

The background of the entire page is a night-time photograph of a fire. On the left, a fire truck's aerial ladder is extended, with a bright light shining from its tip. In the center-right, a large fire is burning, with thick orange and yellow flames and smoke rising into the dark sky. A fire marshal's badge is overlaid in the center of the image, partially obscuring the fire. The badge is a gold star with a blue center containing the Florida state seal. The words "STATE", "FIRE MARSHAL", and "FLORIDA" are written around the star. A red fire helmet is placed on top of the star. The text "FLORIDA FIRES" is written in large, white, bold, sans-serif capital letters across the middle of the image. Below it, "2022 ANNUAL REPORT" is written in smaller, white, sans-serif capital letters.

DEAR FELLOW FLORIDIANS:

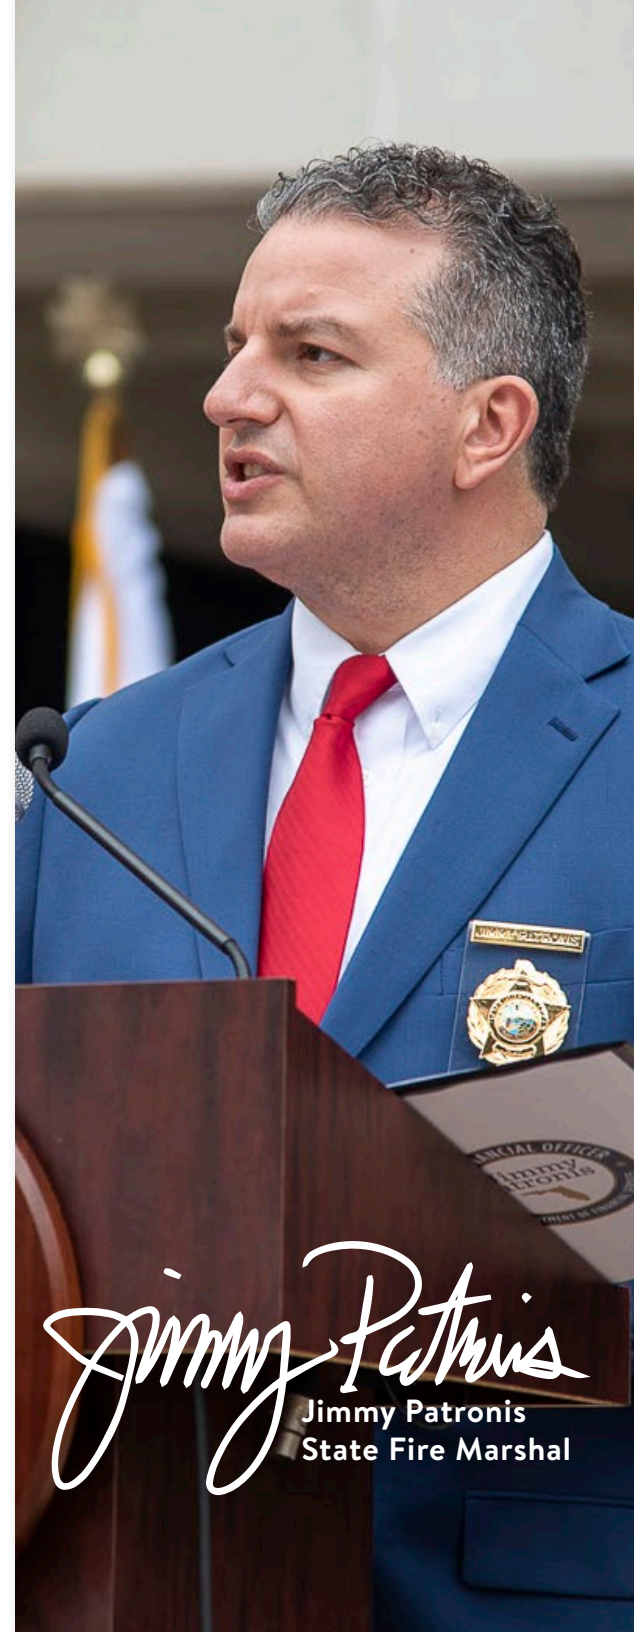

As Florida's State Fire Marshal and Chief Financial Officer, some of my most treasured experiences have been the times I've had the pleasure of working with and getting to know the remarkable men and women who make up our fire service team. I have had the chance to learn directly from our firefighters and their families about their struggles and triumphs, and how I can better meet the needs of our fire service personnel. It has been and remains my personal priority to advocate for and provide the best resources, working conditions, and physical and mental support for the brave men and women of our fire service so they can continue to serve our communities safely and successfully.

During this past year, Director Julius Halas formally retired after almost 14 years as Director of the Division of State Fire Marshal. In his time at the State Fire Marshal's office, Director Halas was involved in many deployments including hurricanes Matthew (2016), Irma (2017), Michael (2018), and Dorian (2019). He also helped helm statewide assistance throughout the healthcare emergencies of H1N1 and COVID-19, and most recently in the deployment of all eight Florida Urban Search and Rescue teams during the Surfside Building Collapse tragedy. As the Director with the longest tenure in the State Fire Marshal's Office, we are grateful to Director Halas for his guidance and investment into the lives of firefighters and citizens across great state of Florida.

In October, I was pleased to announce the promotion of JoAnne Rice as the new Director of the Division. With over 33 years of experience in the fire service community, her expertise and visionary attitude has been essential in our mission to expand community outreach and train the next generation of fire service professionals. I witnessed first-hand Director Rice's leadership during the events of Hurricane Ian and how she successfully managed the Department's Emergency Support Functions. She also led the Division as they provided personnel to the State Emergency Operations Center to coordinate the state-wide response with other emergency management teams. I am confident that the State Fire Marshal's Office will be well served by Director Rice's knowledge, experience, and passion for training and working alongside Florida's firefighters.

Finally, we learn something new from every major disaster. In the aftermath of Hurricane Ian, we discovered the dangerous effects that surging flood waters have on Lithium-Ion batteries in electronic vehicles (EVs). Bringing these facts to light, our team expressed how working together with private industry is critical to increase the safety of EV owners operating these vehicles and, by extension, the safety of all Floridians.

Every day, the brave men and women of Florida's Fire Service face unpredictable and often dangerous situations head-on to protect Floridians. Working through holidays, birthdays, and sacrificing special moments with their own families, these heroes are on call 24/7/365. On behalf of our grateful state, thank you for your service to the Great State of Florida and for your dedication to keeping Floridians and our communities safe.

Division of Investigative and Forensic Services Bureau of Fire, Arson, and Explosives Investigations (BFAEI)

Overview of 2022

During the calendar year 2022, the BFAEI received **2,667** new requests for investigative assistance and completed **825** telephone fire consultations from fire departments, law enforcement agencies, federal and state agencies, individuals and insurance companies.

Investigative responses are classified according to type of incident:

This year, the BFAEI conducted investigations on properties that resulted in estimated losses of around **\$123 million**. Of this estimated property loss, approximately **\$15.5 million** was attributed to the crime of *arson*.

The Division of Investigative and Forensic Services encompasses all law enforcement and forensic components residing within the Department of Financial Services

2022 Investigations

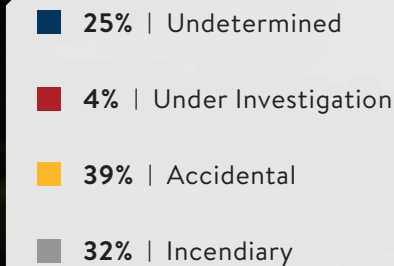

Arrests

Sworn personnel of the BFAEI made arrests in **262** investigative cases in 2022, resulting in the arrest of **277** defendants. This information is based on an arrest date occurring in 2022 and often includes on-going investigations from previous years, not just cases initiated in 2022. Of the 262 cases with arrests, **197** of these investigations were classified as "Incendiary" fires and resulted in the arrest of **206** defendants. This represents an arrest clearance rate for incendiary fires of **28%**.

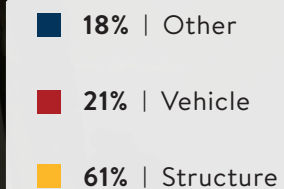

Bomb Squad

During 2022, the teams responded to **61** incidents and conducted another **3,102** activities that included render safe operations of suspicious items, disposal of hazardous materials, training, operational stand-by, and integrated Bomb / SWAT (Special Weapons and Tactics) responses, public education demonstrations, etc.

Indicated Causes

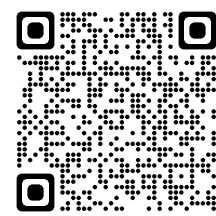

Types of Incidents Investigated

Division of Investigative and Forensic Services Bureau of Forensic Services

In 2022, the Bureau of Forensic Services performed **2,968** fire debris sample analyses. A total of **1,280** separate Quality Control/Quality Assurance (QA/ QC) analyses were completed for fire debris and explosives/hazardous chemical samples.

