

FloridaPALM

Planning, Accounting, and Ledger Management

Florida's journey to a new, modern financial management system

Project Overview

The State of Florida has embarked on a multiyear endeavor to replace the current accounting and cash management systems (FLAIR and CMS) with a cloud-based financial management solution. The Florida PALM Team is working with agencies to design and implement a standardized, scalable, statewide system that will enhance Florida's business practices and position Florida for future innovation.

Florida PALM Priorities

Maintain and Prepare Existing Systems

DFS will continue operating FLAIR and CMS until agencies are fully transitioned to Florida PALM

Build and Transition to Florida PALM

The Florida PALM Team will collaborate with agencies and other stakeholders as they transition to the new system

Bridge the Systems

The Florida PALM Team will work with State agencies to develop interfaces between the various systems

Benefit Agencies

State agencies will benefit from enhanced features, improved user access, and a modernized user experience

Transition Timing

Visit the Florida PALM website to see a more detailed timeline

myfloridacfo.com/floridapalm
