Welcome

Dear Fellow Floridians:

The 2021 legislative session resulted in new laws to protect Florida's insurance-buying public, including laws regarding telephone solicitation.

Laws were created or amended to provide additional disclosure and protections to consumers including the purchase of surplus lines policies and changes to public adjusting contracts which now allow consumers more time to cancel those contracts.

Many changes were made to the Florida Statutes that directly or indirectly affect our licensees. Please take time to review some of those changes we've highlighted in the In The Know and Compliance Corner sections of this issue.

After the Condo collapse in Surfside, we've had a number of staff members from Insurance Agent & Agency Services near the site to assist with insurance claims and performing consumer service work. Thank you all for your hard work and answering the call to serve your fellow Floridians. Your help and assistance has been greatly appreciated. Here's a picture of me with Maria Guido-Hernandez while she is hard at work helping Surfside survivors with their insurance claims.

Hurricane season is in full swing. **Now** is the time for adjusters to make sure their licenses are in compliance. All licensees should act now to prepare their personal and business properties in the event a storm makes landfall in Florida. My [PrepareFL](#) website offers useful information and resources for Florida's licensees and consumers.

Customer Representatives - Compliance Reminder

The Governor's Executive Order which allowed 4-40 Customer Representatives to work at remote locations expired June 26, 2021. The statutory requirements for both 4-40 customer representatives and their supervising general lines agent and the agency they are employed by are in full effect.

The Department has received inquiries asking for clarification of the laws that regulate customer representatives and the agency they are employed by. We are providing the following to prevent confusion on the part of our licensees.

Customer Representatives. - Florida Statutes Chapter 626 - Part II

Following are the statutes specific to customer representatives currently in effect:

[626.7351](#) Qualifications for customer representative's license.

The department shall not grant or issue a license as customer representative to any individual found by it to be untrustworthy or incompetent, or who does not meet each of the following qualifications: (5) The applicant will be employed by only one agent or agency and the agency will appoint one designated agent within the agency who will supervise the work of the applicant and his or her conduct in the insurance business, and ***the applicant will spend all of his or her business time in the employment of the agent or agency and will be domiciled in the office of the appointing agent or agency as provided in s. 626.7352***, F.S.

[626.7352](#) Customer representative's office.

A customer representative shall be housed wholly and completely within the actual confines of the office of the agent or agency whom he or she represents, together with any such furniture, books, records, equipment, and paraphernalia necessary for the conduct of such insurance business. The customer representative ***shall not maintain any such office or furniture, books, records, equipment, or paraphernalia at any other address or location, nor shall he or she maintain or make use of any***

other quarters, space, or address, for the purpose of the conduct of such business. No advertising, letterhead, or telephone listing of the customer representative shall indicate any business address other than that of the agent or agency by whom he or she is employed. No customer representative may be employed from any location except where an agent licensed to write such lines spends his or her full time in charge of such location.

[626.7354](#) Customer representative's powers; agent's or agency's responsibility.

(4) A customer representative shall not engage in transacting insurance outside of the office of his or her agent or agency.

We've been asked for clarification whether some customer representative duties fall under the above laws, such as underwriting activities or agency bookkeeping, accounting or other miscellaneous responsibilities represent an exception to the prohibition of a customer representative working from a remote location.

Those type of activities **must** occur at the agency or the supervising general lines agent's office as the laws prohibit a customer representative from "maintaining" any other space, have books or records (including electronic records), at a remote location.

Florida Statutes [626.7351](#) states the customer representative "*will spend all of his or her **business time** in the employment of the agent or agency and will be domiciled in the office of the appointing agent or agency as provided in s. [626.7352](#), F.S.*"

Further, all activities conducted by a customer representative must take place at the place of business of their supervising general lines agent, even those that are not defined as "transacting insurance" per [s. 626.7352](#), F.S. This law states **all** activities related to the customer representative's duties may only be conducted at the supervising general lines agent's office. "Duties" would include any type of work assigned to the customer representative including those outside the scope of their license authority.

General lines agents may conduct insurance business from a residence provided they meet the requirements of [s. 626.749](#), F.S. In that case, the customer representative would be allowed to work from the supervising general lines agent's home office.

Questions about the regulation of these laws can be directed to AskDFS@MyFloridaCFO.com.

