Florida PALM Project Update
Risks and Issues

- Since the last ESC meeting
  - One risk related to participation in All Agency Confirmation activities has been closed
  - Two risks has been logged:
    - FY 20/21 Proviso identifies new requirements for the Project which could impact items on the Schedule
    - Organization Business Systems Readiness

- Risks and Issues with a high probability and impact will continue to be shared via monthly status reports and discussed (if necessary or as requested) with the ESC

Florida PALM Project Update

Scope – Standardized Business Process Models

- Documents the design for Florida PALM, as of the end of Wave 2, by capturing end-to-end business processes through process flows and narratives, collectively known as a process model.
- Major Project Deliverable created through extensive engagement with A&A, Treasury, FFMIS partners, and organizations.
- Similar documents will be created for:
  - Interim State – Processes that Wave organizations will follow at Pilot; processes Pilot organizations will follow when interacting with Wave organizations.
  - Wave 3 – Payroll processes that all organizations will follow.
  - Phase 2 – Enhanced to new processes that all organizations will follow when enhanced functionality is implemented.

Florida PALM Solution Analysis and Design Update

Representatives statewide collaborated and shared feedback on the draft Florida PALM design in All Agencies Confirmation sessions.

The proposed design will be reviewed by the Executive Steering Committee this summer. After approved, the Team will publish the final design.

- View session materials
- 52 Hours spent reviewing the design with agencies
- 278 Agency users attended 6 sessions
Florida PALM Project Update

Scope – Standardized Business Process Models

- All Agencies Confirmation (AAC) (continued)
  - 26 of 33 organizations that participated in AACs provided an AAC Feedback Form
  - 178 specific responses were received related to the Standardized Business Process Models
    - Half can be classified into 6 overarching themes
    - Remaining were general comments or “How Do I …” type questions
Florida PALM Project Update
Scope – Standardized Business Process Models

- Agency Feedback Themes
  1. Agency Business Systems
     - How often will agency business systems interface with Florida PALM to exchange data?
     - When will we know interface details so that we can modify agency business systems?
     - Are we required to use the Florida PALM functionality or can we continue using our agency business systems?
Florida PALM Project Update
Scope – Standardized Business Process Models

- Agency Feedback Themes (continued)
  2. Consolidated Payments
    - What will be the impact to agency and DFS processes related to payment consolidation?
    - Will suppliers be able to identify which invoices were paid if one payment is remitted for multiple invoices?
    - Can certain payments be exempt from consolidation?

3. Grants and Projects
   - How will my organization manage grant tracking and reporting without a grant ChartField?
   - Can organizations reclassify expenditures and update life-to-date balances?
Florida PALM Project Update

Scope – Standardized Business Process Models

- Agency Feedback Themes *(continued)*
  4. Operational and Financial Reporting
  - In the new chart of accounts, will information be available to meet my agency specific reporting needs?
  - What is the timing of monthly closings and how will that impact my agency processes?
  - What capabilities will be available to make adjustments to closed periods?
Agency Feedback Themes (*continued*)

5. Budget and Encumbrances
   • Will organizations have flexibility in recording encumbrances and what will be the impact to available budget?
   • Will organizations have flexibility in recording allotments at varying levels?

6. Security and Controls
   • What internal controls or security measures will be implemented to restrict access to confidential information or sensitive data?
Florida PALM Project Update
Scope – Standardized Business Process Models

- 30 of 32 business processes were updated after AACs
- Updates were grouped into four types:
  - Administrative – Updated on- and off-page references and corrected spelling, grammar, and numbering
  - Clarification – Minor updates to narratives or flows to improve clarity
  - New – Added a new business process, roles, interfaces, reports, and process steps
  - Modification – Updates to process steps and timing

Florida PALM Project Update
Scope – Process and Transaction Mapping Analysis

- Documents the mapping from legacy processes, terms, and transactions to the Florida PALM processes, terms, and transactions
- Anchors to the Standardized Business Process Models
- Leveraged legacy documents, such as the FLAIR Manual, to identify current transactions (76), terms (31), and processes (91) that were cross-walked (mapped) to Florida PALM terms and processes
- Will serve as a tool for building end-user understanding of future business processes and adoption of Florida PALM
Florida PALM Project Update

Scope – Process and Transaction Mapping Analysis

- The document is broken into a general analysis section and then sections for each of the eight Business Process Groupings.

- Each section contains:
  - high-level changes occurring to the business process
  - a crosswalk of terms used in the current business process with the proposed terms in Florida PALM
  - changes identified between the current activities and processes to those proposed for Florida PALM
Florida PALM Project Update
Scope – Requirements Confirmation

- Confirmation efforts refined the approach to meeting the State’s requirements
- 75% will be met through delivered or configured functionality
- 58 requirements were noted as to be met through Extension
- 4 Business Process Change requirements are related to:
  - Cut off time for invest/disinvest transactions
  - Consolidating deposit transactions
Florida PALM Project Update
Scope – Requirements Confirmation

- Solution Analysis and Design efforts aligned to Business Process Groupings
- Three subject areas represent more than half of the requirements:
  - Disbursements Management
  - Account Management and Financial Reporting
  - Technical
