SIX MONTHS AT-A-GLANCE TRENDING REPORT

f/k/a "STOPLIGHT"

FREQUENCY:	Biannually, in July/August, January/February
GENERATED BY:	Government Analyst I – TBA (previously Lori Taylor)
SENT TO:	Safety Coordinators & Workers' Compensation Coordinators (and any other agency-designated recipients) for all state agencies and universities, sent via email, then hard copy mailed to agency heads 10 days later
PURPOSE:	<p>This is a two-part report.</p> <p>Part I: The claim trending report shows a snapshot of claim performance for all agencies and universities over a 6-month period. It provides claim frequency and cost information, separated by category of coverage.</p> <p>Part II: The trending data portion shows an agency's claim performance over a period of three years.</p>

PART I: SIX MONTHS AT-A-GLANCE CLAIM SUMMARY BY INSURED ENTITY & COVERAGE TYPE

6 Months At A Glance

Claim Summary by Insured Entity & Coverage Type for the Last 6 Months

If the difference is listed in red print, this means that your agency's costs or claim numbers were higher than the state average by 5% or more.				
If the difference is highlighted in yellow, this means that your agency is between 5% above and 5% below the state average.				
If the difference is listed in green print, this means that your agency's costs or claim numbers were lower than the state average by 5% or more.				

FISCAL YEAR TRENDING REPORT

FREQUENCY:	Annually, in May
GENERATED BY:	Government Analyst I – TBA (previously Lori Taylor)
SENT TO:	Safety Coordinators & Workers' Compensation Coordinators (and any other agency-designated recipients) for all state agencies and universities, sent via email, then hard copy mailed to agency heads 10 days later
PURPOSE:	This report shows three fiscal years of agency claim performance data on paid claims and their causes. It includes a data table for each fiscal year that breaks down costs per cause, pie charts of only workers' compensation costs, and a data table that pulls all the data for all three fiscal years together. It is intended as a tool to assist the agency in conducting trend analyses and tracking performance over time.

FISCAL YEAR TRENDING REPORT

This report includes:

- Data for claims that were reported during the listed Fiscal Year (FY)
- Data for only those claims with a paid total greater than zero
- Data for only those coverage types that have paid reported claims during the listed fiscal years through the valuation dates

This report does not include:

- "Report Only" claims
- "Denied" claims
- Claims for which payments have not been made by valuation date

If a coverage has less than 3 fiscal years of paid claims, no graph will be provided.

Valuation dates are used 6 months after each fiscal year.

- Example: FY 15/16 = 7/1/15-6/30/16, valuation date of 12/31/16

Only Workers' Compensation claims have cause code groups; all other coverages are listed as "None."
