)	Staff will have to be flexible and OPS personnel may be required to augment existing staff to get project implemented.			
People Technology	IT staff has limited knowledge of the FLORIDA PALM system and will take time to get trained up, especially given their existing Agency requirements.	Open	4 (Medium/Medium)	We will have to grow IT Staff experience as we move through the implementation process.			
Processes Data	FLAIR and FLORIDA PALM data will be different in its representation which may cause challenges when performing data analysis functions.	Open	4 (Medium/Medium)	Staff will incur extra time and possible productivity lag when trying to crosswalk and translate data.			
People Processes	Staff Turnover. Agency staff turnover while decreasing, still remains over 16% in the Administrative areas mostly impacted by FL PALM.	Open	4 (Medium/Medium)
