

UPDATED VISA® INTERCHANGE PROGRAMS-U.S.

Bank of America Merchant Services is taking this opportunity to provide to you as a courtesy, this quick reference document. This document reflects historical and upcoming modifications to interchange fee programs and performance tier processing volume requirements as announced by Visa as part of a release.

This list is not all inclusive and does not include all qualification criteria that may be necessary to achieve certain interchange assessments. A rate's inclusion in this document does not indicate Bank of America Merchant Services current support of that rate. Bank of America Merchant Services delivers separate written letter notice when modifications to interchange fee programs result in a change to a client's pricing terms. Detailed interchange rate schedules based on agreed pricing methods, including all qualifying criteria, may be requested through your normal customer service contact if needed.

For historical reference, we are providing the interchange rates effective April 14, 2018, October 13, 2018, and April 12, 2019. Upcoming changes are highlighted in **blue**.

Performance Thresholds	Minimum Transaction Count	Payment Volume Minimums	PCI
Threshold 1	95.5 million	\$5.8 billion	Required
Threshold 2	58.2 million	\$3.3 billion	Required
Threshold 3	15.2 million	\$840 million	Required

In addition, the following guidelines pertain to the credit tier incentive rates:

^{*} In determining eligibility for performance-based interchange, Visa counts only the applicable retail and supermarket transactions that settled at the best available rates (CPS Retail, CPS Supermarket, CPS Rewards 1, or US VSP RTL) during the 12-month period ending **September 30, 2018**. Visa will review and update the performance criteria periodically.

^{*} Maximum Chargeback Ratio measured by total sales-chargebacks originating from Visa-branded consumer credit products to total sales transactions originating from Visa-branded consumer credit products, settled through VisaNet during the 12-month period ending **September 30, 2018**.

^{*} Merchants in the performance thresholds are required to remain PCI compliant to continue to be eligible for performance-based interchange. Merchants that are not PCI compliant by **September 30, 2018** or that become non-compliant after **September 30, 2018** will be downgraded a threshold rate until compliance is validated.
