[1] Status reports submitted by agencies at the time of the Florida PALM Proviso report submission.

Agency for Health Care Administration

Agency Sponsor:	Sonya Smith, Chief of Financial Services	Submitted by:	Phyllis Wander, Agency Liaison/Project Manager
Status Report Period:	December 1, 2022 – December 31, 2022	Submitted on:	January 9, 2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, AHCA completed the following activities:

- Task 107– No additional work on system interfaces and agency business system remediation specific to Florida PALM.
- Task 152 – Completed and submitted Sponsor Status Report.
- Presented AHCA-unique business processes to the Florida PALM Project team.
- Held Agency CCN/SME Touchpoint meeting.
- Attended Tuesday Task Talk for Task 324

AHCA had 12 staff members investing portions of their time and 1 full-time employee in support of the Florida PALM Project (including Cash Management System (CMS)).

SunFocus	TBD	TBD	TBD	$3,436.80	$24,338.88	Agency Staff costs (1 dedicated resource) were incurred for activities to support Florida PALM for December 2022.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Florida PALM Solution Center more than 10 business days ago and are still open:		
Incident Submission Date	Incident Number	Summary of Incident
NA	NA	NA

Department of Agriculture and Consumer Services

Agency Sponsor:	*Alan Edwards,* *Deputy Chief of Staff*	**Submitted by:**	*Thomas Poucher,* *Policy and Budget Director*
Status Report Period:	*December 1 – December 31, 2022*	**Submitted on:**	*1/10/2023*

1 - STATUS OVERVIEW

A. Overview of Agency progress during reporting period:

During the month of December, FDACS completed the following activities related to system interfaces and agency business system remediation:

- Sponsor 152 - Provide Agency Update for Project Status Reporting for November (Completed)
- Sponsor 154 - Provide Agency Update for Project Status Reporting for December (In progress)
- Business Processes 324 – FLAIR Data Elements Inventory and how data is being used (In progress)

Agency Application Remediation Progress - FDACS continues to remediate in preparation for Florida PALM.

- For the Accounts Payable system, the second remediation is migrated to Test environment and test scripts are being developed.
- For the Accounts Receivable system, remediation analysis document was developed for management review.
- For the Division systems, communications outreach continued, and top seven systems identified.

There are 10 FTE members of the PALM Change Champion Network on a part-time basis. The FDACS project team is comprised of six staff augmentation resources as full-time, and on a part-time basis there is a PPMO representative and 40 division representatives. The last of the three additional staff augmentation resources has been onboarded.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Interface Modification for Florida PALM	Agency Business System	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Comments
Configuration task #107, Share, Review, and Submit Configuration Workbooks	Multiple	2/7/22	TBD				Awaiting workbook availability. Share, review, and submit Configuration Workbook, confirming configuration values for the Financials Wave.
Interfaces Conversions task #115, Update and Confirm Florida PALM Inventory Workbook	Multiple	TBD	TBD				Continuing to refine FDACS' PALM Remediation Team (PRT) Interface and Inventory system (PII) identifying COA. Update and Confirm Florida PALM Inventory Workbook - FL PALM will be providing the revised task start date.
Conversions task #116, Identify Agency Managed Data Subject to Conversion and Create a Plan for Data Management Activities	Multiple	TBD	TBD				Submit a plan of the activities for agency managed data that will be converted and identify what data should be cleansed prior to the Financials Wave. FL PALM will be providing the revised task start date.
Analysis of the Technical Inventory Workbook interfaces identified in TECH121/102. PALM Task on hold. FL PALM will be providing the revised task start date.							
API004 – Outbound Payment Extract File	AIMS	TBD	TBD				AIMS/Disbursements/CATS

Interface Modification for Florida PALM	Agency Business System	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Comments

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Comments
Reporting, Business Processes (Financials) task #117, Provide List of Agency Reports Using Agency Business Systems	TBD	TBD				FL PALM will be providing the revised task start date.
Business Processes (Payroll) task #118, Review and Confirm Understanding of the Payroll Wave Business Process Models	TBD	TBD				FL PALM will be providing the revised task start date.
Business Processes (Payroll) task #119, Identify Any Obstacles Prohibiting the Adoption Payroll Functionality	TBD	TBD				FL PALM will be providing the revised task start date.
Workforce Transition, Sponsor task #110, Review Florida PALM functionality and Agency team structure to determine workforce transformation needs.	TBD	TBD				FL PALM will be providing the revised task start date.
Workforce Transition, Sponsor task #111. Review Florida PALM timeline, functionality, and Agency processes to determine internal communication needs.	TBD	TBD				FL PALM will be providing the revised task start date.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Comments
Sponsor (Financial, Payroll) task #123, Confirm any actions or requests identified in the Agency Workforce Transformation Plan have been submitted to the appropriate entity.	TBD	TBD				FL PALM will be providing the revised task start date.
Deliverable 1.6 Readiness Steps outlined by Florida PALM - Priority for all tasks identified by Florida PALM.						
Sponsor tasks #126, 130, 136, 141, 146, 152, 154, 162, 169, 173, 180, 189, 198 - Provide Agency Update for Project Status Reporting	Monthly	10th of month	10th of month	$710	$4,874	Ongoing completions by the 10th of the month
Sponsor (CMS) tasks #127, 131, 137 Collect and Provide a report on outstanding Solution Center Incidents and Florida PALM workarounds	Monthly	September, 2022	September, 2022			Completed
Business Processes task #323 Complete and submit the Projects and Grants Survey to inform the Project about how you currently manage project and grants.	10/24/2022	11/04/2022	11/04/22			Completed
Business Processes task #324 Complete FLAIR Data Elements Inventory and document how they are being used.	12/9/22	3/31/23		$284	$284	In progress
Deliverables – 1.1-1.5 and 1.7 Readiness Remediation (4 systems) and Readiness Assessments (2 areas) for Iteration 1, FY 22-23						

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Comments
1.1 Accounts Payable (AIMS/CATS) - Readiness Remediation	7/1/22	6/30/23		$31,644	$149,360	Prepare for Florida PALM by implementing business process changes and functions within the applications as identified in the gap analysis assessing the readiness of the current processes to Florida PALM processes.
1.2 Accounts Receivable (REV) – Readiness Remediation	8/1/22	6/30/23		$45,582	$103,861	Remediate the agency Accounts Receivables system, Revenue Receipts (REV), to prepare for Florida PALM by implementing business process changes and functions.
1.3 Finance and Accounting (F&A) software systems – Readiness Assessment	9/1/22	10/31/22	10/31/22		$30,362	Completed the readiness assessment and documented the analysis for the Financial Information System (FIS) and Financial Management System (FMS).

