FLORIDA PALM UPDATE

OCTOBER 25, 2017
Florida PALM Update
Overview of FLAIR and CMS

- Florida Accounting Information Resource (FLAIR) was implemented 35 years ago to provide accounting resources to State agencies
- FLAIR processes $90 billion in payments annually (including $3.5 billion in payroll)
- FLAIR has over 16,000 users statewide
- FLAIR limitations include paper intensive processing, no predictability/forecasting, and lack of availability of IT support
There are limited resources providing direct support to FLAIR for fixed or variable efforts. Many of the assigned resources have skills gaps requiring additional training/supervision and affecting capacity. Existing staff will continue to retire and acquisition of qualified resources is very difficult. Staff augmentation is required. Department continues to pursue FLAIR support services.
CMS (Cash Management System) has similar challenges

CMS provides cash and investment management functionality for the State

CMS processes over $90 billion in deposits and disbursements annually and maintains over $23 billion in investments

CMS limitations include:
- Lack of a consolidated Treasury financial ledger
- Lack of availability of IT support
Florida PALM Update

Overview of FLAIR and CMS

- Business Case delivered in March 2014 recommended the State replace FLAIR and CMS with a financial management solution that runs on commercially available software.
- Business Case recommended initially implementing core functionality in a pilot and then expand agencies and functionality.
- Florida PALM (Planning, Accounting, and Ledger Management) is business transformation project supported by technology.

Project Phases

- **Current Phase:**
  - Planning, Process Standardization, Procurement, and Readiness for Implementation
  - FY 17-18 marks the fourth year of Project

- **First Implementation Phase** – Implement Core Functionality over an estimated five years *(according to 2014 business case)*

- **Subsequent Implementation Phase(s)** – Implement Expanded Functionality over an estimated five years *(according to 2014 business case)*
The Florida PALM Project operates on three core principles:

1. Create a realistic plan to complete the FLAIR and CMS replacement project
2. Incorporate a number of smaller objectives along a deliberate timeline
3. Acknowledge the statewide aspect of the project and the impact to the other Florida agencies