The imaging section archived **2,047** cases in the calendar year 2022, and **19** videos were processed.

The Division of Investigative and Forensic Services encompasses all law enforcement and forensic components residing within the Department of Financial Services

2022 Summary Statistics

In 2022, fire departments responded to a total of **2,914,631** incidents, which generated slightly higher requests for fire department services than 2021. Total fire response incidents increased slightly by **4.16%**. The number of fire departments that reported to the Florida Fire Incident Reporting System (FFIRS) was **328**, which is a slight decrease of **3.29%** from the previous year.

Civilian Injuries By Property Use

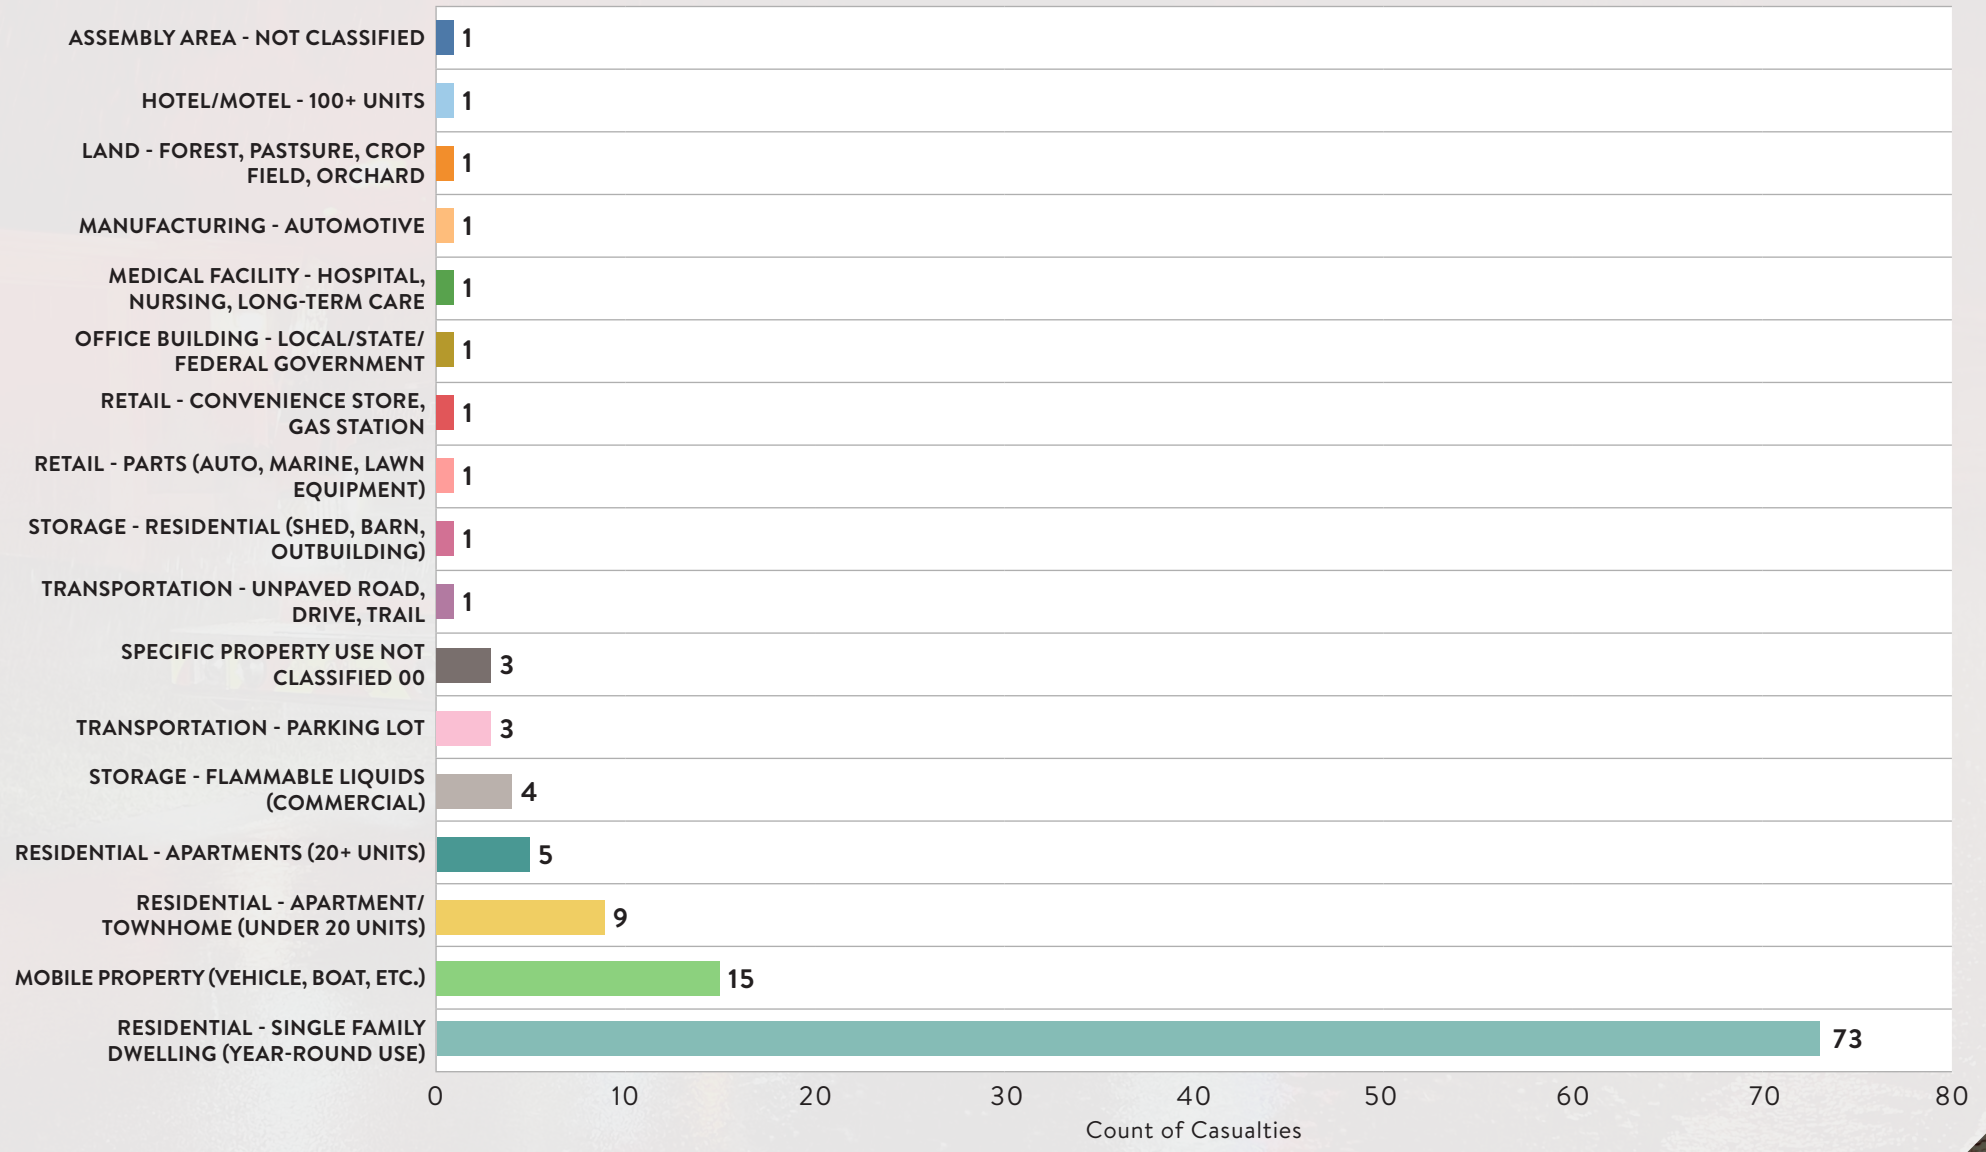

NFIRS is the source of this data which was provided by the reporting fire departments.