Recent legislation created [s. 626.854\(15\)](#), F.S. and prohibits licensed contractors and subcontractors from advertising, soliciting, offering to handle, handling, or performing public adjuster (PA) services without a license. The contractor may discuss or explain a bid for construction or repair of covered property with the residential property owner who has suffered loss or damage covered by a property insurance policy, or the insurer of such property, if the contractor is doing so for the usual and customary fee applicable to the work to be performed as stated in the contract between the contractor and the insured.

Become a More Informed CE Shopper

Social media, product reviews and internet searches are just a few of the tools people use to become more informed when shopping. Licensed insurance professionals can also become better informed when selecting a CE class by simply seeking important information from the Provider before signing up. Here are five questions a licensee may want to ask an educational provider.

What is your provider ID number and the approved course ID number?

It is important for licensees to ensure they are signing up for an approved CE course from an approved CE provider. A licensee also doesn't want to take a duplicate course. A "duplicate course completion" means completing the same course by the same provider within a 24-month period. ***Duplicate course completions appear on the licensee's transcript but are ineligible to be credited towards fulfilling CE requirements.*** We strongly recommend licensees verify the course by its course ID number to ensure the class is not a duplicate of a previous course credited to your CE record.

What must I provide in addition to completing the class to get CE credit?

Make sure the provider is aware that CE credit is expected. The provider may need additional information required by the the Department to report course completion credit. Ask the provider what additional information they will need.

Is this an approved Law and Ethics Update course for my specific license? (If looking to satisfy your law and ethics update course)

Licensees seeking to satisfy the Law and Ethics update requirement should be sure the provider had the course approved in a manner that will apply to the requirement for the licensee's specific license.

When should I expect to receive my certificate of completion?

The Department does not require licensees to submit certificates of completion unless there is a discrepancy that needs to be resolved. However, it's always a good idea to be sure the provider is complying with

Department rules and issues a certificate of completion within 30 days of course completion. You can review this information in your [MyProfile](#) account.

How long does it take for my course certification to be reported to the state?

Providers have 21 calendar days to report completed credits to the state. Timely submission of credits prevents undue cancellation of appointments to transact insurance or handle insurance claims.

If you have any questions about a course, you may reach out to the approved educational course provider or email us at Education@MyFloridaCFO.com.

Are You Compliant with Your CE or Not?

To be CE compliant requires more than just taking CE courses. Below are a few suggestions for remaining CE compliant:

CE requirements change. You should regularly review your CE status through your [MyProfile](#) account. Your total hours have specific allocation requirements that must be met. Be sure to take all the right categories of CE courses.

Check for late hours. Hours taken after your due date will still post on your compliance evaluation screen, but they will be noted as "Late". Though your hours requirement may have been met, late completion of your continuing education requirement will result in penalties.

Check prior evaluation periods. Always check previous compliance periods to make sure you are not delinquent for a prior period. Be sure to click on VIEW ENFORCEMENT NOTICE just below the Not Compliant text to check for any outstanding fines.

Check your transcript. The same course cannot be taken with the same provider within a two-year period and receive credit. This is noted on your transcript as a duplicate course. You will need to take a different course to meet your CE requirement.

We wish you success in completing your hours to remain knowledgeable in an ever-changing insurance market. And remember, your CE compliance date is your DUE date, not your DO date.

Because many factors may affect your continuing education requirement (e.g. licenses held, number of years licensed, etc.), we encourage you to periodically check your [MyProfile](#) account to determine your individual continuing education compliance requirements and status. You will also be able to find more approved CE courses after logging in to your [MyProfile](#) account versus the public search option, which limits the results to the first 100 course offerings.

- **Public Adjusting:** prohibits licensed contractors and subcontractors from advertising, soliciting, offering to handle, handling, or performing public adjuster (PA) services without a license. - **Prohibits a Public Adjuster (PA), PA apprentice, or person acting on behalf of a PA or PA apprentice,** from offering financial inducements for (1) allowing a roof inspection of residential property, or (2) making an insurance claim for roof damage and prohibits them from offering or accepting consideration for referring services related to a roof claim. Reminder: Bail Bond Agencies Must Register in "[MyProfile](#)"

The Department notified bail bond agencies in our June 2020 newsletter that effective immediately, bail bond agencies must establish and access a MyProfile account for the agency and designate their primary bail bond agent.

