

CHIEF FINANCIAL OFFICER
JEFF ATWATER
STATE OF FLORIDA

October 7, 2011

The Honorable Rick Scott
Governor of Florida
The Capitol Building, Plaza Level
Tallahassee, Florida 32399-0300

Dear Governor Scott:

I am pleased to submit to you the Annual Report for the Department of Financial Services' Division of Treasury for Fiscal Year 2010-2011.

Please let me know if you have any questions or would like additional information.

Sincerely,

A handwritten signature in black ink that reads "Jeff Atwater".

Jeff Atwater
Chief Financial Officer

JA/bhm
Enclosure

The Chief Financial Officer is the constitutional officer with the fiduciary responsibility over the Division of Treasury (17.55 F.S.). As a core function of the Department of Financial Services, the Division of Treasury's goals are to be effective stewards of the operational monies and other financial assets of the State and to assist state employees with tools to help them prepare for financial security during their retirement years (17.57 F.S.).

THE DIVISION OF TREASURY HAS THREE BUREAUS:

- The Bureau of Funds Management
- The Bureau of Collateral Management; *and*
- The Bureau of Deferred Compensation

THE BUREAU OF FUNDS MANAGEMENT operates a cash management system to maximize investments by speeding the flow of funds into the State Treasury. An emphasis on cash management consulting has identified potential cost reductions and interest earning opportunities for state agencies. The Bureau also performs standard treasury functions; such as, operating statewide deposit concentration, receipts, and payments posting systems. Additionally, the Bureau manages a fixed income investment operation, the Treasury Investment Pool (Pool). The Pool consists of general revenue and trust funds in the Treasury, as well as, funds of organizations participating in the Treasury Special Purpose Investment Accounts (SPIA). SPIA is an optional investment program open to all entities established by the Florida Constitution/Statute.

The Treasury Investment Pool utilizes a combination of short and intermediate term fixed income investment strategies. The asset structure of the pool is designed to provide strong liquidity, preserve capital and provide excess returns to the State. This is done through the use of short term, high-quality investments, as well as, additional investment income using intermediate investments.

During the 2010-2011 fiscal year, the weighted average daily balance of investment holdings was \$18 billion, an increase of \$1.9 billion or approximately 12% from the prior year.

The Treasury was able to provide positive earnings each month for the 2010-2011 fiscal year. During this period, the Treasury recognized interest earnings of \$455 million. Interest earnings provide additional state resources and are a major source of non-tax revenue.

THE BUREAU OF COLLATERAL MANAGEMENT is a centralized deposit location for specialized handling of regulatory collateral deposits. Regulatory collateral deposits are required of various entities by state agencies as a condition of doing business or acts of guarantee. Asset management staff is responsible for maintaining regulatory collateral deposits for 1,860 combined accounts that represent in excess of \$13.7 billion dollars. Program administration staff is responsible for protecting more than \$21 billion in public funds deposited in 181 Qualified Public Depositories (QPD) statewide. These deposits are protected by more than \$11 billion in pledged assets and a shared contingent liability managed by the Bureau. Due to the current overall economy in the Florida financial industry, the Bureau continues to maintain an exceptionally high level of monitoring of the state's Qualified Public Depositories. Analysis and oversight is more frequent and more in depth than it has been in the past. In the first 27 years of the program (1981-2008) there were three QPD failures. In calendar year 2009 there were eight failures and in 2010 there were eighteen. In the first seven months of 2011, there have been four failures with more expected before year end. Each failed institution was collateralized in excess of their minimum requirement and each was acquired by a new institution with all public deposits transferred to the new owners. We will continue a program of increased monitoring to more accurately gauge the appropriate collateral requirements for these depository institutions.

THE BUREAU OF DEFERRED COMPENSATION manages the Deferred Compensation Program, a pre-tax investment program designed to supplement state employees' pension plans. The Deferred Compensation Program provides employees of the State of Florida with tools to help them prepare for financial security during their retirement years. To achieve this goal, the Bureau partners with investment vendors to offer excellent customer service and investment products at a reasonable cost. The Bureau has made notable additions to their vendors' investment portfolio and increased its communication efforts to state employees. The Deferred Compensation Program has more than 81,000 accounts and total assets over \$2.6 billion.

STATEMENT OF ASSETS AND LIABILITIES

STATEMENT OF ASSETS AND LIABILITIES continued

- (1) Unemployment Trust Fund represents U.C. Benefit Funds invested by the Federal government and due from the U.S. Treasury.
- (2) Plan assets held in the Deferred Compensation Trust Fund for the exclusive benefit of participants and their beneficiaries.
- (3) Represents the "Per Reconciled Cash Balance" of \$57,839,769.85 as of June 30, 2011, with receipted items in transit of \$135,750,193.06 and disbursed items in transit of (\$148,611,897.31), which nets to (\$12,861,704.25). These items have cleared the bank but have not been posted to the state ledger. The Total Bank Accounts figure does not include \$11,892,235.98 held in clearing and/or revolving accounts outside the Treasury.
- (4) The amount due to agency participants in the Consolidated Revolving Account as of June 30, 2011, is \$7,493,388.20. Of this, \$353,388.20 is in a financial institution account and \$7,140,000.00 is invested in Special Purpose Investment Accounts.
- (5) Represents the CFO's Special Purpose Investment Accounts held in the Treasury Investment Pool and interest due to those accounts. The CFO's Special Purpose Investment Accounts are investments on behalf of state agencies with funds outside the CFO's Cash Concentration System and other statutorily or constitutionally created entities.
- (6) Includes Purchased Interest in the amount of \$2,220,616.26.
- (7) Included in the Trust Fund Balance is \$5,144,823,903.72 earning interest for the benefit of Trust Funds; Unemployment Trust Fund balance of \$68,128,132.17; and the remaining balance of \$4,160,731,097.96 earning interest for General Revenue.
- (8) Represents \$8,109,119.68 in interest not yet receipted to State Accounts and Securities Liability Cost of \$4,290,280 which settles July 2011.