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Comments
1.4 Finance and Accounting (F&A) software systems – Readiness Remediation	11/1/22	2/28/23	N/A	$0	$0	Resources reassigned to other workstream(s) pending additional information from Florida PALM's Information Warehouse study.
1.5 Select Division software systems – Readiness Assessment	11/14/22	3/28/23		$4,595	$14,997	Complete a readiness assessment and document findings on a select (limited) set of Division software systems, determined by DIO and OATS.
1.7 Select Division software systems – Readiness Remediation	3/29/23	6/30/23				Remediate a select set of Division software to prepare for Florida PALM by implementing business process changes and functions within the applications.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Solution Center more than 10 business days ago and are still open:

Incident Submission Date	Incident Number	Summary of Incident
		None that are open.

Department of Business and Professional Regulation

Agency Sponsor:	TBD	Submitted by:	Sally Huggins, Bureau Chief, Finance & Accounting
Status Report Period:	December 1 – December 31, 2022	Submitted on:	1/10/23

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:
During the month of December, DBPR completed the following activities related to system interfaces and agency business system remediation: Participated in Florida PALM Executive Steering Committee Participated in Florida PALM Advisory Council Continued work with KPMG hired to assist with transition to Florida PALM 0 FTEs are supporting the transition to Florida PALM on a full-time basis. 9 FTEs are supporting the transition to Florida PALM on a part-time basis.

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
PCUPLOAD thru ENTIRE Connection Software						The Spreadsheet upload tools provided would require much more manual input and care to ensure the multiple record types requirements are met, and that the keys or sequences stay correct. This unknown complexity seems to defeat the efficiencies that existed with FLAIR, making it inevitable that some sort of in house automation be created to assist the users. The PALM Transaction Builder would be to replace this process.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
Screen Scraper program						While this exact process of ROBOTIC input into PALM, is not feasible for go live, some method to ensure same time notification of valid input is needed in order for us to operate efficiently. The Spread Sheet uploads and the Web Service interfaces have promise, but we are unsure of exactly what happens to the input. Some is rejected entirely, some create items that must be corrected, and we are not sure if there are other scenarios. The PALM Transaction Builder would be to replace this process.
Access Control Management						This can be done online in FLAIR today, and could be done online in PALM, if you are a SAM in PALM. The PALM Data Warehouse would be to replace this process.
SAMAS Database (SQL)						The PALM Data Warehouse would be to replace this process.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
FLAIR@BPR						There will most likely be places the information needed can also be found in PALM, without much trouble or even faster. Past experiences with data / reporting needs from large complex systems would indicate that some type of user / Agency centric data reporting and delivery tools will be necessary for efficient day to day operations. The PALM Data Warehouse and PALM Transaction Builder would be to replace this process.
Payroll Web App						If the Agency will be responsible for recording the payroll at the Organizational, Grant, Project, or OCA level, we will need some way to create those entries. The PALM Transaction Builder would be to replace this process.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
Automated Deposit and Deposit correction transaction Input. (TR30s)						The Spread Sheet uploads and the Web Service interfaces have promise, but we are unsure of exactly what happens to the input. Some is rejected entirely, some create items that must be corrected, and we are not sure if there are other scenarios. This method uses the Entire Connection mainframe emulator to submit the transactions directly into FLAIR by programmatically inputting field values on the screen. (Screen Scraper program). The Data source middleware software extract from our Versa Regulation Licensing system. The PALM Transaction Builder would be to replace this process.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
TR21_22 Approp Release Recon Transaction						This tool is used to generate the Departmental posting of Appropriation, Approved Budget, and Release to keep it in balance with LAS/PBS -> State Accounts. Tables are maintained to all it to create Org level transactions to the specific 29 digit account used by Central accounting. The PALM Transaction Builder would be to replace this process, if needed.
Year End Helper application						Creates Transactions from Excel input or direct query of in-house subsidiary files. Transactions are then input through the Screen Scaper methodology. The PALM Data Warehouse and PALM Transaction Builder would be to replace this process.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Progress/Comments
Versa Regulation Licensing System						This system does not directly interface with FLAIR today but does hold some accounting values used for processing Deposits and Refunds. These values are recorded here and through middleware programs are extracted for input into FLAIR. The Codes held currently are the Org EO Object Code and some sort of vendor number. The PALM Transaction Builder and PALM Data Warehouse would be what utilizes information from this system to create transactions.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Florida PALM Solution Center more than 10 business days ago and are still open:

Incident Submission Date	Incident Number	Summary of Incident
5/26/22	INC29196729	Speed Type drop down not working consistently when moving between business units. This has been accepted as an Oracle delivered bug. As of 8/31/22, I do not find any additional notifications for this incident.

Department of Children and Families

Agency Sponsor:	Tony Lloyd, Assistant Secretary for Administration		Submitted by:	Matthew Christovich, DCF PALM Project Manager
Status Report Period:	December 1,2021 – December 28, 2021		Submitted on:	3/9/2021

1 - STATUS OVERVIEW

A. Overview of Agency progress during reporting period:
During the month of December, DCF had one (.5) FTE dedicated to directing the execution of PALM tasks and completed the following activities related to system interfaces and agency business system remediation: • DCF is currently analyzing our business system needs for the Financials, Payroll, and Expansion Waves.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Interface Modification for Florida PALM	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Comments
Interface needs for the Financials wave are currently being determined.	N/a	N/a	N/a	N/a	N/a	

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Department of Economic Opportunity

Agency Sponsor:	Allyce Moriak, CFO		Submitted by:	Denise Reeder, Agency Liaison
Status Report Period:	December 1 – 31		Submitted on:	January 10, 2023

1 - STATUS OVERVIEW

A. Overview of Agency progress during reporting period:

During the month of November, DEO completed the following activities:

- Participated in the following meetings / workgroups (and/or reviewed recordings):
  - Readiness Touchpoint Meeting
  - Executive Steering Committee
  - Advisory Council Meeting
  - Tuesday Touchpoint Meeting

- Submitted the following deliverables
  - 141 - Provide Agency Update for Project Status Reporting

- FTE Count worked on PALM activities: 17 staff (part-time)

Other Updates
- Expectation to include planning and analysis for the identified items in this status report and in conjunction with a new upcoming PALM revised project schedule for remaining functionality waves.

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Comments
Accounting Systems MS Access Apps	TBD	TBD				Couple of databases that tie to all the Flair SQL tables. Used heavily to resolve ad-hoc requests to provide RAW data when it is requested. In the future ad-hoc requests will utilize the 'New SQL Reporting' tables. (Will examine what suitable PALM equivalents exist to reduce reliance on this)
AssetWorks	TBD	TBD				System in general services for managing property/asset/inventory. The accounting team uploads the data from Flair asset tracking into the AssetWorks system. Flair required any tracked assets to incur depreciation - PALM will not require that - assets will be able to be tracked that do not incur depreciation.