Civilian Injuries by County

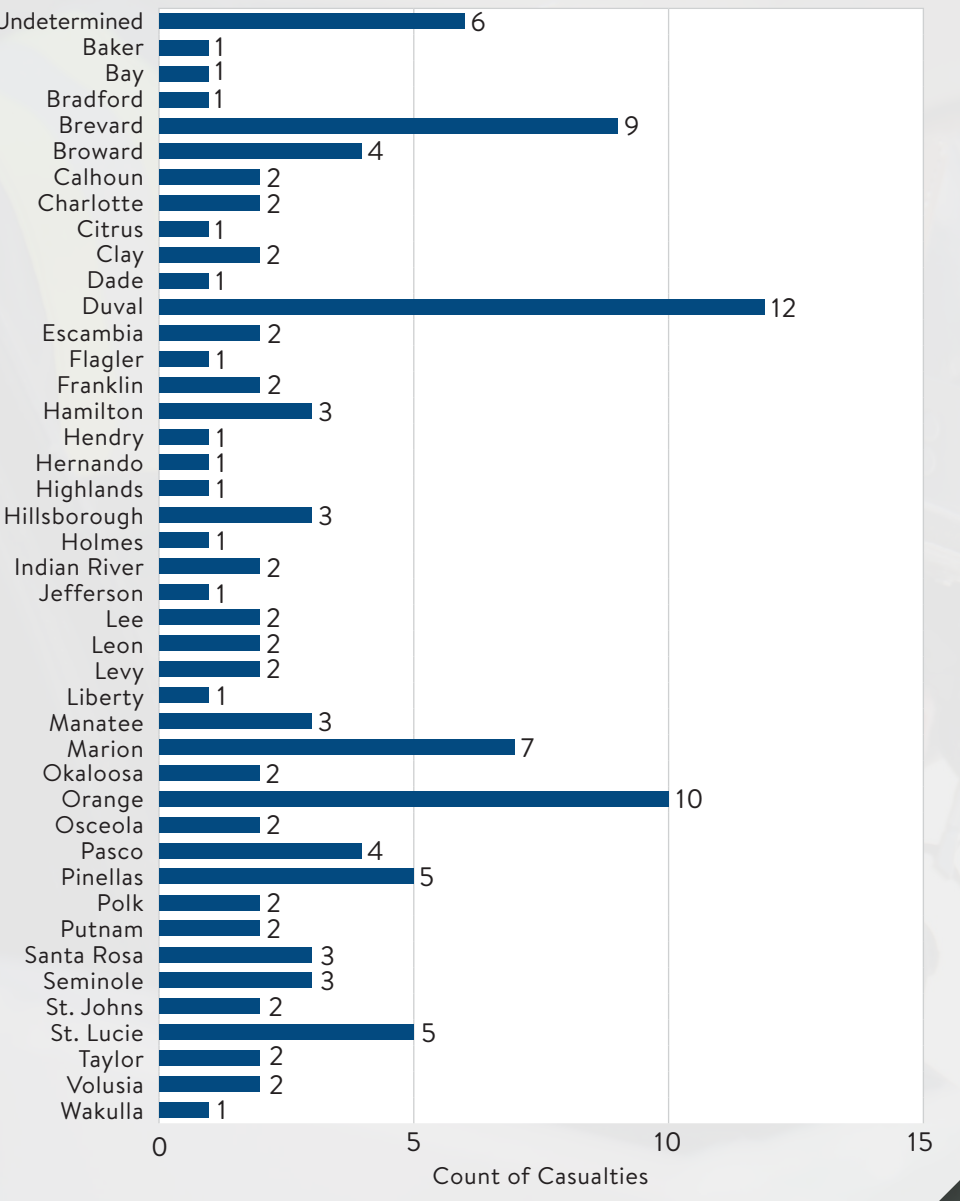

Civilian Deaths By Property Use

Civilian Casualties Reported by BFAEI by Specific Property Use

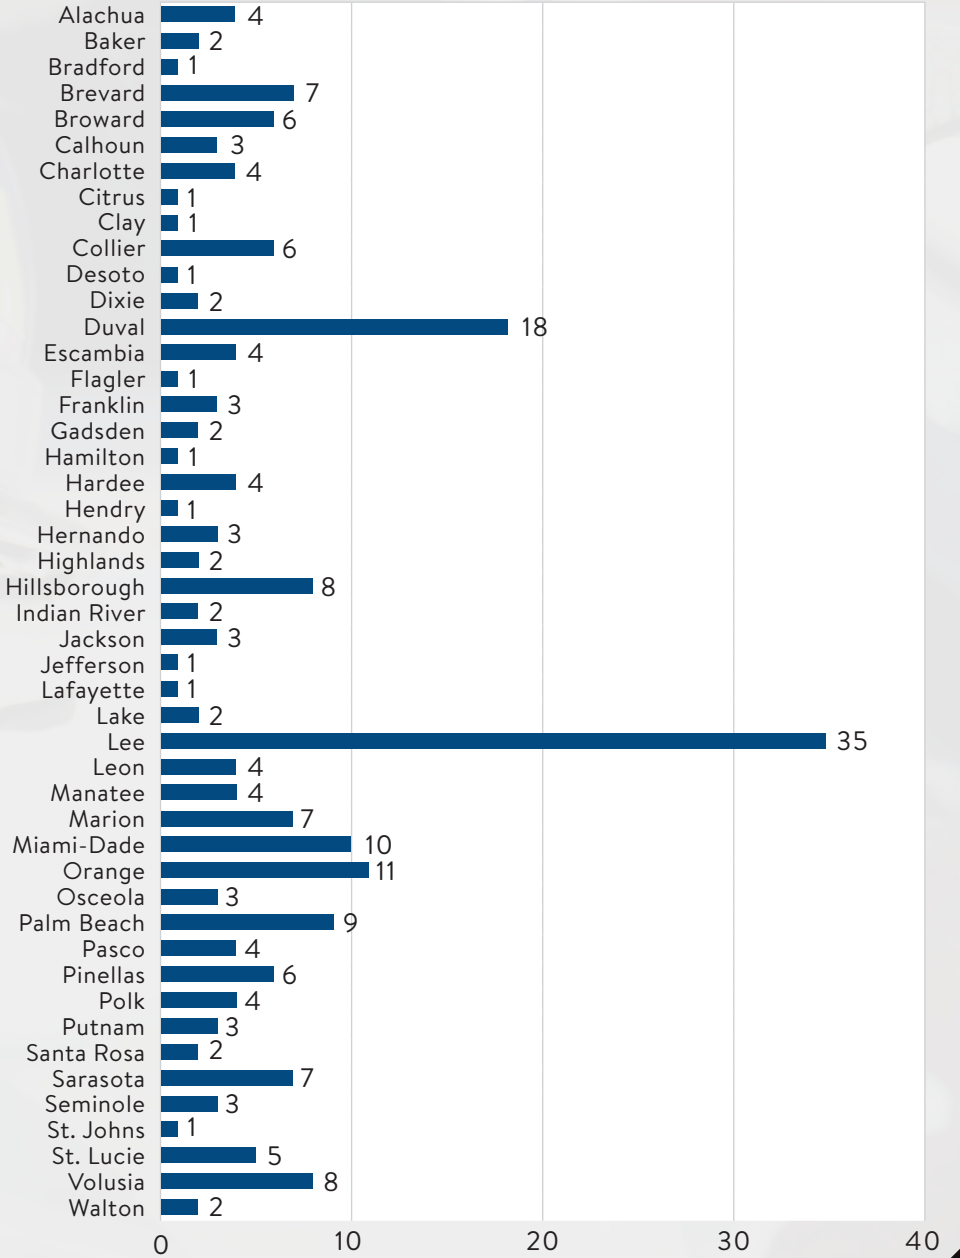

Civilian Casualties Reported by BFAEI by County

There were a total of 122 casualties reported.

Civilian Deaths by County

Reported by the Department of Health. This graph depicts the counties in which the death occurred. If the county is not on this chart then there were no deaths to report.

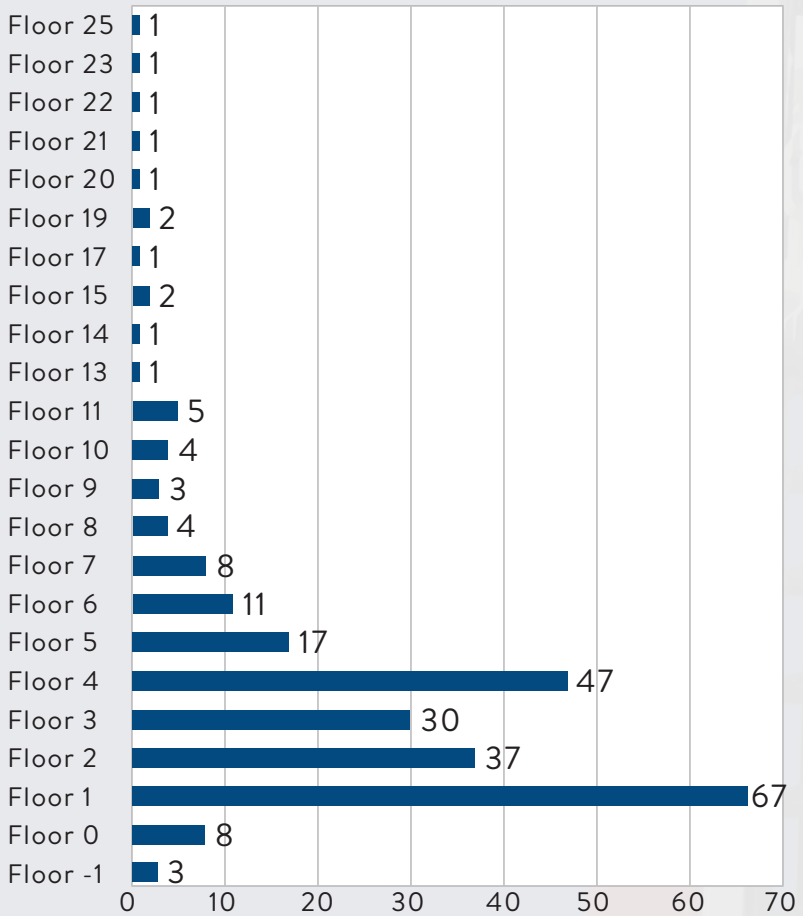

Any published findings and conclusions are those of the authors and do not necessarily represent the official position of the Florida Department of Health.