The Department continues to receive paper applications from some bail bond agencies. ***The paper application form is no longer accepted by the Department.***

To set up a [MyProfile](#) account, you will need to create a secure [MyProfile](#) "**Bail Bond Agency**" account type. When you do this, you will be able to take the following actions:

- Add Owner/Officer
- Designate and delete a primary bail bond agent.
- Add locations
- Delete locations
- Change an address
- Change login information
- Email Address Changes
- Grant Third-Party Privileges

Registering your agency through MyProfile allows the consumer-buying public to find and locate bail bond agents and agencies through the Department's [Licensee Search](#), which had not been available before the change to the electronic registration/designation filing.

Jails and courts are also able to verify that a bail bond agent and agency is registered with the Department after they have designated a primary bail bond agent for a location.

For more instructions, please see our [Bail Bond Agency Primary Agent User Guide](#).

Emergency Adjusters - Your Responsibilities

Hurricane Season began June 1. If you haven't taken steps to be sure your license is in compliance **NOW** is the time - not when a storm is threatening our state! Complete this short checklist to ensure your license is in good standing:

- Is your license active?
- Are you self-appointed or appointed by an adjusting firm?
- Do you have the required \$50,000 surety bond?
- Are you compliant with your continuing education requirements?

- Has a primary adjuster been designated for your firm?
- Is all contact information up-to-date? You can update it at MyProfile.
- Are any apprentices licensed and appointed?
- Do you have your Department issued license with you?

If a storm is expected to or makes landfall in Florida, insurers may start the appointment process. Although insurers are responsible for appointing emergency adjusters, that process is not fool-proof. It is your responsibility to make sure you are properly appointed. You can quickly review your appointments through your [MyProfile](#) account to make sure the insurer you represent in the aftermath of a storm has appointed you!

Public Adjusters and Public Adjusting Firms - Review Legislative Changes and Take Action

Hurricane season is in full swing. All public adjusters and firms should be fully aware of the changes in the Florida Statutes that were effective July 1, 2021 and make the necessary changes to contracts and business practices.

Licensees that have not already made the required changes to the public adjusting contract should implement those changes immediately to avoid possible enforcement action. Information about all changes that affect public adjusters and firms can be found in articles in this issue and the links we've provided to the 2021 Laws of Florida.

Failure to Update Title Agency Agent in Charge - Cancellation of Agency License

All title agencies were notified by email on two occasions that any agency that did not update its title agent in charge by July 21, 2021 would automatically be terminated. The Department automatically notified those agencies on July 22, 2021.

Agencies who lost their agency license must reapply for the license - no exceptions. There is no mechanism to "reinstate" a terminated license.

The former title agency may not conduct any of the activities that require a title agency license including accepting premium, issuing title insurance, or handling escrow. A licensed and appointed title insurance agent may handle escrow, but the agency cannot perform any escrow transactions while unlicensed. As for transacting title insurance, that also requires a title agency license.

[626.8412](#) License and appointments required.

- (1) Except as otherwise provided in this part:
 - (a) Title insurance may be sold only by a licensed and appointed title insurance agent employed by a licensed and appointed title insurance agency or employed by a title insurer.
 - (b) A title insurance agent may not sell a title insurance policy issued by an insurer for which the agent does not hold a current appointment.
- (2) Except as otherwise provided in this part, a person, other than a title insurance agency or an employee of a title insurance agency, may not

perform any of the functions of a title insurance agency without a title insurance agency license.

If you receive notice of cancellation of your agency's license due to failure to comply with this requirement, please contact AgentLicensing@MyFloridaCFO.com or call 850-413-3137. Inquiries about license cancellation sent to any other section will cause a delay as additional handling will be required by the Department.

Case Notes

Case: Florida Statutes [s.626.112\(7\)\(a\)](#) requires that an individual, firm, partnership, corporation, association, or other entity shall not operate as an insurance agency under its name or a trade name unless it has first obtained an insurance agency license from the Department.

An investigation was opened after to determine whether an entity was operating without the required license in Florida after the applicant failed to complete the application process.