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Comments
Auto Budget	TBD	TBD				Takes the budget from the central book and loads it into departmental. This will not be necessary anymore when PALM supports a single combined book that is not divided into central and departmental.
Axiom Pro (Acctg - will require updated config)	TBD	TBD				Online electronic repository for copy of each individual voucher backup. (Need to verify PALM does not have a suitable equivalent)
Cost Pool Allocation System (CPAS)	TBD	TBD				Being replaced by the new TSPPS/CPAS solution.
CPAS in Access (Acctg Team)	TBD	TBD				Will still be reporting from CPAS/TSPPS replacement tables - possibly more ad-hoc in nature than a dedicated system. (Need to examine what is available in PALM that might be suitable)

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Comments
DEO Enterprise Grants Management System (SERA)	TBD	TBD				Currently maintained by a 3rd party - will need to be updated to produce voucher/transaction files formatted for PALM. (Possibly a way for the new vendor to plug information directly into PALM - needs to be investigated)
Financial Information System (FIS)	TBD	TBD				Available off the intranet. For users who need access for retrieving financial codes - account codes, org codes, cost pools, etc… Need to investigate if this information is readily available from PALM in a suitable format to replace this.
Financial Management Mainframe Transition (FMMT)	TBD	TBD				Being replaced by CPAS/TSPPS single solution.
FLAIR Detail Select	TBD	TBD				Access database.
FoxPro in Grants (Grants Team)	TBD	TBD				FoxPro app (Grants)
Grant Information Center (Grants Team)	TBD	TBD				FoxPro app (Grants)

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Comments
Master Recon	TBD	TBD				FoxPro app (Grants)
Pay Recs database	TBD	TBD				Access database.
Payroll Reporting	TBD	TBD				Currently an Access database application. Will need to be modified to pull data from PALM tables for 'New SQL Reporting'
Report Delivery	TBD	TBD				Access database.
SERA Non-Workforce	TBD	TBD				Access database.
SERA Workforce	TBD	TBD				Access database.
Time Statistics and Payroll Posting System (TSPPS)	TBD	TBD				Being replaced by TSPPS/CPAS system.
UC Benefit (Connect)	TBD	TBD				Becky Leckinger. 3 files to DFS daily - 1 record each - total paid to debit card, total paid to EFT, total paid to IRS. Never got any information related to claimants.
Unemployment Compensation Automated System (UCAS)	TBD	TBD				Access database
Voucher	TBD	TBD				Access database
Grant Revenue Sheet (Grants Team)	TBD	TBD				FoxPro app (Grants)

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost - FYTD	Comments
TSPPS/CPAS System	TBD	TBD				New development - this will replace the existing separate CPAS/TSPPS systems into a single application that is compatible with PALM.
DEO PALM Data Warehouse (New SQL for PALM Interfaces)	TBD	TBD				New development. All of the interface data received from PALM will be stored and maintained in SQL tables for report/view development.
DEO PALM Report Warehouse (New SQL Reporting)	TBD	TBD				New development - this will replace some existing reports such as PCS and FlairGenLedger.

Status Report Period:	*December 1 – December 31, 2022*	**Submitted on:**	1/11/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month, DEP worked on or completed the following activities related to system interfaces and agency business system remediation:

PALM requested deliverables:
- Readiness Workplan (RW) #152 - Provide Agency Update for Present Status Reporting – COMPLETED
- RW 324 - Complete FLAIR Data Elements Inventory – IN PROCESS

Designated member to PALM Advisory Council and Executive Steering Committee
- Attend meetings

The FDEP Operational Work Plan requires interface preparation work for the agency:
- DEP is continuing to review, qualify, and quantify Business System changes for Tier 1, 2, and 3 to use PALM interfaces. Those tasks are identified in Section 2/3. IN PROCESS

The FDEP Operational Work Plan requires business system remediation preparation work for the agency:
- DEP is continuing to review, qualify, and quantify Business System changes for Tier 1, 2, and 3 for remediation and conversion. Those tasks are identified in Section 2/3. IN PROCESS

Zero FTEs are supporting the transition to Florida PALM on a full-time basis.
Fifteen FTEs are supporting the transition to Florida PALM on a part-time basis.
Four contractors are supporting the transition to Florida PALM on a part-time basis.

Department of Financial Services

Agency Sponsor:	Scott Fennell, Deputy Chief Financial Officer	Submitted by:	Tanya McCarty
Status Report Period:	December 1 – December 31st, 2022	Submitted on:	1/10/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, DFS completed/continued the following activities related to system interfaces, Agency Business System (ABS) remediation, and FLAIR Transition preparation:

ABS Remediation

RW – Task ID 162
- o ABS OIT Integration team completed its updates for Project Status Reporting.

Financials Wave
- o Continued Agency Business Systems (ABS) scope assessment and assumptions documentation with information obtained from analysis of Financials Wave ABS applications, survey responses, and meetings with DFS business and technical subject matter experts.
- o Collaborated with the Florida PALM Change Control Network in support of a Personalized Agency Workshop (PAW) session with the Office of Finance & Budget and the Bureau of Fiscal Services.

Payroll Wave
- o Continued Agency Business Systems inventory assessment, including analysis of Payroll Wave ABS applications.

FLAIR Transition
- o Completed collaboration sessions with Florida PALM for the review of the Inventory of Functions, Sub-Functions, and FLAIR Transition Assumptions.
- o Began disposition meetings with Florida PALM related to the Inventory of Functions, Sub-Functions, and FLAIR Transition Assumptions.

101 FTEs are supporting the transition to Florida PALM on a part-time basis.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Florida PALM Interface	Agency Business System	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Progress/ Comments
Financials Wave							
AMI003 - Outbound Asset Extract	OIT Budget Tool, Barcode Inventory	07/01/21	TBD		$257.00	$1,240.60	Planning for all API's to ABS remediation; documenting requirements as-is and to-be workflows.

Department of Juvenile Justice

Agency Sponsor:	Heather DiGiacomo, Chief of Staff Dodie Garye, Director of Administrative Services	Submitted by:	Amanda Gaddis, Consultant & Project Manager
Status Report Period:	December 1 – December 31, 2022	Submitted on:	1/10/23

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, the Department of Juvenile Justice completed the following activities related to system interfaces and agency business system remediation:

- Completed Task 152 (Provide Agency Update for Project Status Reporting).
- Began working on Task 324 (Complete FLAIR Data Elements Inventory).
- Staff viewed the recording for the Executive Steering Committee Meetings held on December 12th and December 14th, 2022.
- Staff attended Tuesday Task Talk on December 13th, 2022.
- The Monthly Florida PALM Readiness Touchpoint scheduled in December was cancelled due to the holidays.
- Held internal meetings within the Agency to provide feedback for monthly tasks and ensure lines of communication remain open.