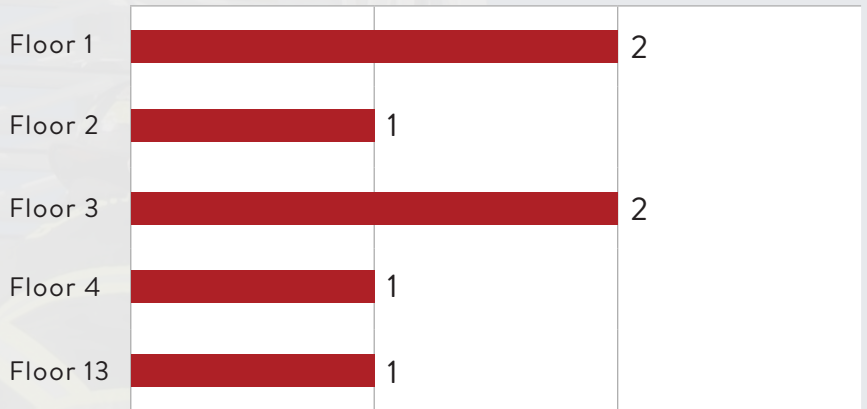

Frequency and Number of Civilian & Fire Service Injuries in High-Rise Structures

The term "high-rise building" means a building that is greater than 75 feet in height where the building height is measured from the lowest level of fire department access to the floor of the highest occupiable level.

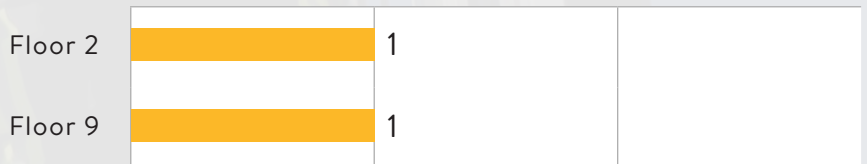

High Rise Structure Fire Incidents by Frequency

Civilian Injuries

Firefighter Injuries

NFIRS is the source of this data which was provided by the reporting fire departments.

Area of Origin for Residential Structure Fires

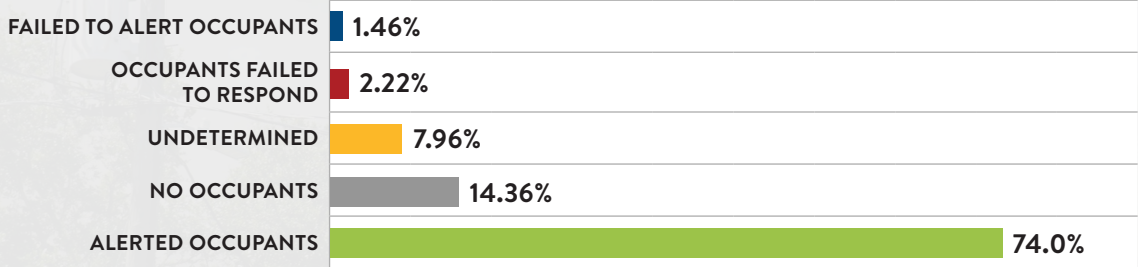

NFIRS is the source of this data which was provided by the reporting fire departments.

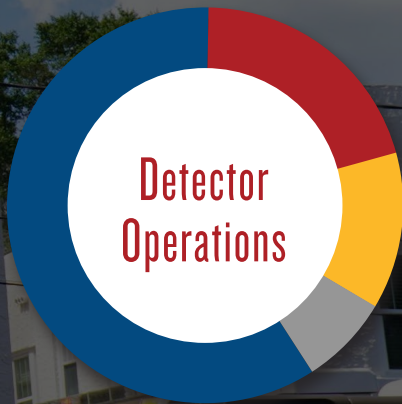

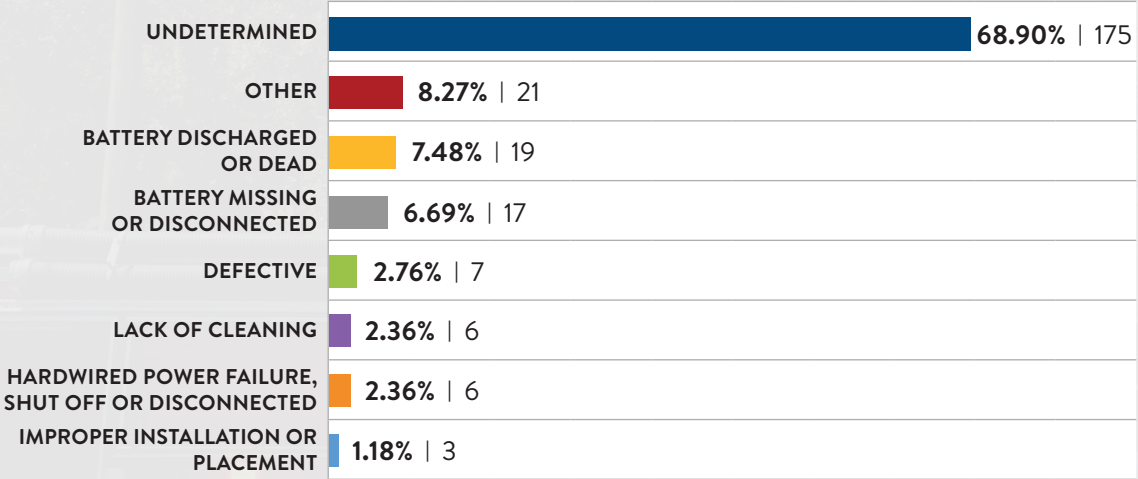

Smoke Alarm Use Data

Smoke detectors were present in **43** percent of reported structure fires, in which the presence or absence of detectors were reported, with **59%** of those operational. **20%** reported as undetermined and **7%** did not operate due to a variety of reasons such as no batteries, lack of maintenance, etc. In **13%**, the fire was too small for the detector to operate. Unfortunately, **34%** of the structures did not have smoke detectors and **23%** of the structures reported as undetermined.

Detector Effectiveness

Detector Failure

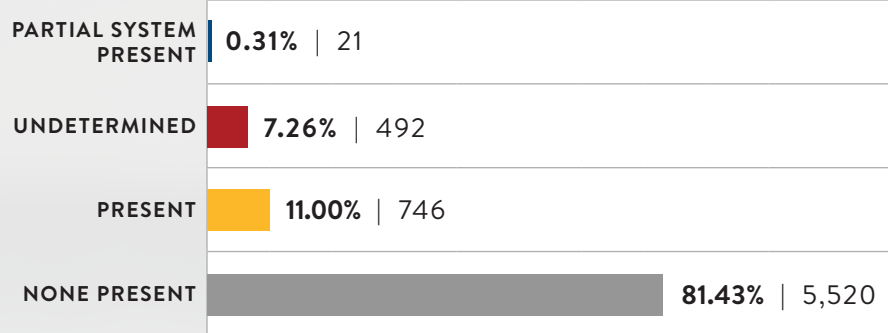

NFIRS is the source of this data which was provided by the **reporting** fire departments.

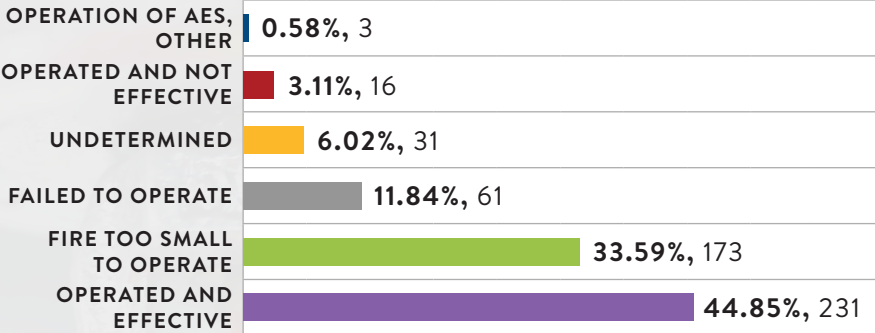

Fire Sprinkler Use Data

Automatic Extinguishing Systems (AES) were present in **11%** of reported structure fires with **45%** of those operational. **8%** were reported as undetermined and **11%** did not operate due to a variety of reason, such as manual intervention, agent discharge but did not reach fire, etc. In **34%** of structure fires, the fire was not in the vicinity of the AES for it to be effective. Unfortunately, in **81%** of the structure fires there was not an AES present and **7%** were reported as undetermined.

