Bulk Export Incidents

Export Utility Recent Exports (15)

- Search for the title of the report.
 - Most recent reports are usually on the top of the list.
- Click the Export files **.zip** file and it will automatically download to your computers downloads location.
- When the reports are importing into the downloads folder on the computer the names of the files will change to a group of alpha and numeric characters, please make sure and rename the .zip files once the import is completed.