DJJ has 1 Consultant supporting the transition to PALM on a full-time basis.
DJJ has 8 FTEs supporting the transition to PALM on an as-needed basis.

Department of Legal Affairs

Agency Sponsor:	Richard Martin, Chief of Staff	Submitted by:	Sabrina Donovan, Director of Administration
Status Report Period:	December 1 – December 31, 2022	Submitted on:	01/09/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December 2022:
- Tuesday Task Talk 12/13/2022 regarding Task 324
- Readiness Coordinator touchpoint meeting 12/15/2022

I have removed the information previously reported in Section 2 – Agency System Interface Progress based on information provided during my meeting with the Readiness Coordinator. Information provided indicated that modules and interfaces would be reviewed as part of the project reset and information gained from agency support sessions.

0 FTEs are supporting the transition to Florida PALM on a full-time basis.
6 FTEs are supporting the transition to Florida PALM on a part-time basis.

We have an issue with conversion of agency FLAIR projects to Florida PALM OC2. We use the FLAIR project field to track revenue and expenditures for our legal cases and billing client agencies. This is a critical issue for our agency.

Department of Management Services

Agency Sponsor:	*Katie Parrish, Deputy Secretary of Management Services, DMS*	Submitted by:	*Evelyn Harrison, Project Manager, Office of the Secretary, DMS PALM Liaison*
Status Report Period:	*December 1- December 31, 2022*	Submitted on:	*January 10, 2023*

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, the Department of Management Services (DMS) completed the following activities related to system interfaces and agency business system remediation:

DMS
- FMS Chief continues to analyze current staff duties and adjust where appropriate to ensure a smooth transition for PALM and for compliance activities.
- FMS staff continue to provide internal training for DMS staff related to PALM processes and tasks.
- DMS Agency Liaison continues to provide updates to the Readiness Workplan Tasks via the DMS PALM Teams Channel and Smartsheet task reminders. Task 324 Work Sessions are being conducted internally with DMS CCN.
- Enterprise meetings with PALM to discuss processes and next steps TBD in early 2023.

<u>0</u> FTEs are supporting the transition to Florida PALM on a full-time basis.
<u>7</u> FTEs are supporting the transition to Florida PALM on a part-time basis.

People First:
- Discussions are pending at the start of Payroll Wave activities. Human Capital Management (HCM) files are to be determined at this time. That is where the heavy lift will be for the People First PALM integrations.
- Internal planning meetings continue. Focus is the design impact on the People First system and continued analysis of applicable Florida PALM interface files.
- People First submitted an LBR request for FY 23/24 for the Financials and Payroll Waves.

<u>0</u> FTEs are supporting the transition to Florida PALM on a full-time basis.
<u>6</u> FTEs are supporting the transition to Florida PALM on a part-time basis.

Statewide Travel Management System (STMS):

- Internal planning meetings continue, focusing on the design impact on the STMS system and analysis of applicable Florida PALM interface files.
- STMS submitted an LBR request for FY 22/23 for the Financials Wave.

0 FTEs are supporting the transition to Florida PALM on a full-time basis.
4 FTEs are supporting the transition to Florida PALM on a part-time basis.

RETIREMENT:

During the month of December, DMS Division of Retirement (Retirement) completed the following activities related to system interfaces and agency business system remediation:

0 FTE are supporting the transition to Florida PALM on a full-time basis.
6 FTE are supporting the transition to Florida PALM on a part-time basis.

Financials Wave
-

During the month of December, DMS Division of Retirement (Retirement) completed the following activities related to system interfaces and agency business system remediation:

0 FTE are supporting the transition to Florida PALM on a full-time basis.
6 FTE are supporting the transition to Florida PALM on a part-time basis.

Financials Wave
- There were no Palm Readiness (in-person) touchpoints for the month of December.
- Retirement accounting presented at the PAWS meeting on December 8th.
- On 10/28, DOR advised Retirement accounting that they recently learned returns for agencies (for whom DOR processes EFT payments) can no longer be allocated correctly by Treasury/DFS/PALM; therefore, Debit Memos are no longer provided (i.e., the money is no longer being debited out of Retirement's bank account). DOR receives the returns and is supposed to handle them in lieu of DFS. DOR's proposed workaround will be to send a report of all the returns for the month, and then request a JT from Retirement accounting for the money to be given back to DOR. As of 11/2, DOR is researching issues with DFS and will follow-up accordingly. Retirement accounting's concern is twofold: 1) changes to PALM/existing processes go undiscussed until an issue arises, and 2) another manual workaround is being implemented creating additional work for accounting teams. PALM team advised this is not a PALM issue rather a banking issue. Treasury proposed a solution. FRS will respond as needed.

- Monthly meetings with the PALM Team related to FRS systems interfaces are on hold pending completion of CMS Wave issues.
- Outstanding Item #1 (Treating the FRS payroll like a payroll rather than like vendor payments) – The PALM Team may be able to accommodate our request to use the payroll module (HCM) to process the retired payroll payments instead of using the accounts payable module. They are optimistic that this solution could work for the FRS, and they will continue researching the details.

MFMP:
- The MFMP – PALM monthly meetings have been postponed due to MFMP stabilization activities and PALM's efforts towards CMS remediation. MFMP remains ready to continue interface and readiness discussions when needed.

0 FTEs are supporting the transition to Florida PALM on a full-time basis.
4 FTEs are supporting the transition to Florida PALM on a part-time basis.

Department of Health

Agency Sponsor:	*Robert Herron, Division Director - Administration*		Submitted by:	*Terri Mulkey, Chief – Finance and Accounting*
Status Report Period:	*December 1 – December 31, 2022*		Submitted on:	*01/04/23*

1 - STATUS OVERVIEW

A. Overview of Agency progress during reporting period:

During the month of December, Florida Department of Health (Department) completed the following activities related to system interfaces and agency business system remediation:

- Planning and coordinating activities including a dry run with the Readiness Coordinator and SMEs conducted prior to Personalized Agency Working Session.
- The Department conducted and successfully completed Personalized Agency Working Session with Florida PALM on Dec 6 and Dec 7 with excellent participation from Department's Subject Matter Experts (SME's).
- DOH PALM Integration team published SOW, reviewed resumes, and completed interviews to select 2 web application programmers to on-board in January 2023.
- Quarter 2 Status report and Spend plan updated and prepared for submission.
- DOH PALM Integration team has completed review of FLAIR As-Is Manuals, Florida PALM Approach Documents and Florida PALM Standardized Business Process Models.
- The CCN Team at the Department meets weekly to discuss activities related to Florida PALM activities, Agency Business System remediation and planning for the upcoming fiscal year.

03 Consultant is supporting the transition to Florida PALM on a full-time basis.
12 FTEs are supporting the transition to Florida PALM on a part-time basis.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Florida PALM Solution Center more than 10 business days ago and are still open:		
Incident Submission Date	Incident Number	Summary of Incident
		Neither EOG or LAS/PBS have any outstanding incident reports with PALM.