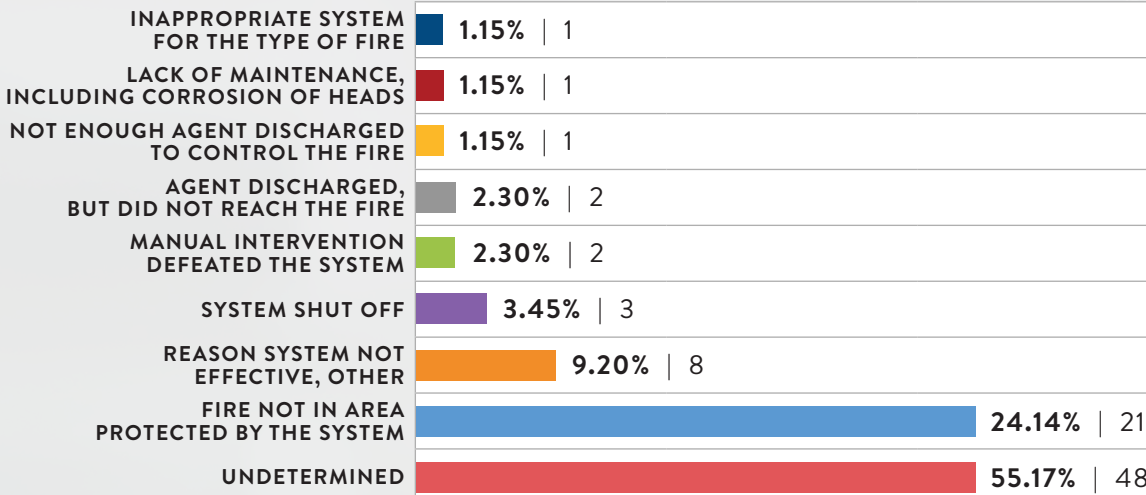

AES Presence

AES Operation

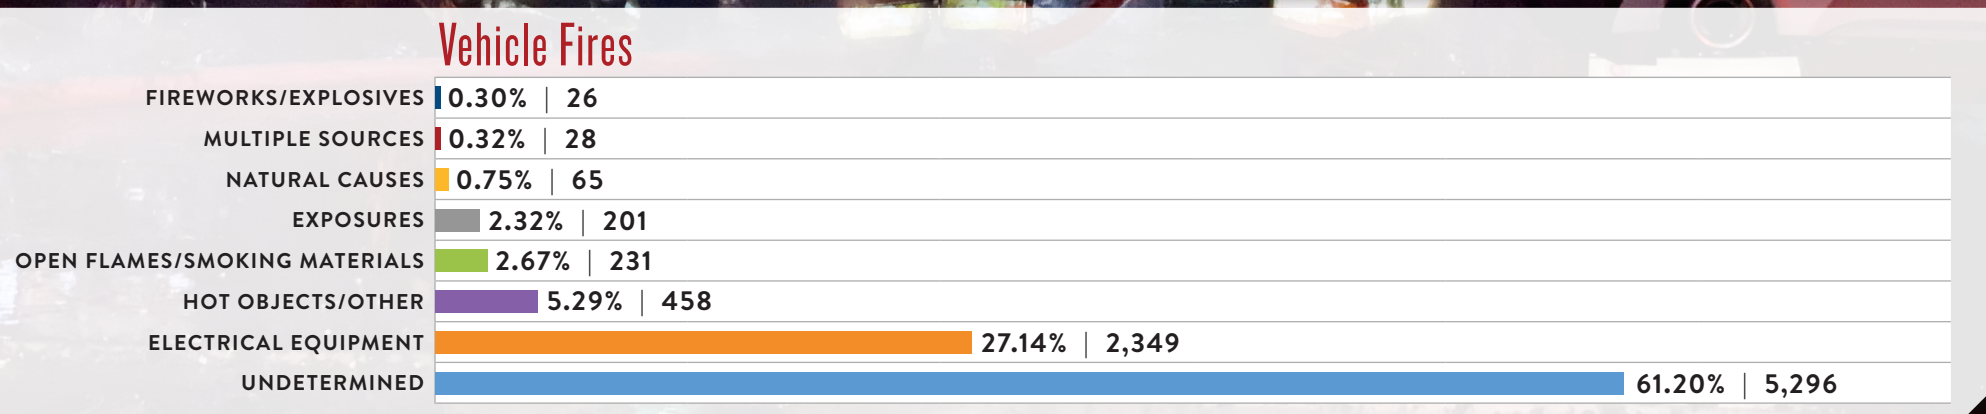

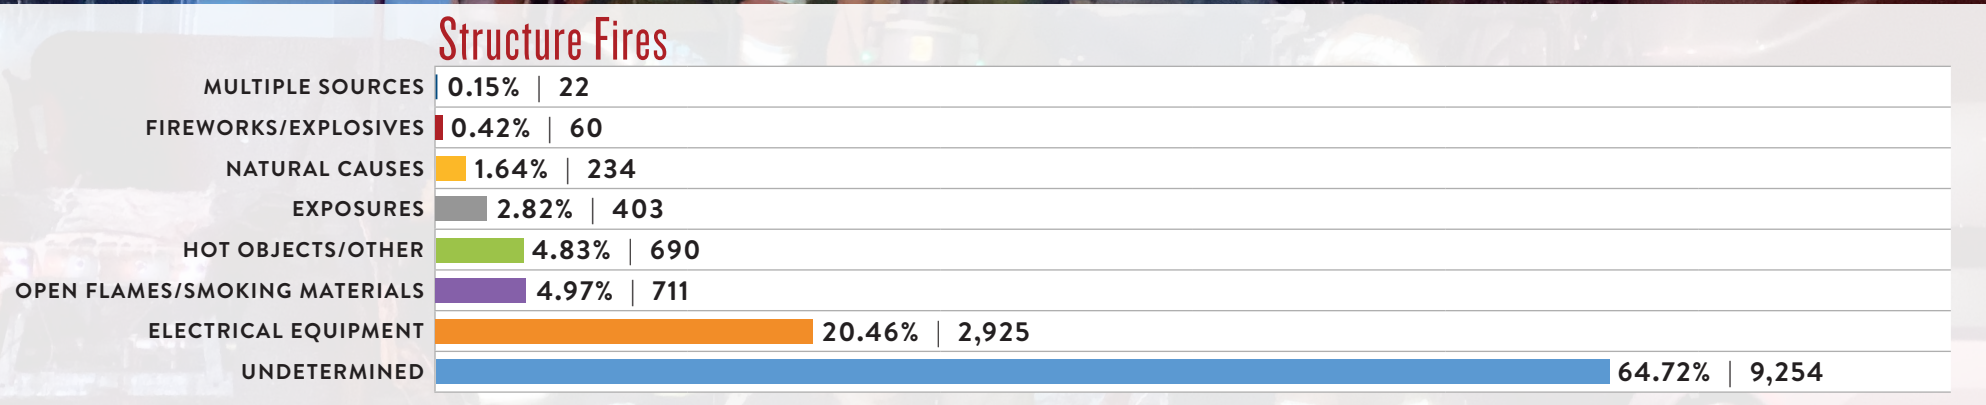

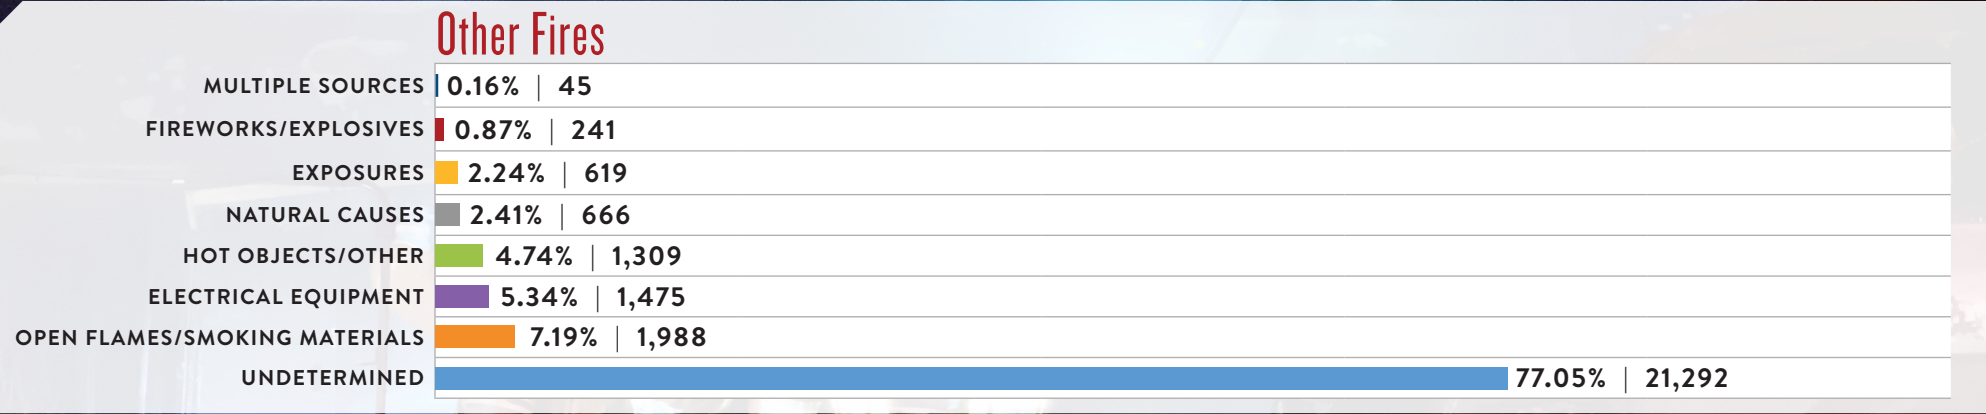

AES Failure

Fire-Related Incidents by Hour, Month, and Quarter

NFIRS is the source of this data which was provided by the **reporting** fire departments.

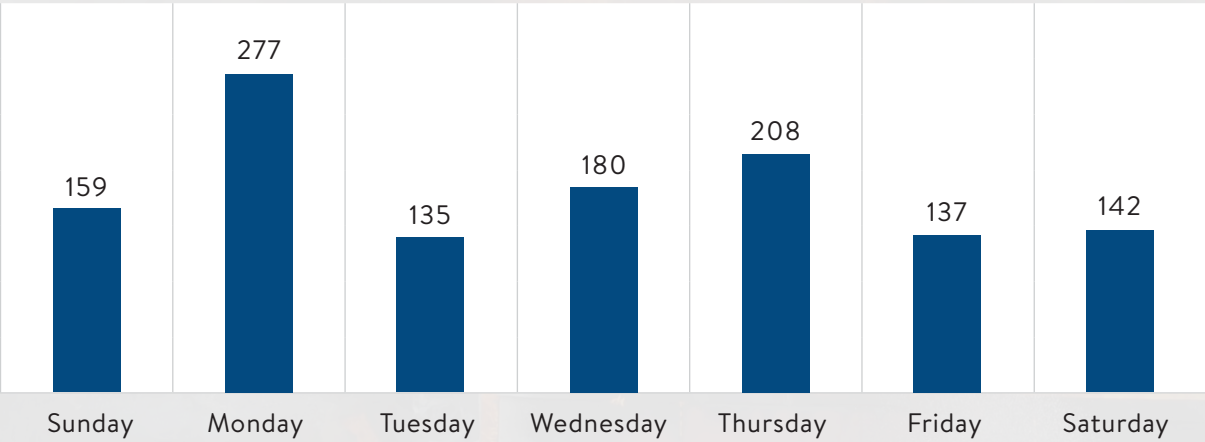

Fire Service Injuries by Hour of the Day

