

MyMoney

What is Money?

Money is important because you need to buy things. The money that you use comes in different amounts and each coin or piece of paper money can look different.

Coins

Coins come in small amounts, but that does not mean that you should not use them!

Quarter

A quarter is worth 25¢, which can also be written like:

25 cents

Twenty-five cents

.25

Dime

A dime is worth 10¢, which can also be written like:

10 cents

Ten cents

.10

Nickel

A nickel is worth 5¢, which can also be written like:

5 cents

Five cents

.05

Penny

A penny is worth 1¢, which can also be written like:

1 cent

One cent

.01

Paper money

Paper money comes in larger amounts.

This is a 5 dollar bill, which can also be written like this:

5 dollars

\$ 5.00

Five dollars