Florida Commission on Offender Review, Florida Department of Corrections

Agency Sponsor:	Mark Tallent/Gina Giacomo		Submitted by:	Erica Starling, Agency Liaison
Status Report Period:	December 1 – December 31, 2022		Submitted on:	12/19/2022

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:
During the month of December, FDC/FCOR completed the following activities related to system interfaces and agency business system remediation: • FDC/FCOR completed all required MRW tasks due in December as requested. • FDC/FCOR continues to work on CMS tasks and remediation while Financials Wave is paused. • 0 FTEs are supporting the transition to Florida PALM on a full-time basis. • 24 FTEs are supporting the transition to Florida PALM on a part-time basis.

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Progress/Comments
Bar coding scanning equipment	TBD	TBD		N/A	N/A	It is our understanding that the vendor, Strategic Systems and Technology, is modernizing their system to work with Florida PALM; we are reaching out to the vendor to discuss and will update this as appropriate
BARS Replacement	Paused	TBD		N/A	N/A	Our experience with the Query Writer tool thus far does not indicate that it will be sufficient to meet the needs of our processing staff for ad hoc data access for several reasons including: unintuitive user interface, confusing non-standard terminology, the necessity of Query Writers to have a good understanding of database querying, the lack of a SQL-writing interface, the absence of any fully automatable data access/export features (ODBC). As the need for ad hoc data access has been vital to the work of our processing accountants and analysts and given the absence of any suitable replacement for the ODBC access to Information Warehouse currently provided by FLAIR/way, our Agency does not feel our needs can be adequately met by the data access features offered by PALM. To ensure our Agency and staff are adequately equipped to complete their duties in PALM we have identified the need for an internally maintained data warehouse that provides a more intuitive and clearer query interface for our processing accountants as well as more robust data access features than provided by the Query Writer tool
CDC Payroll	TBD	TBD		N/A	N/A	Awaiting information on Payroll Wave to determine if this is necessary. Whether or not it will be retained cannot be determined at this stage.

Budget Payroll Reconciliation Process (using SAS)	TBD	TBD		N/A	N/A	Awaiting information on Payroll Wave to determine if this is necessary. Whether or not it will be retained cannot be determined at this stage.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Florida PALM Solution Center more than 10 business days ago and are still open:

Incident Submission Date	Incident Number	Summary of Incident
N/A	N/A	N/A

Florida Department of Law Enforcement

Agency Sponsor:	Charlotte Fraser Research and Planning Administrator	Submitted by:	Terri Speed Financial Administrator
Status Report Period:	December 1 – December 31, 2022	Submitted on:	1/10/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, FDLE completed the following activities related to system interfaces and agency business system remediation:

Functional:
FDLE participated in the PALM Advisory Council meeting and one Tuesday Task Talk.

Project Management:
- The project team has developed project documentation, including Project Charter, Project Management Plan, Risk Assessment Model, and Project Schedule for the overall implementation, and a sub-project schedule for each application affected by the PALM project. The project team is now monitoring and controlling the agency-specific project deliverables.

Resources:
- 1 FTE is supporting the transition to Florida PALM on a full-time basis.
- 2 FTEs are supporting the transition to Florida PALM on a part-time basis.
- 1 Contractor is supporting the transition to Florida PALM on a part-time basis.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Florida PALM Interface	Agency Business System	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost – FYTD	Progress/ Comments
BII001 – Inbound billing data	Civil Workflow Control System (CWCS)	1/4/2021	6/30/2023		$200	$600	CWCS is an FDLE system to serve qualified agencies with fingerprint-based criminal background checks on applicants for employment and

							licensing. Currently, CWCS uses RAMS for invoice generation and CCService for credit card payments. When RAMS is retired, then CWCS needs to communicate with PALM directly for invoice generation. CWCS will also need to maintain all of its customer data in PALM. Different transaction types ex: Credit Memo (CM), Debit Memo (DM), invoice type, and receipts type specifically to identify CWCS transactions will need to be maintained in PALM directly. CWCS file format will need to be updated for integrating with PALM.
								Progress: Specification for the current file format has been developed. AS-IS business process modeling for invoice generation is in progress. The file format will need to be updated when PALM releases the specification. We analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing CWCS with PALM. We have procured hardware/software needed for standing up a parallel track for PALM changes. FDLE completed the provisioning of the development server and the creation of the CWCS database. FDLE completed integrating CWCS batch jobs on the DEV process server consumed by RAMS. We are waiting for

							further information regarding interface field definitions to proceed.
BII001 – Inbound billing data	FALCON	1/4/2021	6/30/2023		$200	$600	Using FALCON, an FDLE system, users perform tasks related to the management of applicant-type fingerprints retained by FDLE when organizations submit criminal history background check requests. Similar to CWCS, FALCON uses RAMS for invoice generation and processing payments related to these invoices. When RAMS is retired, then FALCON needs to communicate with PALM directly for invoice generation. FALCON will also need to maintain all of its customer data in PALM. Different transaction types ex: CM, DM, invoice type, and receipts type specifically to identify FALCON transactions need to be maintained in PALM directly. FALCON file format will need to be updated for integrating with PALM. **Progress:** The AS-IS business process modeling for invoice generation is in progress. The file format will need to be updated when PALM releases the specification. We analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing FALCON with PALM. Also, we procured hardware/software needed for standing up a parallel

							track for PALM changes. FDLE completed the provisioning of the development server and the creation of the FALCON database/schemas. FDLE completed integrating FALCON batch jobs on the DEV process server consumed by RAMS. We are waiting for further information regarding interface field definitions to proceed.
BII001 – Inbound billing data	Firearm Eligibility System (FES)	1/5/2021	6/30/2023		$100	$100	The Firearm Eligibility System (FES) is a web-based application for Federal Firearm Licensees (FFL) to submit firearm background check transactions. Currently, FES uses RAMS for invoice generation and EPay for credit card payments. When RAMS is retired, then FES needs to communicate with PALM directly for invoice generation and also for processing credit card payments related to these invoices. FES will also need to maintain all of its customer data in PALM. Different transaction types ex: CM, DM, invoice type, and receipts type specifically to identify FES transactions need to be maintained in PALM directly. The FES file format will need to be updated for integration with PALM. **Progress:** The AS-IS business process modeling for invoice generation is in progress. Specification for the file format has been developed. We have

							analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing FES with PALM. Also, we procured hardware/software needed for standing up a parallel track for PALM changes. FDLE completed integrating FES batch jobs on the DEV process server consumed by RAMS. We are waiting for further information regarding interface field definitions to proceed.
ARI007 – Inbound deposit data (possibly)	Electronic Payment (ePay)	1/4/2021	6/30/2023		$925	$1,850	EPay is an FDLE enterprise web-based application capable of accepting credit card payments for any internal system and is currently being used for invoice payments from gun dealers. EPay interacts with RAMS for invoice lookups and credit card payments. When RAMS is retired, then ePay will need to communicate with PALM for receipt generation and invoice applications. The FES file format will need to be updated for integration with PALM. **Progress:** AS-IS business process modeling is in progress. The outbound file format to RAMS has been developed. The file format will need to be updated when PALM releases the specification. We have analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing with ePay with