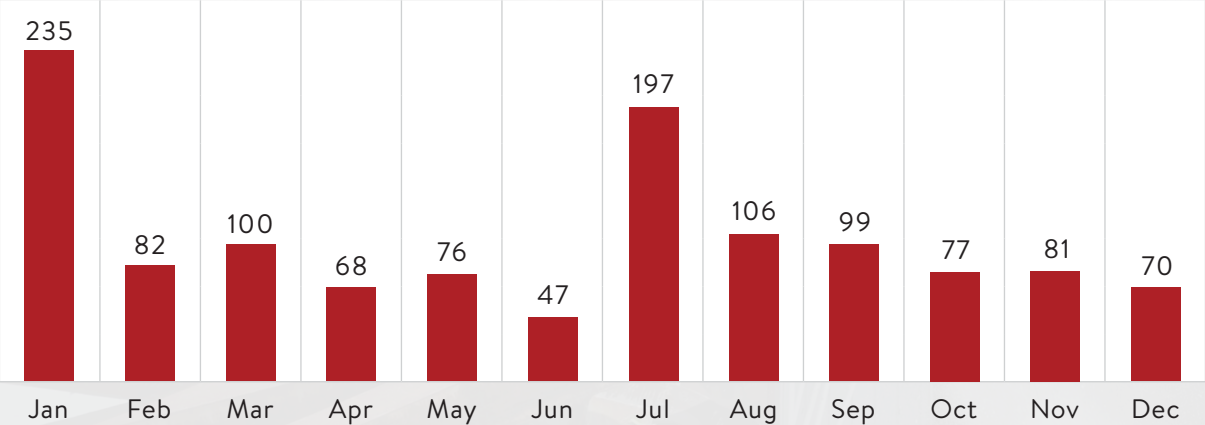

NFIRS is the source of this data which was provided by the **reporting** fire departments.

Firefighter Injuries by Day, Month, and Quarter of the Year

Firefighter Injuries by Day of the Week

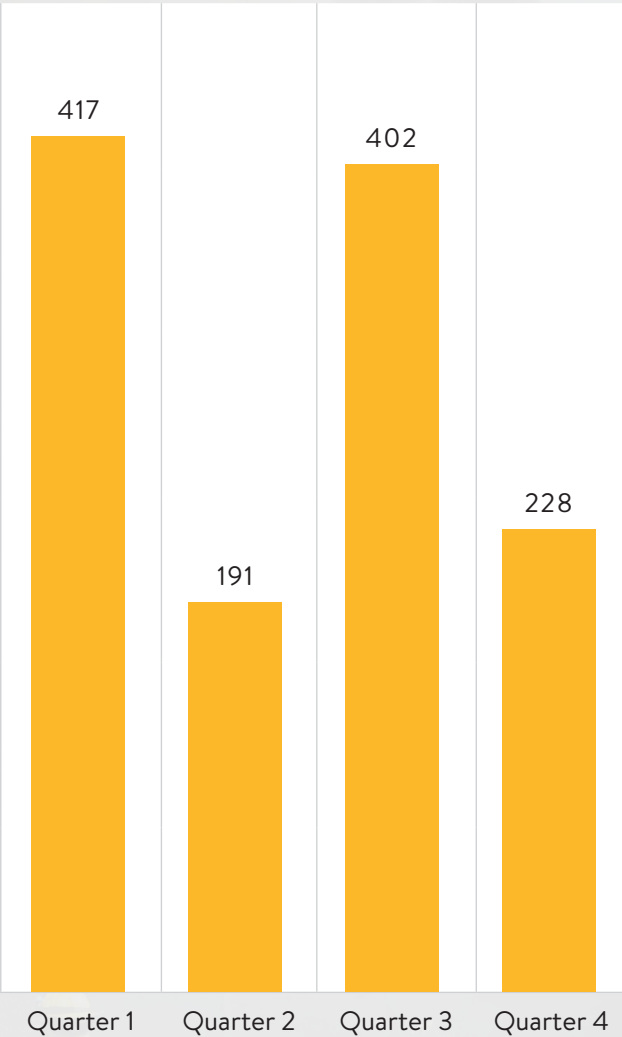

Firefighter Injuries by Month of the Year

NFIRS is the source of this data which was provided by the **reporting** fire departments.

