

CHIEF FINANCIAL OFFICER  
JIMMY PATRONIS  
STATE OF FLORIDA

April 22, 2020

The Honorable Mike Pompeo  
Secretary  
Department of State  
2201 C Street NW  
Washington, D.C. 20520

Dear Secretary Pompeo,

I want to thank you and President Trump for your leadership and service to Americans during the COVID-19 crisis. This is a difficult time in our nation's history as Americans have lost, and continue to lose, loved ones to the virus. In Florida we are lucky to have a Governor and congressional delegation that are working together to get families through this crisis, save lives, and get Americans back to work.

As you are aware, our nation is under attack by an unseen enemy and the financial impact of COVID-19 to both federal and state budgets is great. Clearly, if another nation attacked our country, and inflicted the kind of economic harm that is being brought to the American economy, we would demand restitution. While the national media may debate whether COVID-19 came from a wet market or a lab in Wuhan, everyone agrees it originated in China. Moreover, there's no debate that lives could have been saved had the Chinese government been more transparent with the world about the severity, and contagious nature of the COVID-19 virus.

Based on these facts, I am of the opinion that China has a debt to pay to our country, and the State of Florida, for their negligence and deceptive practices. It is my hope that the administration is working to secure financial compensation from China.

To aid in these efforts, as Florida's Chief Financial Officer I am requesting the U.S. Department of State provide our Division of Unclaimed Property with technical assistance in identifying Chinese state-owned businesses that may have unclaimed property that is housed in the State of Florida Treasury.

The State of Florida is in possession of \$2 billion in unclaimed property, including assets that may be owned by businesses controlled by the Chinese government. Your partnership in providing U.S. State Department information about the

international domicile of some of these businesses would be essential in helping our Division of Unclaimed Property identify any Chinese government assets currently classified as “unclaimed” in Florida. While we know there is currently no national policy to recoup Chinese assets, including any identified in Florida, we believe the identification of these assets at the very least would give greater information to President Trump and Congressional leaders who continue to debate possible penalties on China for the suppression of information about the Coronavirus.

Your assistance is required in this process. If proven successful, Florida could serve as a model for the other 49 states in identifying resources that could help get our country back on its feet.

I look forward to your response,

Jimmy Patronis  
Chief Financial Officer  
State of Florida