							PALM. Also, we procured hardware/software needed for standing up a parallel track for PALM changes. Currently, FDLE is integrating ePay batch jobs on the DEV process server and database schemas to generate the batch files consumed by RAMS. We are waiting for further information to determine if this interface will suit our needs.
AMI004 – Outbound Asset Physical Inventory Extract AMI008 – Inbound Asset Physical Inventory Load	SATS (Strategic Asset Tracking System)	1/5/2021	6/30/2023		$960	$960	SATS is an application for tracking FDLE's property. The system also provides the capability for reconciling property with FLAIR. The file format for SATS will need to be updated when PALM releases the specification. **Progress:** AS-IS business process modeling is in progress. A meeting with the SAT's vendor was completed to brief us on the upcoming changes to the system. Also, we reviewed the catalog of conversions for the Financials wave. Once PALM releases the specification, the vendor will start making changes to the system. We are waiting for further information regarding interface field definitions to proceed.
ARC001 – Conversion of active customers in agency	Revenue Accounting Management System (RAMS)	1/4/2021	6/30/2023		$500	$4,925	RAMS is an Oracle ERP Financials modules-based Accounts Receivable system. RAMS interacts with multiple internal (CWCS/SHIELD/ FALCON/FES)

business system							and external applications (DOR/DFS) to maintain customer information and manage billing and payments. RAMS distributes invoices by mail as well as the FTP process. RAMS also maintains basic collection data necessary for processing past due payments.
ARC002 – Conversion of detailed open receivables							**Progress:** RAMS application has multiple standard and custom processes, as well as custom code components. We have analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing FDLE applications with PALM. We have reviewed the catalog of conversions for the financial wave. We have procured hardware/software needed for standing up a parallel track for PALM changes. FDLE completed provisioning of the development (DEV) servers and the creation of database/schemas. FDLE completed integrating batch jobs on the DEV process server consumed by RAMS. FDLE participated in the AR/Billing/Cash Management module workshop to analyze the changes needed for batch files to retire RAMS. We updated the technical workbook. We analyzed the latest version of ARC001 and ARC002 interface files and have drafted a set of questions that would need additional input; Both

						ITS and OFS plan to review the files and interface questions this month. We are waiting for further information regarding interface field definitions to proceed.

3 – AGENCY APPLICATION REMEDIATION PROGRESS

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Progress/Comments
Amplifund (Grants Management)	1/5/2021	6/30/2023		$0	$0	Amplifund is an agency-specific cloud-based statewide system used to provide start-to-finish management for most of FDLE's pass-through grants and related sub-awards. It generates NCD files for payments, encumbrances, and encumbrance adjustments which are uploaded to FLAIR using Entire Connection. It also generates a daily ftp file for newly awarded subgrants (contracts) which FACTS imports. **Progress:** We have reviewed the catalog of conversions for the financial wave. ITS and the OFM team met multiple times to discuss the FLAIR-FACTS integration. We are waiting for further information regarding interface field definitions to proceed.
Credit Card Service (CCService)	1/5/2021	6/30/2023		$0	$0	CCService is a web-based interface for collecting payments from CCHInet/SHIELD/CAPS/CWCS and Firearm dealers (FES). CCService

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Progress/Comments
						communicates with NIC and RAMS for FES invoice payments through credit card payment processors. When RAMS is retired, then CCService will need to communicate with PALM for AR functionalities. The CCService file format will need to be updated for integration with PALM. **Progress:** AS-IS business process modeling is in progress. The file format will need to be updated when PALM releases the specification. We have analyzed and strategized the RAMS migration approach, including how long to retain RAMS before interfacing CCService with PALM. Also, we procured hardware/software needed for standing up a parallel track for PALM changes. FDLE completed the provisioning of the development server and the creation of the CCService database.
FDLE Payment – Interface Gateway (Potential Application)	1/5/2021	6/30/2023		$0	$0	When RAMS is retired, FDLE will have to design and implement a new gateway system for centralized access to PALM. This will avoid the need to have various applications such as CWCS, FALCON, and CCService directly interface with PALM. **Progress:** Not started; once PALM specification for invoice generation

Agency Business System Remediation Task	Planned Start Date	Planned Finish Date	Actual Finish Date *(completed)*	Cost for the Month	Cumulative Cost – FYTD	Progress/Comments
						is available, FDLE may initiate this subproject.
Member Assigned Resource Tracking System (MARTS)	1/5/2021	6/30/2023		$0	$0	MARTS is an FDLE web-based application that imports cell phone call detail, sends verifications to members, and pays vendor invoices. **Progress:** AS-IS business process modeling is in progress. The outbound file format to FLAIR has been developed. The file format will need to be updated when PALM releases the specification. Provisioning of servers is in progress.

4 – FLORIDA PALM PRODUCTION SUPPORT

The following incident reports were submitted to the Solution Center more than 10 business days ago and are still open:		
Incident Submission Date	Incident Number	Summary of Incident
N/A		

Florida Department of Transportation

Agency Sponsor:	Lisa Saliba, Assistant Secretary		Submitted by:	Lisa L. Evans, Agency Liaison
Status Report Period:	December 1 – December 31, 2022		Submitted on:	1/9/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December 2022, FDOT completed the following activities related to system interfaces and agency business system remediation for the FDOT PALM System Transition (FPST):

- Continued the review and updates to the FDOT Agency Unique Process Tracker. Six action items assigned during the September 21-22, 2022, Personalized Agency Working Session (PAWS) are still underway.

- Continued remediation efforts in the following summary work areas for the Financials and Payroll Implementation Waves:

  o Adoption of the Florida PALM Chart of Accounts:
    - Documenting AS-IS state and known TO-BE state based on current Florida PALM information and analysis of ChartFields. Identifying requirements based on documented decisions, with the use of decision logs and internal workshop discussions. As of December 2022, the Department is monitoring 30 decisions related to the implementation of the Florida PALM ChartFields. Computing asset remediation plans are being developed for 10 of the documented decisions.
    - Completed deployment of remediation infrastructure with creation of 100+ database tables in the development environment to function as landing zones for interfacing ChartField data. Created the server environment for Classic ASP sites for future development efforts. Completed physical data structure changes for the State Program, Organization and Operating Level Org ChartFields, and the elimination of the Internal Budget Indicator ChartField. Targeting Fund (a.k.a. Trust Fund) as the next COA field to physically change in the test environment and create the landing zone for the Fund tree structure. Additional efforts are dependent on updates to several interface layouts by the Florida PALM team.
    - Paused the remediation plan for the Department's Transportation Vendor Information (TVI) application and the use of Florida PALM Supplier data attributes. Documented all work session(s) with the FDOT Vendor Subject Matter Experts related to use cases, potential user interface changes, and other areas that use TVI heavily. Additional effort is pending design of the Supplier interface by the Florida PALM team and discussions with the Division of Corporations regarding their vendor file.