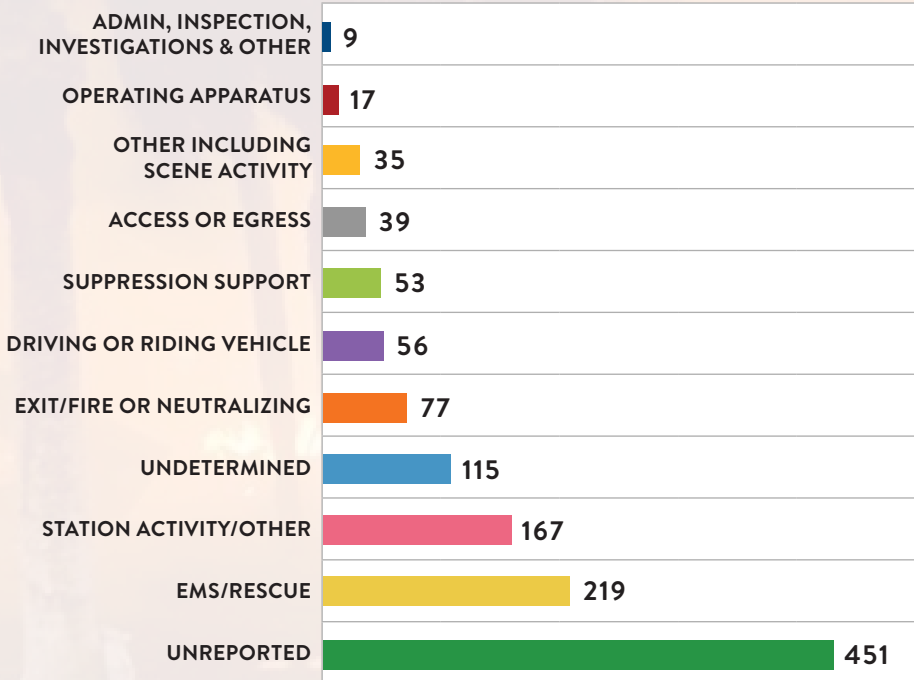

Firefighter Injuries by Quarter of the Year

Firefighter Injuries vs. Number of Incidents

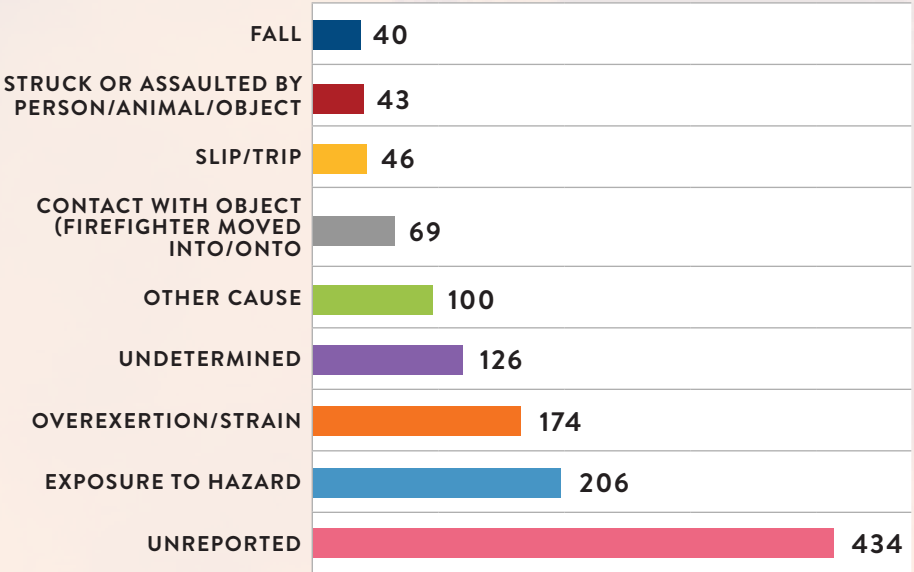

Firefighters throughout Florida deal with a variety of hazards while performing their duties. These hazards include, but are not limited to, smoke inhalation, burns, straining body parts, exposure to chemicals, and stress.

Activity at Time of Injury

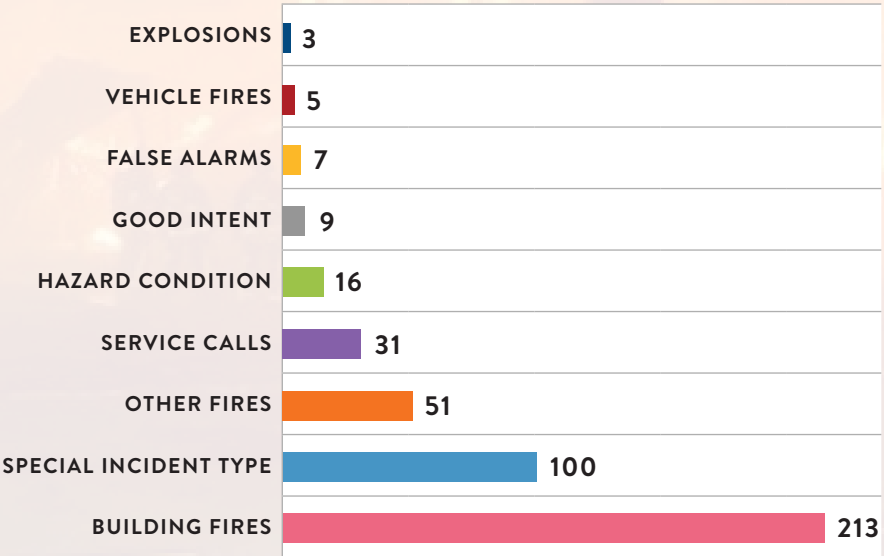

NFIRS is the source of this data which was provided by the **reporting** fire departments.

Cause of Fire Related Injury

Incident Types Resulting in Injuries

Dennis Sams

Satellite Beach Fire Rescue (1977)

Omar Bishr

City of Naples Fire Rescue (2017)

David R. Anken

Florida Forest Service (2019)

Dustin C. Schieber

Seminole County Fire Department (2020)

Scott E. Allender

Melbourne Fire Department (2021)

Randell D. Burnham

Lake City Fire Department (2021)

Giovanni Ciano

Hillsborough County Fire Rescue (2021)

Michael L. Freeland

Jacksonville Fire & Rescue Department (2021)

David H. Hackett

Hernando County Fire & Emergency Services, (2021)

Mario J. Moya

Jacksonville Fire & Rescue Department (2021)

Mitchell R. Weldon

Cocoa Fire Rescue (2021)

Christopher Allen

Hollywood Fire & Rescue (2022)

Douglas Clemons

Polk County Fire Rescue (2022)

James S. Hunt

Melbourne Fire Department (2022)

James N. Leonard

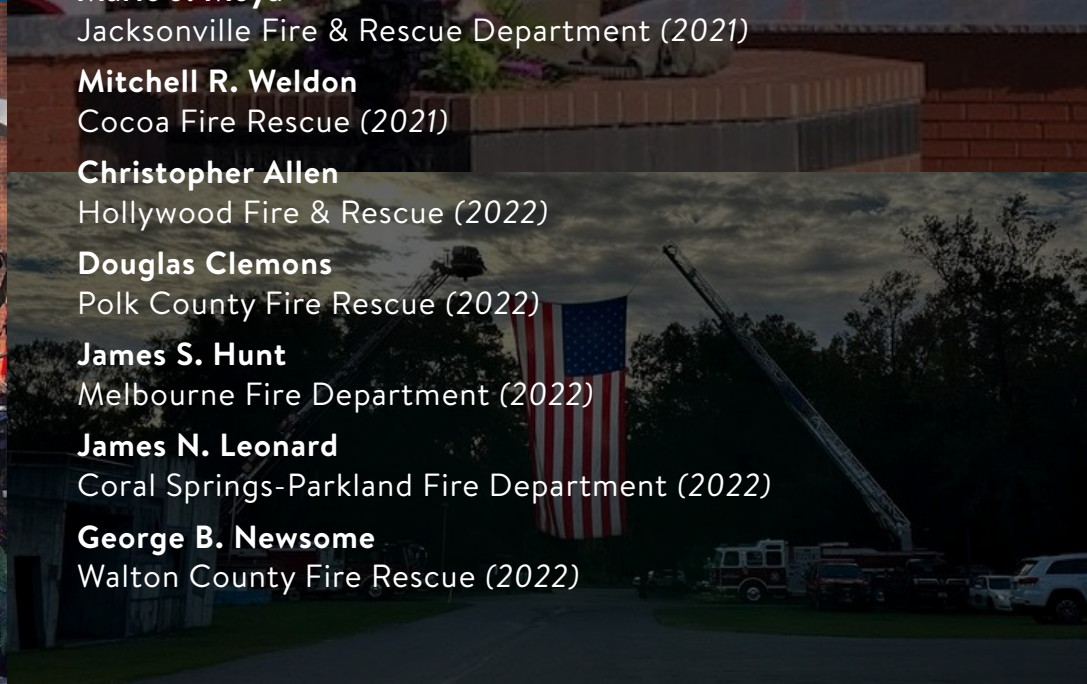

Coral Springs-Parkland Fire Department (2022)

George B. Newsome

Walton County Fire Rescue (2022)

Fallen Firefighter Memorial 2022

Chipola Complex Wildfires

Date EOC was activated: **03/05/2022**

Number of responding fire departments: **47**

Number of missions: **14**

Total days worked: **8**

2022 ESF 4/9 & SERP Response

The constant preparedness of our first responders was highlighted in 2022 with their united response to the devastation left in the wake of Hurricane Ian. This hurricane was the second most destructive storm to strike the United States this century. With recorded sustained winds of 155 mph, Hurricane Ian was only two miles per hour below reaching the levels of a Category 5 storm.

With the forecast threatening Florida, the State Emergency Operations Center activated on September 25, three days before Ian's state-side landfall. At the peak of the response, over 2,600 ESF 4/9 personnel were deployed including 18 state and federal US&R teams representing 153 fire departments and agencies from across the country, which was the largest response to a natural disaster since Hurricane Katrina in 2005. In a little over two weeks, approximately 87,000 structures were searched and over 1,340 survivors were assisted and evacuated from impacted communities.