Investigators contacted an insurer the agency's principal was appointed by and obtained evidence confirming the agency had sold multiple policies to Florida consumers while the agency was unlicensed.

Disposition: Fined \$1,000 and required to obtain an insurance agency license.

Case: The Department received an insurer complaint alleging a health agent submitted fraudulent supplemental health benefit applications allegedly sold to employers who could not offer health benefits to their employees.

The complaint alleged the agent opened new business accounts for two businesses and enrolled a total of 35 "employees" under those accounts. Investigators were able to verify accurate identifying information for only one employee.

Investigators interviewed the agent who admitted the two business accounts were owned by her family members.

The agent received \$23,455 in advanced commissions from the sales. The insurer terminated the agent, who owes the full amount of advanced commissions paid to her due to non-payment of premium for the products fraudulently "sold".

Disposition: Suspended for 18 months.

Case: Investigators scheduled a bail bond agency inspection but found the bail bond agent was not in his office during the required, posted business Monday through Friday business hours.

The Department made several attempts to complete the inspection, but the bail bond agent was not at the office when investigators arrived on

several occasions. Investigators finally made contact with the bail bond agent and the inspection was completed. The inspection found the bail bond agent failed to keep a daily bond register of written bail bonds and failed to keep individual files for each defendant.

Disposition: Fined \$2,500 and placed on probation for one year.

Case: The Department received an insurer's appointment termination for cause of a life, health, variable annuity and general lines agent.

Detailed information about the cause for the termination was received along with documentation to support the insurance company's action.

Investigators discovered the agent used a consumer's credit card to pay personal expenses totaling almost \$2,000. The consumer stated he gave his credit card information to the agent to pay his insurance premium. The consumer subsequently discovered charges on his statement that he did not authorize. The consumer discovered the charges and was able to have the charges reversed.

Disposition: License suspended for six months.

Case: The investigation of a an agency that specialized in workers' compensation sales sales led to an investigation of a general lines agency. .

Investigators obtained an affidavit from the affected consumer, conducted agency inspections and procured extensive documentation from the insurance company and the agency's bank.

The consumer met with an unlicensed individual who sold him a workers' compensation policy. The unlicensed individual explained the coverage and engaged in a substantive discussion of the consumer's insurance needs.

When the insurance application was submitted to the insurance company, it was signed by the subject of the investigation who worked at a different agency, located in another city. The subject signed the application attesting he met with the insured when, in fact, he had not. The subject later admitted he never met the insured and did not know him. To compound matters, the insured was overcharged \$13,215 for premium by the unlicensed individual and the policy was mishandled. The agency sent the consumer a refund check for the premium overcharge after investigators visited the agency.

The subject was charged with aiding and abetting an unlicensed person.

Disposition: Fined \$4,000.

Case: This case was opened after a field investigation on another licensee revealed a life, health, variable annuity and customer representative was marketing insurance using the name of an unlicensed entity.

The investigation revealed the subject solicited insurance products she was not properly licensed or appointed to sell and was sending email solicitations to consumers for referrals offering a \$500 gift card raffle for consumers who filled out a survey.

The subject admitted to investigators she was marketing insurance products as an unlicensed agency. The subject agreed to stop the email campaign, take down the unlicensed agency's Facebook page, and correct the unlicensed agency's website. The subject was given 10 days to comply and was told investigators would follow up on her compliance with their instructions. The subject failed to comply with the Department's guidance.

Disposition: \$2500 fine and probation for one year.

Case: The Department received a complaint from an insurer against a life, variable annuity and health insurance agent alleging the agent used theft and fraud to qualify for a production-based contest sponsored by the insurance company.

The complaint said the agent used the same checking account on multiple applications for different insureds and different premium payors.

Investigators obtained multiple affidavits from Florida consumers stating they did not authorize the agent to use their bank account information on any other application other than their own.

In addition, the agent met with consumers and agreed to obtain health insurance coverage through one insurer, but the applications were submitted to another insurance company without the knowledge and consent of the applicants, so the agent could qualify for the contest.

Disposition: License revoked. The agent was later arrested by the Division of Investigative and Forensic Services and charged with organized scheme to defraud, false and fraudulent insurance applications, criminal use of personal identifying information, and grand theft, all 3rd degree felonies. If convicted, the agent faces up to 40 years in prison.