Overview of Agency progress during reporting period:

- Continued the analysis of the Department's use of "hard-coded" values for General Ledger, Object Code, and Other Cost Accumulator for all computing assets. Findings are being documented for review with Subject Matters Experts (SMEs) to determine if specific outbound interfaces should be targeted for processing changes, data validation routines updated, and/or data references replaced with specific Account ChartField values.
- Continued analysis of the current use of Expansion Option and Expansion Set by the Department's computing assets to transition to the Florida PALM Speed Charts and Speed Types functionality. Data cleansing efforts are completed for cleaning up existing values of Expansion Option and Expansion Set where the 16-character State Program was still being used. Reviewing the derivation process for accounting transaction ChartFields to reduce the number of Speed Chart and Speed Types that will be required in the Florida PALM solution.
- Coordinated with the Department of Management Services (DMS) on a purge process for approximately 2.3 million charge objects for the Department's interface to the PeopleFirst system. The new process will result in a 75% reduction of timesheet related charge code combinations. Attempting to use the existing automated interface to change old Charge Objects to a delimited status, with efforts underway with DMS to review the batching results of the charge object modifications.

  o Florida PALM Interface Layouts and File Definitions Review:
  - Continued the analysis on the impact of the Chart of Accounts and Standardized Business Process Model adoption on the Department's Contract Funds Management (CFM) system. Focused on the current process for vendor changes within FLAIR and the impact on the fund approval process and the creation of interfacing transactions. Continued confirmation of legacy data attribute mapping to the POI001/2/3 Florida PALM interface layouts. Continued remediating business and data objects, as well as the mapping between the two, in preparation for new fields on the POI interfaces.
  - Continued the analysis efforts for the Department's Electronic Estimates Disbursement (EED), Consultant Invoice Tracking (CITS), and Right of Way Management (RWMS) systems.
    - Mapping the data each application receives from FLAIR today and identifying which Florida PALM interfaces will provide the data in the future.
    - Documenting additional data interface needs, and identifying touchpoints, transformations, etc. that will be needed for system functionality.
    - Reviewing and updating system documentation and collecting as-is state use cases and requirements.
    - Selected pilots for EED data lineage/workflow workgroups and identified sample data for data lineage efforts.
    - Reviewed proposed EED replacement strategy with Department leadership and confirmed the resource commitment and the priority of analysis and rewrite efforts.

Overview of Agency progress during reporting period:

- Continued the impact analysis of the OWPB budget checking and budget allotment as-is process for the Fixed Capital Outlay - Work Program budget categories. OWPB has completed the Florida PALM Impact Analysis phase. As of December 2022, the asset technical review process determined that 582 assets are not impacted and 124 assets that require remediation. Of those 124 assets: 28 are now "In Progress" with programming and unit testing, and 8 are marked as remediation "Complete".
- Continued the Florida PALM Impact Analysis Phase for OOC owned computing assets. As of December 2022, the asset technical review process determined that 181 assets are not impacted and 435 assets that require remediation. Of those 460 assets: 7 are now "In Progress" with programming and unit testing, and 1 is marked as remediation "Complete".
- Continued the analysis of interface layouts and file definitions for the Asset Management module. Efforts are underway to confirm the mapping of the current FLAIR interfaces to Florida PALM file definitions with Department SMEs and to determine alternatives for identified gaps.
- Continued the analysis of the Chart of Accounts and Standardized Business Process Model adoption on the Department's cost distribution functionality and supporting computing assets. Continued the mapping of these legacy data attributes to Florida PALM interface layouts and expanded the review of the accounting transaction data attributes to include code references for primary, secondary, statewide, and other document references as well as various date related attributes. Analyzed the Department's FLAIR transactions with the PowerBI dashboard (based on data from the FLAIR outbound TR2 file interface) to provide summary data analytics on the impact of Florida PALM ChartFields and additional transaction references. The current proposal for the use of the Project and related ChartFields is:
  - Project Hierarchy:
    - Project: 55 + Department's current 11-character Financial Project
    - Project Activity: Constant value
    - Project Source: Department's current 3-character External Object
    - Project Category: Legacy SAMAS Batch data attribute
    - Project Subcategory: Pending
  - Other Accumulator 1 (OA1): Legacy Other Cost Accumulator data attribute
  - Other Accumulator 2 (OA2): Legacy Agency Unique and non-FTE Cost Center data attributes

- Continued to manage the scope of the Department's transition to the Florida PALM solution. As of December 2022, the computing asset inventory analysis is shown below:

Overview of Agency progress during reporting period:

Computing Asset Classification	Original Count	New Computing Assets	Total Scope	Inactive Computing Assets	Active Computing Assets	Remediation Not Required	Candidates for Remediation
	1,450	632	2,082	298	1,784	920	864

- Continued the review of the Department's computing assets that are candidates for Florida PALM remediation, and as of December 2022, the status of the assets is shown below:

Computing Asset Impact Counts for PALM Implementation							
Inventory Type	Research Required	Analysis Not Started	Analysis in Progress	Remediation Required	Remediation In Progress	Remediation Complete	Total
Application:	0	72	4	24	4	2	106
Automated Job/Process:	1	20	56	78	17	3	175
Interface:	0	7	32	43	0	0	82
Report:	1	124	167	182	21	6	501
Total:	2	223	259	327	42	11	864

As a reminder, we will continue prioritizing the applications with the highest business capability risk and that will create the Department's accounting transactions within the Florida PALM solution.

- The Department was appropriated $2 million for Fiscal Year 2022-23 to continue the transition efforts to the Florida PALM solution. The FPST Fiscal Year 2022-23 3rd quarter budget amendment requesting a release of an additional $585,427 was approved on December 27, 2022. The submission of the FPST budget issue for Fiscal Year 2023-24 is pending additional direction from the Florida PALM Team and the Executive Office of the Governor.

- Addressed the following remediation related Readiness Workplan (RW) tasks:

- o Task ID 324: (Complete FLAIR Data Elements Inventory): Efforts continue with the analysis of commonly used FLAIR Data Elements, initially focusing on the Chart of Account elements and the code references for primary, secondary, statewide, and other document data attributes on the existing FLAIR transaction layout. Task ID 324 is currently underway and is on target to be completed by 3/31/2023.

