Open and Monitoring	11/06/23		Training	Resistance to change	Stable	4 (Medium/Medium)	We have a workforce that is familiar with current processes, any type of change, causes fear amongst the team members.	1. Include impacted stakeholders early in the process and often 2. Educate the reason for the change and impact	If folks don't get on board with the changes, we will have issues once we go live	No new comments

Open and Monitoring	08/09/24		User Acceptance Testing	There is no communication plan between PALM, Enterprise systems and the agencies. FWC is unable to accurately define impacts to processes and potentially agency business systems.	Stable	4 (Medium/Medium)	Agencies are very dependent upon the enterprise systems, since Florida PALM is not managing a communication plan as part of the process, agencies are left hoping there is communication going to occur.	1. FWC Analysis, design, and system remediation is being based on calculated assumptions	If we learn of enterprise changes too late in the process, we will be at risk for not being able to perform the needed activities within those applications at go live.	No new comments
Open and Monitoring	11/06/23		Interface	Not all PALM interfaces are fully designed/documented, additionally currently defined interfaces are subject to change.	Stable	1 (Low/Low)	Since Florida PALM is using an agile development approach interfaces aren't fully designed and documented prior to agencies needing to do development/remediation activities	1. FWC Analysis and design is being based on calculated assumptions	If interfaces change too late in the game, we will be at risk for not being able to process incoming files once we go live.	No new comments