Local and state fire inspectors coordinated to perform damage assessments of the local fire stations and businesses impacted by the storm. Mental Health teams from across the state assisted nearly 4,000 emergency service personnel and survivors cope with the ravages of the storm. Twelve Engine Strike Teams including water tenders and Ambulance/EMS professionals continued to support emergency services and local communities with recovery efforts in the affected three-county area for over 60 days after the storm's initial landfall.

Directly coming on the heels of Hurricane Ian was Hurricane Nicole, which exacerbated the erosion and flooding issues throughout the state. With their unrelenting focus on public safety, fire service personnel were able to identify structures endangered by possible collapse and mitigate potential life safety damages by directing and evacuating citizens.

Reporting Fire Departments

The following is a listing of the fire departments that reported to the National Fire Incident Reporting System (NFIRS) during 2022.

ALACHUA COUNTY

Alachua County Fire Rescue
Cross Creek VFD
Gainesville Fire Rescue
Lacrosse Fire Department
Micanopy Fire Rescue
Newberry Fire Rescue
Windsor FD

BAKER COUNTY

Baker County Fire Rescue
City of Macclenny

BAY COUNTY

Bay County Emergency Services
Callaway FD
Lynn Haven Fire & Emergency
Mexico Beach Dept P S
Panama City Beach Fire Rescue
Panama City Fire Dept
Parker Fire Department
Springfield Fire Department

BRADFORD COUNTY

Bradford Couty Fire Rescue
Starke Fire Department

BREVARD COUNTY

Brevard County Fire Rescue
Canaveral F/R
Cocoa Beach Fire Department
Cocoa FD
Indian Harbour Beach Vol FD
Indialantic Fire Dept
Kennedy Space Ctr Fire Rescue

Malabar Fire Rescue
Melbourne Beach Vol FD
Melbourne Fire Department
Palm Bay Fire Department
Rockledge Fire & Emer Services
Satellite Beach FD
Titusville Fire & Emergency

BROWARD COUNTY

Broward County FR & EMS
Coconut Creek Fire Rescue
Coral Springs Fire Dept.
Davie Fire Rescue
Hallandale Beach Fire Rescue
Hollywood Fire Rescue
Lauderdale by the Sea VFD
Lauderhill Fire Rescue
Margate Fire Rescue
Miramar Fire Rescue
North Lauderdale Fire Rescue
Oakland Park Fire Rescue
Pembroke Pines Fire Rescue
Plantation FD
Pompano Beach Fire/Rescue
South West Ranches Vol
Sunrise Fire Rescue
Tamarac Fire Department

CALHOUN COUNTY

Blountstown FD
Kinard Vol FD
Mossy Pond Vol Fire Dept
Nettle Ridge Vol Fire Dept
Scotts Ferry Vol FD

CHARLOTTE COUNTY

Charlotte County Fire/EMS
Punta Gorda FD

CITRUS COUNTY

Crystal River Fire Department
Inverness Fire Department

CLAY COUNTY

Clay County Public Safety Dept

COLLIER COUNTY

City of Naples Fire Rescue
Greater Naples F/R Dist
Immokalee Fire Dept
Marco Island FCD
North Collier FCR Dist

COLUMBIA COUNTY

Columbia County Fire Dept

The following departments voluntarily requested and completed a safety compliance inspection in 2022:

- Avon Park Fire Department
- Lake Mary Fire Department
- Davenport Volunteer Fire Department
- Longwood Fire Department
- Deland Fire Department
- Orange City Fire Department
- Dixie County Emergency Services
- Orange Hill Volunteer Fire Department
- Grand Ridge Fire Department
- Palm Beach County Fire Rescue
- Hillsborough County Fire Rescue
- Pensacola Fire Department
- Indialantic Fire Rescue
- Umatilla Fire Department
- Inverness Fire Department
- Useppa Island Fire Department

University of Miami

RISK AND EXPOSURE:

FCI developed new methods to measure **UV EXPOSURE** to address **skin cancer burden** in firefighters.

FCI evaluated the use of toe-nails as a biomarker of exposure to **HEAVY METALS** that lead to cancers.

FCI Mobile Clinic ▼

EDUCATION AND SURVIVORSHIP:

FCI developed an education curriculum **CANCER PREVENTION AND RISK REDUCTION**, as well as cognitive-based stress management intervention for firefighter cancer survivors.

ANNUAL FIREFIGHTER CANCER SYMPOSIUM:

Each year FCI hosts

400-500

national and international firefighters, scientists, government officials and dignitaries to discuss and learn the latest State of the Science in firefighter cancer research.

UCF Restores

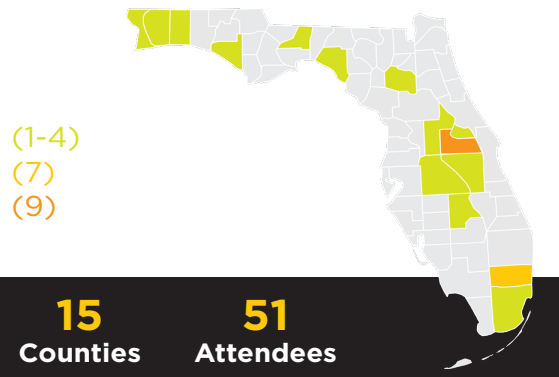

- Generated over 5,000 contacts with first responders in the field.
- Clinical back-up to deployed peer support specialists.
- Three impromptu debriefings at Incident Command Center.
- Distribution of UCF's Single Session Consultation Line with 35 calls during active deployment period.

Clinician Awareness Program

A new initiative in 2023, UCF RESTORES has developed and is providing a course for clinicians entitled Understanding Fire Service Culture.

So far in 2023, there have been three trainings with 51 attendees from 15 Florida counties.

Clinician Awareness Program 2023

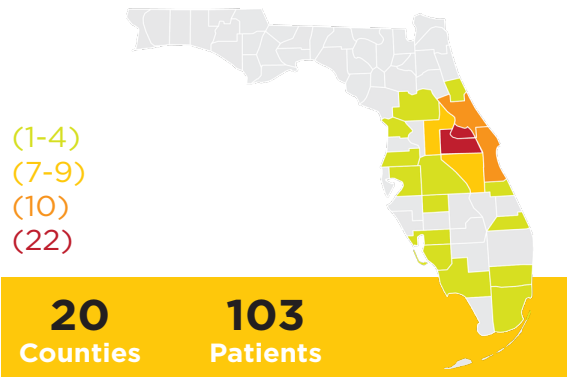

Fire Fighters Treated

In 2022, UCF RESTORES provided clinical treatment services to 103 Florida fire fighters experiencing PTSD and trauma-related concerns.

Our team of behavioral health experts use evidence-based treatments that utilize technology to effectively treat trauma and PTSD.

Fire Fighters Treated 2022

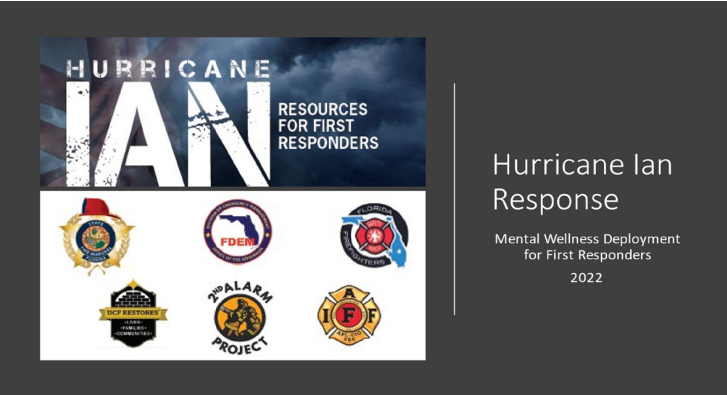

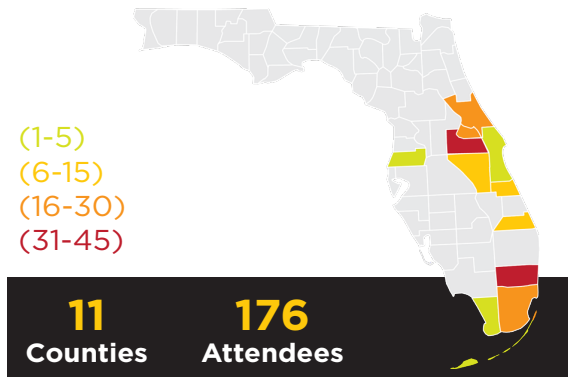

REACT Training Program

REACT is designed to give first responders challenges at which they can succeed, bolstering confidence in their ability to provide effective support to their peers.

In 2022, 176 Florida fire fighters from 29 agencies in 11 counties attended REACT trainings.