- The staffing resources supporting the remediation analysis for Florida PALM on a full-time or part-time basis for Fiscal Year 2022-23 are:
  - o Internal FTEs: 3 full-time and 6 part-time.
  - o Contracted staff augmentation: 4 full-time and 12 part-time.
  As additional tasks are assigned, the number of staffing resources supporting FDOT's transition to Florida PALM will be updated accordingly.

- FPST Risks and Issues:
  - o There are 24 logged risks with 8 risks with a status of increasing:

Risk #	Risk Description	Status	Impacted Areas
Risk 02	Major schedule changes in Florida PALM solution would impact our remediation efforts.	Increasing	Schedule; Cost; Quality
Risk 03	Scope changes in Florida PALM solution.	Increasing	Cost; Scope; Quality
Risk 08	Delay or loss of planned funding for the program.	Increasing	Schedule; Cost; Scope; Quality
Risk 11	Timeliness of Florida PALM communications regarding solution functionality design and technical details. Technical workgroups previously scheduled August 2022.	Increasing	Schedule; Cost; Scope; Quality
Risk 15	The new "Account" CoA field will be replacing the GL and Object codes. FDOT needs the specifications for how to cross walk GL and object codes to account in Florida PALM. Delay in this information delays our ability to remediate our systems.	Increasing	Schedule; Cost; Scope; Quality
Risk 17	Vendor specifications are incomplete. FDOT TVI uses TIN and Seq # for vendors; Supplier is the new name for vendor and Traveler is new name for sub vendors. FDOT needs additional specifications on vendor functionality to determine TVI remediation requirements.	Increasing	Schedule; Cost; Scope; Quality
Risk 18	MFMP revisions and impact on TVI is unknown. FDOT needs additional specifications on MFMP changed functionality to determine TVI remediation requirements.	Increasing	Schedule; Cost; Scope; Quality
Risk 24	Impacted asset inventory inconsistencies may cause problems in planning remediation efforts.	Increasing	Schedule; Cost; Scope; Quality

Overview of Agency progress during reporting period:

    o One Issue remains open with a status change of pending.

Issue #	Issue Description	Status	Impacted Areas
Issue 1	Request to update mainframe GEN and Access GEN software for Florida PALM remediation has been delayed by Ensono (provider of mainframe as a service) since October 8, 2021. After FDOT staff made numerous attempts to escalate the request, the software was installed. FDOT is configuring the additional connectivity infrastructure and the issue will be resolved accordingly.	Pending	Impedes remediation efforts

- Discussion items to review with the Florida PALM Team pending scheduling include:
  - Resolution of outstanding questions from the Module Workgroups, Tips and Tricks Webinars, and Readiness Touchpoint Meetings.
  - Availability of an electronic invoice or outbound interface for use in billing funding partners (such as FHWA) within the Billing module.
  - Review of Federal Highway Administration's federal project and appropriation data structures
  - Release of Chart of Accounts ChartField values for Configuration Workbooks.
  - Review of the Commitment Control Module functionality for the Department specific Fixed Capital Outlay - Work Program Budget Category ChartField values.
  - Review of the GLI003 interface between FACTS and PALM and the Contract ChartField changing from 5 to 10 characters, as well as whether there will be interfaces to replace the existing FACTS functionality for allowing agencies to load contract data and image information.
  - Updates on Supplier interface characteristics based on interactions with MFMP and Division of Corporations contacts and review of sample data values.
  - Release of the Conversion Offering APC001 – Suppliers.

The list of Florida PALM interfaces and FDOT Agency Business Systems is shown below in Section 2. The FPST computing asset remediation efforts are included for the four summary work areas for the Financials and Payroll Implementation Waves and are listed below in Sections 3. This effort relates to the Chart of Accounts, transactional, master balance, account description, and crosswalk data highlighted in the Catalog of Interface Offerings. The planned start and actual finish dates will be provided based on the FPST project schedule. Actual costs are only included for those computing assets in Sections 2 and 3 where remediation work has begun. The planned finished dates have been changed to "TBD" and will be modified based on the revised Florida PALM project schedule for the Financials and Payroll Waves. Additional interfaces will be added in Section 2 when remediation work begins.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Florida PALM Interface	Agency Business System	Planned Start Date	Planned Finish Date	Actual Finish Date (completed)	Cost for the Month	Cumulative Cost - FYTD	Progress/ Comments
API002 (inbound)	Right of Way Management System	8/15/22	TBD			$2,632.50

Florida Department of Veterans' Affairs

Agency Sponsor:	Alfred Carter, Chief of Staff	Submitted by:	Linda Rizzo, Director of Administration
Status Report Period:	December 01 – December 31st, 2022	Submitted on:	January 3, 2023

1 - STATUS OVERVIEW

A. Overview of Agency progress during reporting period:

During the month of December, the Department of Veterans' Affairs completed the following activities related to system interfaces and agency business system remediation:

- SPON152 - Provided agency update for Project Status Reporting. Completed 12/01/22.
- Personalized Agency Working session presentation. Completed 12/05/22.
- Meetings & workshops - attended monthly touch point and Tuesday task talk.

Currently nine FTEs are supporting the transition to Florida PALM on a full-time basis.

2 – AGENCY SYSTEM INTERFACE PROGRESS

Legislature

Agency Sponsor:	Lisa Swindle Finance & Accounting Director	,	Submitted by:	Mike Mentillo Program Manager
Status Report Period:	December 1 – December 31, 2022		Submitted on:	01/06/2023

1 - STATUS OVERVIEW

Overview of Agency progress during reporting period:

During the month of December, the Legislature completed the following activities related to system interfaces and agency business system remediation:

- Task 154   Provide Agency Update for Project Status Reporting

During December we completed our review and comments on highpoints from the "Personalized Agency Work Session (PAWS)," on November 16, 2022, in the Agency Unique Process Tracker in Smart Sheet. The Legislature then started working on Task 324, Complete FLAIR Data Elements Inventory due March of 2023.

The PALM project was suspended temporarily pending resolution of CMS issues, which have now been resolved except for some contract issues. So it appears the PALM project will resume full implementation work shortly. The implementation date of July 1, 2024 will be delayed. A new Implementation date will is to be announced at a later date.
Although our utilization of PALM CMS functionality is extremely limited and as such we have no outstanding issues, we are continuing to notify our CNN of opportunities to increase their knowledge of PALM through meetings, round tables, and other PALM CMS activities which may have similar functions or information that could be useful in understanding or using other PALM related functionality such as reporting and interface related information and issues.

 0   - FTEs are supporting the transition to Florida PALM on a full-time basis.
17   - FTEs are supporting the transition to Florida PALM on a part-time basis & 2 Vendors (4 People)

2 – AGENCY SYSTEM INTERFACE PROGRESS
